Really Equal? Özlem Sensoy, Robin DiAngelo, 2015-04-26 This practical handbook will introduce readers to social justice education providing tools for developing critical social justice literacy and for taking action towards a more just society. Accessible to students from high school through graduate school, this book offers a collection of detailed and engaging explanations of key concepts in social justice education including critical thinking, socialization, group identity, prejudice, discrimination, oppression, power, privilege, and White supremacy. Based on extensive experience in a range of settings in the United States and Canada, the authors address the most common stumbling blocks to understanding social justice. They provide recognizable examples, scenarios, and vignettes illustrating these concepts. This unique resource has many user-friendly features including definition boxes for key terms, stop boxes to remind readers of previously explained ideas, perspective check boxes to draw attention to alternative standpoints, a glossary, and a chapter responding to the most common rebuttals encountered when leading discussions on concepts in critical social justice. There are discussion questions and extension activities at the end of each chapter, and an appendix designed to lend pedagogical support to those newer to teaching social justice education. Sensoy and DiAngelo's book sings with insight, clarity, and humanity. This is a brilliant primer to help us consider what it means to think critically and to act for justice. Bill Bigelow, Curriculum editor, *Rethinking Schools* magazine. I commend the direction of this book that addresses concepts such as social and institutional power, socialization, and oppression rather than framing social and political inequality as the consequences of behavioral problems and cultural misunderstandings. The approach the authors have taken supports teachers and their students in rethinking the ways in which the problems of inequality have been normalized as everyday practices. The book will help teachers to rethink inequality in systemic terms and to find opportunities for taking action at any moment. Carol Schick, Associate Professor, Faculty of Education, University of Regina. The most accessible book on social justice I have ever read. The authors speak truth to power and in language we can all understand. I can't wait to use this text. The authors demonstrate that important concepts about social justice and political change can be both understandable and engaging. This is a huge contribution to the field. Mara Sapon Shevin, Professor, School of Education, Syracuse University. This timely book offers a reader-friendly, unflinching approach to answering those questions on social justice that people are often afraid to ask. The authors provide clear definitions, recognizable examples, robust counterpoints, and thought-provoking activities. All critical educators need to get this text in the hands of their students. Darren E. Lund, Professor, Faculty of Education, University of Calgary. Özlem Sensoy is an assistant professor of education at Simon Fraser University, Burnaby, BC, Canada. Robin DiAngelo is an assistant professor of education at Westfield State University, Westfield, Massachusetts.

Social Justice Education Kathleen Skubikowski,Catharine Wright,Roman Graf,2023-07-14

This book addresses the combination of pedagogical curricular and institutional commitments necessary to create and sustain diversity on campus Its premise is that the socially just classroom flourishes in the context of a socially just institution and it invites faculty and administrators to create such classrooms and institutions This book grew out of a project involving deans and directors of teaching centers and diversity offices from six institutions to instigate discussions among teachers and administrators about implementing socially just practices in their classrooms departments and offices The purpose was to explore how best to foster such conversations across departments and functions within an institution as well as between

institutions This book presents the theoretical framework used and many of the successful projects to which it gave rise Recognizing that many faculty have little preparation for teaching students whose backgrounds culture and educational socialization differ from theirs the opening foundational section asks teachers to attend closely to their and their students relative power and positionality in the classroom and to the impact of the materials resources and pedagogical approaches employed Further chapters offer analytical tools to promote inquiry and change The concluding sections of the book demonstrate how intra and inter institutional collaborations inspired teachers to rise to the challenge of their campuses commitments to diversity Among the examples presented is an initiative involving the faculty development coordinator and faculty from a wide range of domains at DePauw University who built upon an existing ethics initiative to embed social justice across the curriculum In another professors of mathematics from three institutions describe how they collaborated to create socially just classrooms that both serve mathematical learning and support service learning or community based learning activities The final essay by a student from the Maldives describing how she navigated the chasm between life in an American college and her family circumstances will reinforce the reader s commitment to establishing social justice in the academy This book provides individual faculty faculty developers and diversity officers with the concepts reflective tools and collaborative models as well as a wealth of examples to confidently embark on the path to transforming educational practice
