Social Evolution and Sociological Categories (Routledge Revivals) Paul Q. Hirst, 2010-01-21 First published in 1976 this book is concerned with the nature of classification in the social sciences Its thesis is that classifications are dependent upon and are derived from theoretical explanations Classification is not a theoretically neutral typification or ordering of social forms This is because objects classified societies social institutions are not given to knowledge independently of the categories which construct them and because the categories of classification are themselves the products of theories

Intellectuals - and Politics ,1967 Intellectuals and Politics (Routledge Revivals) Robert Brym, 2010-07-02 This essay first published in 1980 analyses the relationship between intellectuals social locations and their political orientations Dr Brym provides a critical discussion of the various sociological views of intellectuals and specifies some of the social conditions which encourage intellectuals to follow various directions on the political compass He also demonstrates that intellectuals are neither socially rootless nor tied to one particular class or group within society concluding that it is only by an analysis of intellectuals mobility patterns that we can hope to arrive at an adequate understanding of their politics Clearly written and assuming only a basic grounding in sociological theory this book will thus be of special interest to students of political sociology social movements the sociology of knowledge the sociology of culture and the sociology of intellectuals

Theories of Modern Capitalism (Routledge Revivals) Tom Bottomore, 2010-01-22 First published in 1985 Theories of Modern Capitalism provides a succinct study of Marxist and non Marxist theories of Capitalism its recent development and the prospects of a transition to socialism The study begins with a critical examination and comparison of four major theories of capitalism in the works of Marx Weber Schumpeter and Hayek This is followed by an analysis of the most recent phase of capitalism which has been conceptualised by Marxists thinkers in various ways as organised capitalism state monopoly or late capitalism Finally Bottomore considers the question of a transition to socialism in the diverse interpretations which have been offered by Marxists on one side and by Weber Schumpeter and Hayek on the other Theories of Modern Capitalism will be valuable in a wide range of courses in social and political theory and will also have an appeal to a broader readership concerned with issues of social and economic policy
