Smart Growth and Community Planning Richard Paul Deletetsky,2001 **New Directions in Anthropology and Environment** Carole L. Crumley,2002-05-09 Carole L Crumley has brought together top scholars from across anthropology in a benchmark volume that displays the range of exciting new work on the complex relationship between humans and the environment Continually pursuing anthropology s persistent claim that both the physical and the mental world matter these environmental scholars proceed from the holistic assumption that the physical world and human societies are always inextricably linked As they incorporate diverse forms of knowledge their work reaches beyond anthropology to bridge the

sciences social sciences and the humanities and to forge working relationships with non academic communities and professionals Theoretical issues such as the cultural dimensions of context knowledge and power are articulated alongside practical discussions of building partnerships research methods and ethics and strategies for implementing policy New Directions in Environment and Anthropology will be important for all scholars and non academics interested in the relation between our species and its biotic and built environments It is also designed for classroom use in and beyond anthropology and students will be greatly assisted by suggested reading lists for their further exploration of general concepts and specific research Learn more about the author at the University of North Carolina Anthropology Department web pages

Historic Preservation Michael A. Tomlan, 2014-11-21 This well illustrated book offers an up to date synthesis of the field of historic preservation cast as a social campaign concerned with the condition treatment and use of the legacy of existing properties in the United States Drawing on a wide range of research experience and scholarship over the last fifty years it allows us to re think past and current ideas in preservation challenging readers to explore how their own interests lie within the cognitive framework of the activities taking place with people who care Who is involved is explored first in such a way as to explore why before examining what is deemed important After that the questions of when and how to proceed are given attention The major topics are introduced in an historical review through the mid 1980s after which the broad intellectual basis and fundamental legal framework is provided The economic shifts associated with major demographic changes are explored in tandem with responses of the preservation community A chapter is dedicated to the financial challenges and sources of revenue available in typical preservation projects and another chapter focuses on the manner in which seeing recording and interpreting information provides the context for an appropriate vision for the future In this regard it is made clear that not all green design alternatives are preservation sensitive The advocacy battles during the last few decades provide a number of short stories of the ethical battles regarding below ground and above ground historic resources and the eighth chapter attempts to explain why religion has been long held at arm s length in publicly supported preservation efforts when in fact it holds more potential to regenerate existing sites than any governmental program

Smart Growth for Tennessee Towns and Counties Mary R. English, Jean H. Peretz, Melissa J. Manderschied, 1999 Downtown America Alison Isenberg, 2009-05-15 Downtown America was once the vibrant urban center romanticized in the Petula Clark song a place where the lights were brighter where people went to spend their money and forget their worries But in the second half of the twentieth century downtown became a shadow of its former self succumbing to economic competition and commercial decline And the death of Main Streets across the country came to be seen as sadly inexorable like the passing of an aged loved one Downtown America cuts beneath the archetypal story of downtown's rise and fall and offers a dynamic new story of urban development in the United States Moving beyond conventional narratives Alison Isenberg shows that downtown's trajectory was not dictated by inevitable free market forces or natural life and death cycles Instead it was the product of human actors the contested creation of retailers developers government leaders architects and planners as well as political activists consumers civic clubs real estate appraisers even postcard artists Throughout the twentieth century conflicts over downtown's mundane conditions what it should look like and who should walk its streets pointed to fundamental disagreements over American values Isenberg reveals how the innovative efforts of these participants infused Main Street with its resonant symbolism while still accounting for pervasive uncertainty and fears of decline Readers of this work will find anything but a story of inevitability Even some of the downtown's darkest moments the Great Depression's collapse in land values the rioting and looting of the 1960s or abandonment and vacancy during the 1970s illuminate how core cultural values have animated and intertwined

with economic investment to reinvent the physical form and social experiences of urban commerce Downtown America its empty stores revitalized marketplaces and romanticized past will never look quite the same again A book that does away with our most clichéd approaches to urban studies Downtown America will appeal to readers interested in the history of the United States and the mythology surrounding its most cherished institutions A Choice Outstanding Academic Title Winner of the 2005 Ellis W Hawley Prize from the Organization of American Historians Winner of the 2005 Lewis Mumford Prize for Best Book in American Planning History Winner of the 2005 Historic Preservation Book Price from the University of Maryland Center for Historic Preservation Named 2005 Honor Book from the New Jersey Council for the Humanities

Second-Order Preservation Erica Avrami, 2024-12-17 An urgent appeal to rethink the heritage enterprise A critical reassessment of historic preservation policies in the United States Second Order Preservation brings needed attention to the hierarchical underpinnings and effects of established preservation frameworks Questioning the criteria by which value is ascribed to historic buildings and neighborhoods Erica Avrami works to elucidate and transform how and which claims to place become codified in and reinforced through public policy As she eschews dominant case study approaches that center the individual object of preservation such as a discrete building or site Avrami develops the concept of second order preservation as a means of integrating broader considerations around social justice equitable land use planning and environmental sustainability Ranging from municipal to state to national and international levels of governance her critique of the origins and evolution of heritage policy reveals how this conventional emphasis on the object has contributed to policy tensions and systemic exclusion Stressing the need to reform current preservation practices to serve more diverse publics Avrami encourages a turn to an approach that substantively considers contexts and implications of preservation in the scheme of climate and justice Second Order Preservation maintains the interrelation between theory and practice serving as both a critical reflection and a provocation aimed at advancing a more just set of urban policy agendas [Monthly Catalog of United States Government Publications](#), 1989 **Best Practices for Effecting the Rehabilitation of Affordable**
