The Netherlands At War 1940 1945:

The Netherlands at War: 1940-1945 Walter B. Maass,1970 Record of the Dutch experience under Nazi occupation with emphasis on German and Allied espionage activities **The Netherlands at War** Walter B.. Maass,1970 Record of the Dutch experience under Nazi occupation with emphasis on German and Allied espionage activities The World War Two Reader Gordon Martel,2004 This comprehensive reader provides an overview of research in the study of the Second World War and includes chapters by some of the best known and most innovative scholars working today It gives attention to the fighting of the war throughout the world Hitler's Collaborators Philip Morgan,2018-05-31 Hitler s Collaborators focuses the spotlight on one of the most controversial and uncomfortable aspects of the Nazi wartime occupation of Europe the citizens of those countries who helped Hitler Although a widespread phenomenon this was long ignored in the years after the war when peoples and governments understandably emphasized popular resistance to Nazi occupation as they sought to reconstruct their devastated economies and societies along anti fascist and democratic lines Philip Morgan moves away from the usual suspects the Quislings who backed Nazi occupation because they were fascists and focuses instead on the businessmen and civil servants who felt obliged to cooperate with the Nazis These were the people who faced the most difficult choices and dilemmas by dealing with the various Nazi uthorities and agencies and who were ultimately responsible for gearing the economies of the occupied territories to the Nazi war effort It was their choices which had the greatest impact on the lives and livelihoods of their fellow countrymen in the occupied territories including the deportation of slave workers to the Reich and hundreds of thousands of European Jews to the death camps in the East In time as the fortunes of war shifted so decisively against Germany between 1941 and 1944 these collaborators found themselves trapped by the logic of their initial cooperation with their Nazi overlords caught up between the demands of an increasingly desperate and extremist occupying power growing internal resistance to Nazi rule and the relentlessly advancing Allied armies World War II in Europe, Africa, and the Americas, with General Sources Loyd Lee,1997-08-21 A broadly interdisciplinary work this handbook discusses the best and most enduring literature related to the major topics and themes of World War II Military historiography is treated in essays on the major theaters of military operations and the related themes of logistics and intelligence while political and diplomatic history is covered in chapters on international relations resistance movements and collaboration The volume analyzes themes of domestic history in essays on economic mobilization the home fronts and women in the military and civilian life The book also covers the Holocaust This handbook approaches each topic from a global viewpoint rather than focusing on individual national communities Except for nonprint material the literature research and sources surveyed are primarily those available in English The volume is aimed at both experts on the war and the general academic community and will also be useful to students and serious laymen interested in the war Building Dutch Air Power in World War II Nicholas Michael Sambaluk,2025-01-17 During World War II the United States earned the nickname

the arsenal of democracy due to its sheer productive output which included over 3 000 000 trucks and jeeps 86 000 tanks 6 750 naval platforms 300 000 aircraft of all types It was also the arsenal of democracy in a second sense as a large portion of that hardware was supplied to countries fighting fascism When Franklin D Roosevelt introduced the Lend Lease Act Allied countries of the antifascist coalition were supplied with aid hardware and food Beyond material aid the United States also hosted and trained over 20 000 foreign pilots and aircrew between 1941 and 1945 This book presents the history of one such training program where 532 Dutch pilots crew and other personnel were trained on United States soil over 21 months With the Japanese army intent on invading the Netherlands East Indies it was critical that the Dutch army strengthen their air power When resistance fell on the NEI island of Java and Australia became the new front line Dutch authorities were forced to relocate their training program to Jackson Mississippi where they christened the Royal Netherlands Military Flying School From there they trained on bases in over a dozen states representing a high point for the Dutch air force during a grueling time After their training the RNMFS participated in the liberation of NEI from Japanese occupation This history presents in full context the training of Dutch air personnel on U S soil under the Lend Lease Act their easy rapport with their American hosts and their efforts to establish the Netherlands as an integral part of the Allied cause *German-occupied Europe in the Second World War* Raffael Scheck,Fabien Théofilakis,Julia Torrie,2019-03-04 Inspired by recent works on Nazi empire this book provides a framework to guide occupation research with a broad comparative angle focusing on human interactions Overcoming national compartmentalization it examines Nazi occupations with attention to relations between occupiers and local populations and differences among occupation regimes This is a timely book which engages in historical and current conversations on European nationalisms and the rise of right wing populisms **The Hunger Winter** Ingrid de Zwarte,2020-07-23 A pioneering study on the causes and consequences of the Dutch famine of 1944 1945 **Food and War in Twentieth Century Europe** Dr Ina Zweiniger-Bargielowska,Dr Rachel Duffett,Professor Alain Drouard,2012-11-28 Wars cannot be fought and sustained without food and this unique collection explores the impact of war on food production allocation and consumption in Europe in the twentieth century A comparative perspective which incorporates belligerent occupied and neutral countries provides new insights into the relationship between food and war The analysis ranges from military provisioning and systems of food rationing to civilians survival strategies and the role of war in stimulating innovation and modernization **The Royal Netherlands Navy of World War II** Ryan K. Noppen,2020-08-20 In the late 19th and early 20th century a combination of coastal defence for the homeland and fleet defence for the East Indies became the established naval strategy for the Royal Dutch Navy and set the template for the world wars Battleships were too expensive to build and maintain so after World War I there was significant investment in submarine development and construction A handful of modern light cruisers and a new class of destroyers were also constructed during the interwar years to serve as a small Fleet in Being in the East Indies as well as to support the actions of the navy s submarines The light

cruiser HNLMS De Ruyter and the Java class light cruisers were the most powerful units of the new fleet whilst the backbone of the destroyer fleet was the Admiralen class and the Tromp class of destroyer leaders Beginning in December 1941 the Dutch Navy played a very active role in the defence of the East Indies against the Japanese during World War II The Battle of the Java Sea at the end of February 1942 crushed Dutch naval power in the East Indies sinking the cruisers Java and De Ruyter and killing Admiral Karel Doorman However several Dutch surface warships and submarines continued the fight against the Axis powers alongside the Allies until the end of World War II including a pair of British built destroyers Van Galen and Tjerk Hiddes This beautifully illustrated book from a leading scholar on Dutch military history provides a comprehensive guide to the Royal Netherlands Navy of the World War II period complete with detailed cutaways and battleplates of the fleet in action
