The Death Penalty Roger Hood, Carolyn Hoyle, 2015-01-08 The fifth edition of this highly praised study charts and explains the progress that continues to be made towards the goal of worldwide abolition of the death penalty The majority of nations have now abolished the death penalty and the number of executions has dropped in almost all countries where abolition has not yet taken place Emphasising the impact of international human rights principles and evidence of abuse the authors examine how this has fuelled challenges to the death penalty and they analyse and appraise the likely obstacles political and cultural to further abolition They discuss the cruel realities of the death penalty and the failure of international standards always to ensure fair trials and to avoid arbitrariness discrimination and conviction of the innocent all violations of the right to life They provide further evidence of the lack of a general deterrent effect shed new light on the influence and limits of public opinion and argue that substituting for the death penalty life imprisonment without parole raises many similar human rights concerns This edition provides a strong intellectual and evidential basis for regarding capital punishment as undeniably cruel inhuman and degrading Widely relied upon and fully updated to reflect the current state of affairs worldwide this is an invaluable resource for all those who study the death penalty and work towards its removal as an international goal

Jurists and Judges Neil Duxbury, 2001-03 Jurists and Judges examines the nature of academic influence and particularly the influence of juristic commentary on judicial decision making Focusing on three legal systems its author argues that inter jurisdictional comparisons of juristic influence are often simplistic and inattentive to problems of incommensurability The centrepiece of

the study is a detailed chapter offering a nuanced history of juristic influence in England All academic lawyers who reflect upon the history and objectives of their profession who in other words wonder what it is that they are about will profit from reading this most informative and engaging book The Adam Smith Review Volume 7 Fonna Forman,2013-11-07 Adam Smith s contribution to economics is well recognised but in recent years scholars have been exploring anew the multidisciplinary nature of his works The Adam Smith Review is a refereed annual review that provides a unique forum for interdisciplinary debate on all aspects of Adam Smith s works his place in history and the significance of his writings to the modern world It is aimed at facilitating debate between scholars working across the humanities and social sciences thus emulating the reach of the Enlightenment world which Smith helped to shape The seventh volume of the series contains contributions from specialists across a range of disciplines including Christopher Berry Maureen Harkin Edith Kuiper N B Leddy Catriona Seth Henry C Clarke Deidre Dawson Dionysios Drosos Ioannis A Tassopoulos Jeremy Jennings Ryan Patrick Hanley Fotini Vaki Spiros Tegos Nicholas J Theocarakis Chandran Kukathas Donald Winch Fonna Forman Craig Smith Nicholas Phillipson Chad Flanders Emily Nacol Andrea Radasanu Rachel Zuckert Michael L Fraser Ian S Ross Daniel B Klein Douglas J Den Uyl James A Harris Geoffrey Kellow Paul Dumouchel Jan Horst Keppler Paul Oslington Adrian Walsh Spencer J Pack and Dennis C Rasmussen Topics examined include Smith and Women Adam Smith in Greece Nicholas Phillipson s Adam Smith An Enlightened Life Michael L Fraser s The Enlightenment of Sympathy Justice and the Moral Sentiments in the Eighteenth Century and Today **Law Books Published** ,1992 **Civil Wrongs and Justice in Private Law** Paul B. Miller,John Oberdiek,2020-02-05 The notion of a civil wrong is one of the most fundamental concepts in private law Without the concept of a civil wrong areas of private law like tort law or property law would not be able to fulfil their aims This volume brings together a wide variety of scholars who have written original papers exploring the centrally important notion of a civil wrong **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1972 **Women and Capital Punishment in the United States** David V. Baker,2015-11-26 The history of the execution of women in the United States has largely been ignored and scholars have given scant attention to gender issues in capital punishment This historical analysis examines the social political and economic contexts in which the justice system has put women to death revealing a pattern of patriarchal domination and female subordination The book includes a discussion of condemned women granted executive clemency and judicial commutations an inquiry into women falsely convicted in potentially capital cases and a profile of the current female death row population **Merry and McCall Smith's Errors, Medicine and the Law** Alan Merry,Warren Brookbanks,2017-04-03 There is an understandable tendency or desire to attribute blame when patients are harmed by their own healthcare However many cases of iatrogenic harm involve little or no moral culpability Even when blame is justified an undue focus on one individual often deflects attention from other important factors within the inherent complexity of modern healthcare This revised second edition advocates a rethinking of accountability in healthcare based on

science the principles of a just culture and novel therapeutic legal processes Updated to include many recent relevant events including the Keystone Project in the USA and the Mid Staffordshire scandal in the UK this book considers how the concepts of a just culture have been successfully implemented so far and makes recommendations for best practice This book will be of interest to anyone concerned with patient safety medical law and the regulation of healthcare **The Rise and Fall of the Rehabilitative Ideal, 1895-1970** Victor Bailey, 2019-04-09 Spanning almost a century of penal policy and practice in England and Wales this book is a study of the long arc of the rehabilitative ideal beginning in 1895 the year of the Gladstone Committee on Prisons and ending in 1970 when the policy of treating and training criminals was very much on the defensive Drawing on a plethora of source material such as the official papers of mandarins ministers and magistrates measures of public opinion prisoner memoirs publications of penal reform groups and prison officers the reports of Royal Commissions and Departmental Committees political opinion in both Houses of Parliament and the research of the first cadre of criminologists this book comprehensively examines a number of aspects of the British penal system including judicial sentencing law making and the administration of legal penalties In doing so Victor Bailey expertly weaves a complex and nuanced picture of punishment in twentieth century England and Wales one that incorporates the enduring influence of the death penalty and will force historians to revise their interpretation of twentieth century social and penal policy This detailed and ground breaking account of the rise and fall of the rehabilitative ideal will be essential reading for scholars and students of the history of crime and justice and historical criminology as well as those interested in social and legal history
