The Neville Chamberlain Diary Letters The Downing Street Years 1934 1940:

The Neville Chamberlain Diary Letters: The Downing Street years, 1934-1940 Neville Chamberlain, 2000 As a primary source of historical evidence and insight it is difficult to overstate the value and importance of Neville Chamberlain's diary letters to his sisters. They represent the most complete and illuminating insider record of British politics between the wars yet to be published. From 1915 Chamberlain wrote detailed weekly epistles to his sisters until his death in 1940, a confidential account of events covering the quarter of a century during which he stood at the very centre of Conservative and national politics. Beyond the fascination of the historical record of people and events, these letters are extremely valuable for the remarkable light they throw upon the personality and character of the private man lurking behind the austere, forbidding public persona. Volume four covers the years 1934 to 1940, which witnessed Chamberlain's rise within Government, leading to his replacement of Stanley Baldwin as Prime Minister and leader of the Conservative Party in 1937. As well as Chamberlain's reaction to the Civil War in Spain, the momentous events of 1938 and 1939 are covered in detail: Chamberlain's visits to Germany in September 1939 and his views on war, appeasement, Britain's military position and Hitler's intentions all receive much analysis, as does the run-up to the declaration of war in September 1939. The book concludes with the events of 1940, including the Dunkirk evacuations, Chamberlain's resignation as Prime Minister and the final months before his death in October.

In the 1930s, amidst an impending crisis in Europe, Winston Churchill found himself out of government and with little power. In these years, Chartwell, his country home in Kent, became the headquarters of his campaign against Nazi Germany. He invited trusted advisors and informants, including Albert Einstein and T. E. Lawrence, who could strengthen his hand as he worked tirelessly to sound the alarm at the prospect of war. Katherine Carter tells the extraordinary story of the remarkable but little-known meetings that took place behind closed doors at Chartwell. From household names to political leaders, diplomats to spies, Carter reveals a fascinating cast of characters, each of whom made their mark on Churchill's thinking and political strategy. With Chartwell as his base, Churchill gathered intelligence about Germany's preparations for war, and in doing so put

from Hitler's rise to power in 1933 to the year 1941 a period that marked serious but fruitless British political and economic efforts to unite this unruly part of Europe against Nazi ascendancy. Set against an international backdrop of regional revanchist revisionist and irredentist tendencies particularly in Hungary and Bulgaria the book explores how these movements affected international relations in the region as they aimed to overturn the territorial order set down in Versailles following the Great War to restore the status quo of a more glorious national past. Offering fresh insights into the British East Central and South East European relationship the book charts the shifts in British official policy towards Danubian Europe amidst competing regional nationalisms and the sudden and abrupt shifts in British global priorities during the early part of World War II.
