Sm Principles Services Mktg Mg:

EBOOK: Principles of Services Marketing Adrian Palmer, 2013-01-16 Now in its seventh edition *Principles of Services Marketing* has been revised and updated throughout to reflect the most recent developments in this fast moving and exciting sector. With a stronger emphasis on emerging and global economies it has been restructured to give clearer focus on key issues of efficiency, accessibility and customer experience. This authoritative text develops an indispensable framework for understanding services, their effective marketing and how this drives value creation. Key Features: Opening vignettes introduce a chapter's key themes with short examples that present topics in familiar everyday scenarios students can relate to. Longer case studies feature well known companies and provide an opportunity to analyse real life scenarios and apply understanding. In Practice vignettes drawn from services organizations from around the world and how services are delivered and experienced by customers. Thinking Around the Subject boxes examine the operational challenges of putting theory in to practice. Summary links to other chapters reinforce the main topics covered and how they fit within the wider context of services marketing to improve overall understanding of the subject. Expanded coverage of key topics such as service dominant logic, servicescapes and the use of social media explore the latest theory and practice. Reflects the importance of marketing for public services and not for profit organizations. Includes new chapters on service systems and the experiential aspects of service consumption.

Islamic Operations Management Rafikul Islam, Suhaiza Zailani, Selim Ahmed, 2024-04-16 Managing operations is an integral part of all business and comprises a number of components including quality management, production planning, supply chain management, logistics and inventory control. The effective management of operations plays a defining role in enhancing business efficiency and is a lynchpin for success. This book explores how Islamic principles and tools can be applied to improve operations management across industries. While Islamic banking and finance are established disciplines, there is yet little evidence of how exploring operations management from an Islamic lens can improve efficiency. Bringing together leading scholars across subdisciplines, the Editors fill the long standing gap and address the rising demand for halal products and services by providing a unique perspective to define and enhance an important growing field. This book will be a useful reference for those who wish to understand all aspects of Islamic business operations and halal logistics. The book will be helpful to academics, researchers and upper level students, in particular to those who are looking to further their research on how Islamic principles can be applied to business operations.
