British Children's Cinema Noel Brown, 2016-12-22 British children's films have played a part in the childhoods of generations of young people around the world for over a century Until now however their cherished status has remained largely unexplored In this book Noel Brown relates the history of children's cinema in Britain from the early years of commercial cinema to the present day to reveal the reasons behind its acclaim in international popular culture Drawing on multiple sources Brown provides in depth analysis of a range of iconic films including *The Railway Children* *The Thief of Bagdad* *Bugsy Malone* the Harry Potter films *Mary Poppins* *Nanny McPhee* *Paddington* *Oliver* and Aardman's *Wallace and Gromit* series Furthermore he investigates industrial and commercial contexts such as the role of the Children's Film Foundation and includes revealing insights on changing social and cultural norms such as the once sacred tradition of Saturday morning cinema Brown challenges common prejudices that children's films are inherently shallow or simplistic revealing the often complex strategies that underpin their enduring appeal to audiences of all ages and backgrounds In

addition he shows how the films allow a privileged access to historic cultures and the nation's political past. In doing so, Brown firmly establishes children's cinema as an important genre not only for students and scholars of film studies but also for those interested in socio-cultural history, the production and reception of popular entertainment, and anyone looking for entertainment, escapism, and nostalgia.
