**The Archaeology of Harriet Tubman's Life in Freedom** Douglas V. Armstrong, 2022-09-09 Harriet Tubman's social activism as well as her efforts as a soldier nurse and spy have been retold in countless books and films and have justly elevated her to iconic status in American history Given her fame and contributions it is surprising how little is known of her later years and her continued efforts for social justice women's rights and care for the elderly Tubman housed and cared for her extended family parents brothers sisters nieces and nephews as well as many other African Americans seeking refuge Ultimately her house just outside of Auburn New York would become a focal point of Tubman's expanded efforts to provide care to those who came to her seeking shelter and support in the form of the Harriet Tubman Home for the Aged In this book Armstrong reconstructs and interprets Tubman's public and private life in freedom through integrating his archaeological findings with historical research The material record Tubman left behind sheds vital light on her life and the ways in which she interacted with local and national communities giving readers a fuller understanding of her impact on the lives of African Americans Armstrong's research is part of a wider effort to enhance public interpretation and engagement with the Harriet Tubman Home

**Clay Brick Making** Everett Sinclair, 2025-02-27 Clay Brick Making explores the profound link between hand crafted bricks and society examining traditional brickmaking as a cultural practice shaping family structures and architectural landscapes This book delves into how this foundational element of human civilization impacts skill transmission labor dynamics and community bonds Traditional brickmaking often overlooked represents a sophisticated vernacular technology supporting family units and offering insights into sustainable development The book progresses logically beginning with the history and cultural significance of clay brick production It then analyzes the family as a unit of production investigates specific regional techniques and focuses on the socio economic impact on family livelihoods Supported by ethnographic studies and interviews the book offers a unique interdisciplinary approach combining anthropology architecture and economics to provide a holistic understanding beyond mere technical manuals

Mastering The Machine Ian Smillie, 2019-04-02 Mastering the Machine Revisited is about the connection between poverty aid and technology It is about a search that has been going on officially in the developing world for over forty years and less officially in most countries since the beginning of time It is a search driven today by more hard core poverty than has ever been known and by

*Chapters of The Agrarian History of England and Wales: Volume 5, The Buildings of the Countryside, 1500-1750* M. W. Barley, Joan Thirsk, Maurice Willmore Barley, 1990-03-22 Material from The Agrarian History of England and Wales in paperback with new introductions **86th Annual Excursion of the Sandwich Historical Society**, *DIY Urbanism in Africa* Stephen Marr, Patience Mususa, 2023-11-02 Protracted economic crises accelerating inequalities and increased resource scarcity present significant challenges for the majority of Africa's urban population Limited state capacity and widespread infrastructure deficiencies common in cities across the continent often require residents to draw on their own resources knowledge and expertise to resolve these life and livelihood dilemmas DIY Urbanism in Africa investigates these practices It develops a theoretical framework through which to analyze them and it presents a series of case studies to demonstrate how residents invent new DIY tactics and strategies in response to security place making or economic problems This book offers a timely critical intervention into literatures on urban development and politics in Africa It is valuable to students policymakers and urban practitioners keen to understand the mechanisms and political implications of widespread dynamics now shaping Africa's expanding urban environments Combating Child Labour Assefa Bequele, Jo Boyden, 1988 This work examines the developments in the campaign against child labour and the defence of the rights of children

**Small-scale Paper-making** International Labour Office, United Nations Industrial Development Organization, 1985 A technical handbook to assist small scale producers with alternative production techniques to help them choose and apply those techniques which are most appropriate to local socio economic conditions *Global Labour History* Jan Lucassen, 2008 Contains 18 essays on worldwide aspects and comparisons in labour history Covers mainly the period from the beginning of 19th century to 2000 *Rural Development* International Labour Office, 1991 Entries in English and various other languages **85th Annual Excursion of the Sandwich Historical Society**, Small Firms and the Environment in Developing Countries Allen Blackman, 2010-09-30 Small firms including microenterprises and small and medium enterprises SMEs play a vital economic role in developing countries They typically provide half of all jobs In addition they foster entrepreneurship and help key sectors adapt to changing market conditions In light of these benefits programs promoting small firms have become a cornerstone of economic development policy Increasingly however scholars and policymakers are also exploring the link between small firms and the environment The first compendium of research and policy analysis on this topic this book is organized around three questions How important is small firm pollution Will forcing small firms to comply with environmental regulations exacerbate unemployment and poverty And what policy options are available to control small firm pollution Eleven case studies from China Ecuador Honduras India Malaysia and Mexico address these questions They compare the environmental damages caused by small firms and large ones They explore the positive and negative economic consequences of pollution control strategies focusing on small firms the administrative challenges of regulating thousands of firms which are often unregistered and unknown to the government and they describe

