Inert Cities Stephanie Hemelryk Donald, Christoph Lindner, 2014-10-01 We usually associate contemporary urban life with movement and speed But what about those instances when the forms of mobility associated with globalized cities the flow of capital people labour and information freeze or decelerate How can we assess the value of interruption in a city What does valuing stillness mean in regards to the forward march of globalization When does inertia presage decay and when does it promise immanence and rebirth Bringing together original contributions by international specialists from the fields of architecture photography film sociology and cultural analysis this cutting edge book considers the poetics and politics of inertia in cities ranging from Amsterdam Berlin Beirut and Paris to Beijing New York Sydney and Tokyo Chapters explore what happens when photography film mixed media works architecture and design intervene in public spaces and urban communities to disrupt speed and growth both intellectually and or practically and question the degree to which mobility is aspirational or imaginary absolute or transient Together they encourage a re assessment of what it means to be urban in an unevenly globalizing world to live in cities built around mythologies of perpetual progress These new analyses of visual culture s strategic interruptions in global cities allow a more in depth understanding of the new forms of space experience and community that are emerging in today s rapidly transforming urban environments
