behavior it was perhaps the last age of true freedom before the arrival of the stifling world of Victorian morality. At the same time it was a period of transition that reflected unprecedented social, economic and political change. And like all periods in history it was an age of many contradictions where Beethoven's thundering Fifth Symphony could premier in the same year that saw Jane Austen craft the delicate sensitivities of *Persuasion*. Once more Ian Mortimer takes us on a thrilling journey to the past revealing what people ate, drank and wore, where they shopped and how they amused themselves, what they believed in and what they were afraid of. Conveying the sights, sounds and smells of the Regency period, this is history at its most exciting, physical, visceral: the past not as something to be studied but as lived experience.

Food in the Novels of Thomas Hardy Kim Salmons, 2017-08-31 This book examines the role of food in the life and works of Thomas Hardy, analysing the social, political and historical context of references to meals, eating and food production during the nineteenth century. It demonstrates how Hardy's personal relationship to the rustic food of his childhood provides the impetus for his fiction and provides a historical breakdown of the key factors which influenced food regulation and production from the beginning of the nineteenth century to the fin de siècle. This study explores how a sub-textual narrative of food references in *The Trumpet Major* and *Under the Greenwood Tree* captures the instability of the pre-industrial era and how food and eating act as a means of delineating and exploring character and environment in *The Mayor of Casterbridge*. As well as this, it considers rural femininity and the myth of the feminine pastoral in *Tess of the d'Urbervilles* and charts the anxieties brought about by the shift in population from a rural to a predominantly urban one and its impact on food production in *Jude the Obscure*.
