The New History And The Old Critical Essays And Reappraisals:

The New History and the Old Gertrude Himmelfarb, 2004 For this updated edition of her acclaimed work on historians and historiography Himmelfarb adds four new essays In examining the effects of postmodernism the illusions of cosmopolitanism A J P Taylor and revisionism and Fukuyama's end of history Himmelfarb enriches her exploration of the ways historians make sense of the past *Beyond the American Pale* David M. Emmons, 2012-10-11 Convention has it that Irish immigrants in the nineteenth century confined themselves mainly to industrial cities of the East and Midwest The truth is that Irish Catholics went everywhere in America and often had as much of a presence in the West as in the East In *Beyond the American Pale* David M Emmons examines this multifaceted experience of westering Irish and in doing so offers a fresh and discerning account of America's westward expansion Irish in the West is not a historical contradiction but it is and was a historical problem Irish Catholics were not supposed to be in the West that was where Protestant Americans went to reinvent themselves For many of the same reasons that the spread of southern slavery was thought to profane the West a Catholic presence there was thought to contradict it to contradict America's Protestant individualism and freedom The Catholic Irish were condemned as the clannish backward remnants of an old cultural world that Americans self consciously sought to leave behind The sons and daughters of Erin were not assimilated and because they were not assimilable they should be kept beyond the American pale As Emmons amply demonstrates however western reality was far more complicated Irish Catholicism may have outraged Protestant inspired American republicanism but Irish Catholics were a necessary component of America's equally Protestant inspired foray into industrial capitalism They were also necessary to the successive conquests of the frontier wherever it might be found It was the Irish who helped build the railroads dig the hard rocks man the army posts and do the other arduous dangerous and unattractive toiling required by an industrializing society With vigor and panache Emmons describes how the West was not so much won as continually contested and reshaped He probes the self fulfilling mythology of the American West along with the far different mythology of the Irish pioneers The product of three decades of research and thought *Beyond the American Pale* is a masterful yet accessible recasting of American history the culminating work of a singular thinker willing to take a wholly new perspective on the past **History** Peter Claus, John Marriott, 2017-04-07 Demystifying the subject with clarity and verve *History An Introduction to Theory Method and Practice* familiarizes the reader with the varied spectrum of historical approaches in a balanced comprehensive and engaging manner Global in scope and covering a wide range of topics from the ancient and medieval worlds to the twenty first century it explores historical perspectives not only from historiography itself but from related areas such as literature sociology geography and anthropology Clearly written accessible and student friendly this second edition is fully updated throughout to include An increased spread of case studies from beyond Europe especially from American and imperial histories New chapters on important and growing areas of historical inquiry such as environmental history and digital history Expanded

History and Context in Comparative Public Policy Douglas E. Ashford, 2010-11-23 Douglas E Ashford joins a growing number of scholars who have questioned the behaviorist assumptions of much policy science The essays in this volume show why policy analysis cannot be confined to prevailing methods of social science Policy making behavior involves historical contextual and philosophical factors that also raise critical questions about the concepts and theory of the discipline Ashford asks difficult questions about the contextual conjunctural and unintentional circumstances that affect actual decision making His bridging essays summarize opposing viewpoints and conflicting interpretations to help form a new agenda for comparative policy analysis

Accomplished via an absorbing blend of personal wit impassioned oratory innovative missiological strategy and striking theological perception the result was a stimulating history of public advocacy that sought a revival of confidence in Evangelicalism's message and a constantly reforming vision of Evangelicalism's method Such a legacy marks Chapman as a central figure within the generation of postwar leaders whose work has given Australian Evangelicalism its contemporary shape and dynamism
