Smokescreen Large Print:

The Complete Directory of Large Print Books & Serials, 1994 *1938 (Large Print 16pt)* Giles Macdonogh, 2010-05

In this masterful narrative acclaimed historian Giles MacDonogh chronicles Adolf Hitler's consolidation of power over the course of one year. Until 1938 Hitler could be dismissed as a ruthless but efficient dictator a problem to Germany alone. After 1938 he was clearly a threat to the entire world. It was in 1938 that Third Reich came of age. The Fuhrer brought Germany into line with Nazi ideology and revealed his plans to take back those parts of Europe lost to Greater Germany after the First World War. From the purging of the army in January through the Anschluss in March from the Munich Conference in September to the ravages of Kristallnacht in November MacDonogh offers a gripping account of the year Adolf Hitler came into his own and set the world inexorably on track to a cataclysmic war.

 Camouflage at War explores uniforms military vehicles and buildings from World War I to the present day From a dummy tank in North Africa in World War II to the different uniforms of Waffen SS on the Eastern Front soldiers to zebra striped dazzle ships in the north Atlantic to today s digital pixelated pattern uniforms used by US soldiers in Iraq and Afghanistan the book is a wide ranging examination of the developments and wrong turns in military camouflage all around the world
 Although this was military work the inspiration often came from the natural world and the designers were civilian artists As we move further into the 21st century the use of camouflage is changing Straightforward visual camouflage is less important for aircraft as they can be picked up by heat sensors so the task becomes to create non visual camouflage deflect radar signals and reduce their signature Today technology is being developed to project live images on to bodies so that they appear invisible From uniforms to tanks from ships to aircraft to military buildings disguised as civilian ones the book is an expert account of how different countries have sought to hide their forces in plain view for the past century Packed with 200 colour and black and white photographs and colour artworks Camouflage at War is a fascinating exploration of how warfare has changed over the last hundred years Subject Guide to Books in Print ,1996 **The Retail Bookseller** ,1940
