Social Groups In Polish Society:

Social Groups in Polish Society David Stuart Lane, David Lane, George Kolankiewicz, 1973 Compilation of social research papers on the impact of social change on social class and social structure in Poland from 1945 to 1973 includes material on the characteristics of the working class rural workers the intellectual elite engineers and top management local level political leadership etc and covers political aspects of intergroup relations Bibliography pp 349 to 365 map references and statistical tables *Armed forces and society* Jacques van Doorn, France) > World Congress of Sociology, Working Group on Armed Forces and Society, 2018-11-05 No detailed description available for Armed forces and society **Polish Society** Adam Podgórecki, 1994 Examines the political and organisational pressures that were exerted upon sociologists to produce dogmatically proper results in order to give a false diagnosis of social reality The author analyses the roles of Polish sociologists in the changes designed to bring about an alien communist utopia **Old and New Cleavages in Polish Society** Guérot, Ulrike, Hunklinger, Michael, 2019-03-20 What is happening in Poland Where is Poland heading Is Polish society as divided as it is often perceived How did we get there What do anti pluralist tendencies and a gender backlash mean for the everyday life in Poland What are possible ways to cope with this And what are the consequences for Europe This anthology is the result of a conference which took place in Vienna in April 2018 and offers some insight into debates taking place in and around Poland today The contributions are very different in expression and stand for themselves In this respect the book offers impressions but no solutions It offers suggestions to reflect on Poland in a new or different way which help to understand Poland and the complex social and political processes that are currently underway **Polish Society Under German Occupation** Jan T. Gross, 2019-01-29 By combining historical and political analysis with a sophisticated sociological approach Jane Gross offers a new interpretation of the German occupation of Poland during World War II Based on his hypothesis that a society cannot be destroyed by coercion short of the physical annihilation of its members his work has a twofold aim to examine the model of German occupation in theory and in practice and to identify the patterns of collective behavior that emerged among the Polish people in response to the social control exercised over them The author argues that when an occupier provides no institutions through which a local population can at least minimally satisfy its social needs the subjugated populace builds substituted institutions on the remnants of previous forms of its collective life These substitutes constitute the society's self defense to which the occupier must in some way adjust if its goals of manipulation and exploitation are to be achieved Professor Gross points out numerous ways in which the Poles under the General government circumvented the goals and authority of the German occupiers Most significant was the emergence of the Polish underground which took on the leadership social welfare political and financial functions of an independent state This phenomenon he concludes shows that resistance should not be conceived merely as a military movement but rather as a complex social phenomenon Jan Tomasz Gross is Assistant Professor of Sociology at Yale University Originally published in

The Polish Road from Socialism: The Economics, Sociology and Politics of Transition Walter D. Connor, Piotr Ploszajski, 2019-07-26 What the contributors to this volume offer is neither a romantic version of the course of Polish history nor a jubilant account of the recovery of national independence and political choice Rather they offer a variety of tough minded analytic perspectives on what comes when the party is over not just the PSPR but the celebration marking its downfall They focus on Poland's movement toward an internationally competitive market economy a political democracy in which plural interests compete and the constitution of a civil society that both tolerates and ameliorates conflict The multidisciplinary contributors include Jan Muzel Keith Crane Benjamin Slay Kazimierz Poznanski Jan Bossak Wojciech Bienkowski Włodzimierz Wesolowski Edmund Wnuk Lipinski Adam Sarapata Andrzej Sicinski Piotr Lukaszewicz Krzysztof Nowak David S Mason Andrzej Rychard Krzysztof Jasiewicz Jack Bielasiak Janusz Reykowski Stanisław Gebethner Mirosława Marody Edmund Mokrzycki and Michael D Kennedy
