growing uncertainty about the ultimate ends of technological innovation and the intelligibility of the digital future The posthuman future is elusive is it a gathering storm of cynical abandonment inertia disappearance and substitution Or else the development of a new form of critical consciousness the posthuman imagination as a means of comprehending the full complexity of life Depending on which exit to the posthuman future we choose or perhaps which exit chooses us Kroker argues that a very different posthuman future will likely ensue      **Babes in Tomorrowland** Nicholas Sammond,2005-07-20