innovative approaches for persuading small firms to implement effective pollution controls. The case studies cover a variety of industrial sectors including ceramics, leather tanning, textiles, and agro industry, and evaluate a wide range of environmental management strategies that include encouraging collective action among small firms, creating economic incentives for pollution control, and helping small firms adopt clean technologies and environmental management systems. Many of the chapters are groundbreaking, addressing topics new to the literature, for example, the role of international trade in greening small firms and funding small firm pollution control projects by linking them to efforts to stem global warming. Highly readable. *Small Firms and the Environment in Developing Countries* is a valuable text for courses in development policy and economics that have an environmental component or focus. It will also prove of interest to development workers, policymakers in developing countries, and students and scholars of environmental policy and law.

**Technology, Skills and the Pre-Modern Economy in the East and the West**, 2013-05-30. *Technology, Skills and the Pre-Modern Economy* investigates how technological skills and knowledge were reproduced and disseminated in the advanced agrarian societies of China, India, Russia, and Europe in the centuries before the Industrial Revolution. The book offers regional surveys of Europe, China, and India, as well as comparative studies of building, porcelain manufacturing, instrument making, printing, and shipbuilding. The authors engage with the on-going debate about the great divergence between Asia and Europe and its possible causes. Technology has so far had a minor role in that debate. This book is bound to change that through the bold claims made by various contributors. Contributors are Karel Davids, S. R. Epstein, Gijs Kessler, Jan Lucassen, Christine Moll, Murata Patrick O'Brien, Kenneth Pomeranz, Maarten Prak, Tirthankar Roy, Richard Unger, and Jan Luiten van Zanden.

**Small and Medium-Sized Enterprises and the Environment**, Ruth Hillary, 2017-09-08. This book tackles a largely neglected topic: small and medium-sized enterprises (SMEs) and their environmental impact. Over 90% of all firms are SMEs. Their importance to the health of national and international economies is recognized. But what of their environmental impact? Individually, this may be small, but collectively, they pose a huge and largely unregulated threat to national and indeed the global environment. There have been many failed attempts to engage SMEs in environmental stewardship. Why is this? And where are the success stories needed to set best practice examples? Environmental protection is widely touted as being a win-win scenario for business, with economic spin-offs in terms of energy and waste reduction quickly producing payback for capital expenditures. Why is the good environmental management equals good business management message not getting through? In *Small and Medium-Sized Enterprises and the Environment*, Dr Ruth Hillary brings together an outstanding international collection of experts from government, international and national support agencies, academics, and the business community to present arguments about the key environmental business imperatives facing the small firm sector. The book is divided into four sections: Attitudes and Perceptions of Small Firms to the Environment and Sustainability; Environmental Management in the Smaller Firm; Practical Strategies for Reaching SMEs; Case Studies from around the World. In these sections, the book examines

the threats such as trade supply chain issues and legislative compliance but is also solution oriented with considerable discussion of the management tools smaller firms can use to improve their environmental performance It aims to provide practical strategies for smaller firms and to that end includes a range of informative case studies from around the world Small and Medium Sized Enterprises and the Environment is the most comprehensive book on the subject available and will prove invaluable not only to SMEs themselves seeking to understand a rapidly changing world but to consultants and small business advisors local and central government and to all those in academia looking for ways to improve the environmental performance of small businesses **The Logic of British and American Industry** P. Sargant Florence,2013-11-05

Summarizing the facts about the prevailing sizes of industrial firms or plants and the patterns of industrial location in Britain and America this book also interprets the facts in basic terms such as technical requirements and consumer habits Examining investment and human resource management the contrasts and unexpected similarities in the industrial structure and government of the two countries are analysed The book includes new research into the real seat of power in the British joint stock company and compares the results with the realities of the American corporation The Logic of British and American Industry Philip Sargant Florence,2003 Examining investment and human resource management the contrasts and unexpected similarities in the industrial structure and government of the two countries are analysed The book includes new research into the real seat of power in the British joint stock company and compares the results with the realities of the American corporation Small-scale Processing of Beef International Labour Office,1985 Clay Record ,1898
