The art is rendered in earthy tones of red, orange, and green, set against a light-colored, textured rock surface. The petroglyphs are scattered across the cover, with some larger, more prominent ones in the center and others smaller and more numerous towards the edges.

sections on heritage and public archaeology and an updated consideration of archaeology's relationship with the climate crisis A revised glossary with over 200 new additions or updates *Archaeology And Geographic Information Systems* Gary R Lock, Zoran Stancic, 2022-03-26 Geographic information systems GIS applications are viewed with increasing interest by the archaeology community and this book with its diversity of topics and authorship should be a useful resource

Complementing the volume *Interpreting Space* Taylor It is apparent that there are fundamental differences between North American and European archaeological uses of GIS Primarily these differences lie in the types of evidence for past landscapes that are available for study in the two continents and secondly in the different approaches to archaeology and specifically the theory and practice of landscape archaeology This title centres on the role of archaeological theory in cultural resource management CRM and in GIS applications generally It showcases the important debate which takes the emphasis away from the technology of GIS and places it back within the central concerns of archaeology and particularly European archaeology Archaeology and GIS includes material on such concerns as CRM applications landscape archaeology intra site applications and explicitly theoretical concerns thus representing the state of GIS applications in European archaeology Contributions come from countries such as France Italy Hungary UK USA the Netherlands the Czech Republic Spain Slovenia and Finland *New Technologies for the Humanities* Christine Mullings, Stephanie Kenna, Marilyn Deegan, Seamus Ross, 2019-05-20 No detailed description available for *New Technologies for the Humanities*

Guidance on Inventory and Documentation of the Cultural Heritage John Bold, Ad hoc Group for Inventory and Documentation Within the Technical Co-operation and Consultancy Programme, Council of Europe. Directorate of Culture and Cultural Heritage, Council of Europe. Technical Co-operation and Consultancy Programme, 2009-01-01 Improved heritage management and the inclusion of heritage in planning and sustainable development processes necessitate inventory and documentation More than mere scientific tools recommended in international agreements inventory and documentation play a strategic role The complexity of the heritage items that now have to be inventoried and their interaction with our everyday living environment require the clear definition and harmonisation of practices at the European level Through its work in the 1960s the Council of Europe helped to lay the methodological bases for inventorying architectural archaeological and movable heritage The efforts to systematise the process came in answer to the broadening meaning of heritage and today new considerations lead us to address such notions as heritage groups The guidelines proposed in this book reflect the work done so far and provide a basis for future research It is part of a series produced under the Technical Co operation and Assistance Programme to present the experience derived from the projects implemented by the Council of Europe
