Situated Utterances:

Situated Utterances Harry Berger, 2005 In *Situated Utterances* Berger designs an analytical model of New Criticism shows how it was dismantled after the Second World War and demonstrates practice in studies of specific works The scope of the practice is broadened to the connection between cultural representations and institutional change Plato's dialogues are also covered

Approaching Dialogue Per Linell, 1998 *Approaching Dialogue* has its primary focus on the theoretical understanding and empirical analysis of talk in interaction It deals with conversation in general as well as talk within institutions against a backdrop of Conversation Analysis context based discourse analysis social pragmatics socio cultural theory and interdisciplinary dialogue analysis People's communicative projects and the structures and functions of talk in interaction are analyzed from the most local sequences to the comprehensive communicative activity types and genres A second aim of the book is to explore the possibilities and limitations of dialogism as a general epistemology for cognition and communication On this point it portrays the dialogical approach as a major alternative to the mainstream theories of cognition as individually based information processing communication as information transfer and language as a code Stressing aspects of interaction joint construction and cultural embeddedness and drawing upon extensive theoretical and empirical research carried out in different traditions this book aims at an integrating synthesis It is largely interdisciplinary in nature and has been written in such a way that it can be used at advanced undergraduate courses in linguistics
