Christianity as mystical fact and the mysteries of antiquity Rudolf Steiner, 2016-11-10 Because of his sense of the interconnectedness of the spiritual world with nature art medicine and all the rest of life Rudolf Steiner was a profound polymath In his seminal study Christianity as Mystical Fact he turned his esoteric genius to interpreting the Christ event as the turning point in the world s spiritual history an incarnation whose significance he saw transcending all religions Bishop Frederick H Borsch professor of New Testament and chair of Anglican Studies Lutheran Theological Seminary Philadelphia As simultaneously mysticism and fact Christianity is a breakthrough in the historical development of humanity for which the mysteries with the results that they brought about form a prior evolutionary stage Rudolf Steiner During the fall and winter of 1901 1902 Steiner gave a series of lectures called Christianity As Mystical Fact to members of the Theosophical Society The lectures were rewritten and issued as a book later that year They mark a watershed in the development of Western esotericism Steiner wrote of the idea behind his book The title Christianity As Mystical Fact was one I gave to this work eight years ago when I gathered together the content of lectures given in 1902 It was meant to indicate the special approach adopted in the book Its theme is not just the mystical side of Christianity in a historical presentation It was meant to show from the standpoint of a mystical awareness how Christianity came into being Behind this was the idea that spiritual happenings were factors in the emergence of Christianity which could only be observed from such a point of view It is for the book itself to demonstrate that by mystical I do not in any way imply a vague intuition rather than strict scientific argument In many circles mysticism is understood as just that and therefore it is distinguished from the concerns of all genuine science In this book however I use the term to mean a presentation of spiritual reality a reality accessible only to a knowledge drawn from the sources of spiritual life itself Anyone who denies the possibility of such knowledge in principle will find its contents hard to comprehend any reader who accepts the idea that mysticism may coexist with the clarity of the natural sciences may acknowledge that the mystical aspect of Christianity must be described mystically This is a fundamental book in Steiner s own development in that of Western esotericism and for our understanding of the Christ event Readers will find the evolutionary development from the ancient Mysteries through the great Greek philosophers to the events portrayed in the Gospels Included are an informative introduction and annotated notes by Andrew Welburn and an afterword by Michael Debus a priest of the Christian Community who summarizes the book and places it in context

Islam, Christianity and the Mystic Journey Ian Richard Netton,2011-04-30 This distinctive comparison of Islamic and Christian mysticism focuses on the mystic journey in the two faith traditions the journey which every believer must make and which leads to the Divine. The author clears away misconceptions and highlights similarities and differences in the thought and lives of six key mystics: Al Kalabadhi, Al Daylami, Al Qushayri, Julian of Norwich, Thomas a Kempis and Teresa of Avila. He considers the ways of Perfection on the Mystic Path and asks in what ways these authors have embarked on the mystic journey.
