understanding leading edge thinking in the field of new venture creation will also find this Handbook invaluable *Case Studies in Entrepreneurship* Reed, Marlene M., Brunson, Rochelle R., 2021-07-31 Most entrepreneurship and small business textbooks contain few if any cases that an instructor can use with students and illustrate important theories or topics from the course This book contains cutting edge case studies that illustrate key problems confronting contemporary entrepreneurs Set in familiar business environments this original set of cases provides useful insights into the experiences of real world entrepreneurs for classroom environments *Paradoxes in Food Chains and Networks* J.H. Trienekens, S.W.F.

Omta, 2023-08-28 This publication contains the proceedings of the 5th international conference on chain and network management in agribusiness and the food industry Papers will focus on the paradoxes caused by conflicting interests in the fields of economics and ethics technology and environment legislation and internationalisation etc The modern consumer demands high quality products in broad assortments throughout the year and for competitive prices Society imposes constraints on companies in order to economize on the use of resources ensure animal friendly and safe production and restrict pollution Together with technological developments and increased international competition these demands have changed the production trade and distribution of food products beyond recognition Demand is no longer confined to local or regional supply The food industry is now swiftly becoming an interconnected system with a large variety of complex relationships This is changing the way food is brought to the market Currently even fresh produce shipped from halfway around the world can be offered at competitive prices These developments are accompanied by national and international regulations and legislation in the area of food quality and safety In response to these changes business strategies must now focus not only on traditional economical and technological interests but also on topical issues such as the safety and healthfulness of food products animal friendliness the environment etc To effectively address paradoxical demands facing businesses many problems and opportunities must be approached from a multi disciplinary perspective and trade offs must be made between different aspects of production trade and the distribution of food *Small Business in Russia: A case Study of St. Petersburg* Alessandro Kihlgren, 2002 **(Dis)honesty in Management** Tiia Vissak, Maaja Vadi, 2013-06-25

This volume concentrates on different forms of honesty and dishonesty in management and their consequences for managers firms and society These issues are related to values and behavior patterns and thus the basis of contemporary business

Proceedings of the International Conference on Business and Management Dynamics 2016: Sustainable economies in the information economy Joy E. Akahome, Michael Twum-Darko, Cyril Ogbokor, Nyaniso Mfusi Zonke, T. Sethibe, R. Steyn, Esme Mohammed, Renier Steyn, L.B. Nguenang, Mamorena Lucia Matsoso, Henry N. Ozuru, Julius Akaba, Patient Rambe, Edem Korku Agbobli, Henri-Vincent Ndjave-Ndjoy, Regis Muchemwa, Andre de la Harpe, Konosoang Mpiti, Ayodeji Afolayan, 2016-12-31 Cape Town South Africa 7 Sept 2016 8 Sept 2016 Theme Sustainable economies in the information economy Purpose To share the quality academic papers presented at the International Conference on Business

and Management Dynamics ICBMD held from 7 to 8 September 2016 at African Pride Crystal Hotel and Spa in Cape Town As grey literature the proceedings are the contributions made by researchers at the conference and are considered the written record of the work that was presented to fellow conference delegates Methodology The methodology used varies from researcher to researcher but are suitable for the studies conducted Thus on the one hand studies that were subjective in nature used the interpretive paradigm where the qualitative approach adopted made use of the interview method to collect data On the other hand studies that were objectively inclined adopted the positivist philosophy and used survey questionnaires to collect data However there were some academic papers which used mixed methodology because of the nature of the study Whatever methodology used adhered to the ethos of the philosophies underpinning the methodology Contribution made to scholarship The articles come from individual researchers and each article in the proceedings is unique Mostly there is no general argument leading from one contribution to the next However it is interesting to note that in the area of economic performance it was evident that real exchange rate and net foreign direct investment contribute more towards innovations in economic growth With regard to human capital development papers presented evidence that there exists a definite need to explore the phenomenon of personal branding as limited scientific academic research has been done within the field of personal branding or on elements of the topic Thus the outcome argues that personal branding has an influence on leadership style which in turn impacts on organisational performance and related hygiene factors Furthermore it was demonstrated that current methods or strategies for enforcing institutionalisation of knowledge sharing within an organisation have not been successful and as such new strategies are needed to reinforce efforts to nurture and invigorate the institutionalisation of knowledge sharing within an organisation With regard to technology and big data impact on organisational performance it was evident that system performance memory consumption and CPU utilisation can be used as criteria to compare and evaluate big data technologies to improve organisational performance Most of the articles contribution reemphasised technology education and training as a means of digitising business and improving effectiveness Target audience The target readership is academic researchers and business leaders who require access to the latest developments in the fields of economics information management business education development studies social sciences and technology It is also for policymakers and other stakeholders who need a better understanding of the impact of new developments on existing policies and regulations for their review or amendment
