Social Policy Harmonization In The European Communities:

Social Policy in the European Union Karen M. Anderson, 2015-03-26 Social policy has become an increasingly prominent component of the European Union's policy making responsibilities. Today, for example, a highly developed body of law regulates equal treatment in social security and coordinates national security schemes. National health services have opened up to patients and service providers from other states, and rules govern the translation of educational and vocational certificates across member states. This state of affairs is all the more remarkable given the relatively limited resources at the EU's disposal and the initial intentions of its founders. During negotiations for the Treaty of Rome in the 1950s, social policy was viewed as the exclusive provenance of the member states. There were to be provisions to facilitate labour mobility within the common market, but until the 1970s, social policy making at the EU level was modest. However, plans for the internal market moved social policy on the EU's decision making agenda. The Social Chapter was adopted in 1989, and the Single European Act expanded EU competencies in social policy. The Treaties of Maastricht, Amsterdam, and Nice all expanded competencies further, so that by the time the heads of government met in Lisbon in 2007 to sign the EU's latest treaty, the extent of supranational control over important aspects of social policy making was quite impressive. This important book provides a full account of the evolution of social policy in the EU and of its current reach. It examines the reasons for the increased role of the EU in the area, in spite of formidable obstacles, and details its effects in member states where social provision is often the biggest item in government budgets and a crucial issue in national elections. Drawing on research done on welfare states around the world and on European integration, this book provides a distinctive and sophisticated account of social policy in Europe, showing how it must now be understood in the context of multi-level governance in which EU institutions play a pivotal role.

Free Movement of Persons Within the European Community Anne Pieter van der Mei, 2003-02-24 This book explores the extent to which European Community law confers upon individuals the right to gain access to public services in other Member States. Are European citizens and third country nationals who have moved to other Member States entitled to claim minimum subsistence benefits, to receive medical care, or to be admitted to education? Does Community law provide for a freedom of movement for patients, students, and persons in need of social welfare benefits? If so, to what extent does Community law have regard for the Member States' fears for and concerns about welfare tourism? Besides addressing numerous detailed questions on the precise degree to which Community law allows for cross-border access to public services, the author analyses how Community law and the Court of Justice, in particular, have sought to reconcile the Community's objectives of realising freedom of movement and ensuring equality of treatment with the need to develop and maintain adequate social services within the Community. In addition, the book contains a detailed analysis of United States constitutional law on cross-border access to public services, exploring the question whether the European Community can possibly learn from the American experience.

Social Policy in the European Union, Third Edition Linda

Hantrais, 2017-09-16 Taking account of the debates about adapting the Union's institutional structures to accommodate different welfare arrangements and the need for more open forms of European governance the third edition of this well received book offers a compact clear and authoritative account of 50 years of social policy formation and implementation across the EU

A Handbook of International Economic Institutions M. A. G. van Meerhaeghe, 2012-12-06 What made me write this book was a feeling that students of international economics needed to find out their knowledge of the theory with work on the practice of the major international economic organizations many of which are having a growing influence on the national economies of their members There was no single volume given over to a concise treatment of these organizations of the international organizations themselves can be seen The annual reports suited of course but as a rule these are not noted for being brief and to the point the items of importance have to be fished out of a

sea of useless detail nor do they go in for criticism of their own activities In selecting the organizations to be dealt with in the book I was guided by the influence they exert I have left out those whose activities consist mainly in the drafting recommendations to which however meritorious they may be little or no attention is paid Some of them are included in the Introduction which provides a summary of a number of institutions not discussed separately in the body of the work There are however two exceptions the Organization for Economic Cooperation and Development OECD as the organization replacing the Organization for European Economic Cooperation OEEC and the United Nations Conference on Trade and Development UNCTAD whose meetings have succeeded in drawing much attention of the press **Lobbying the European**

Union David Coen,Jeremy Richardson,2009-06-04 Seeking to understand the role of interest groups in the policy process from agenda setting to implementation in the EU this book contains details of processes of institutional and actor learning professionalisation of lobbying and the possible emergence of a distinct EU public policy style *European Communities* John Paxton,1992-01-01 The establishment of the European Economic Community in 1958 was one of the most remarkable developments in the history of the post World War II era It aimed for nothing less than a complete economic union so that goods people and capital would be able to pass over national boundaries of member countries as freely as they move within any one country As the Community s target date of 1992 for economic integration draws closer the need for information both current and historical becomes more urgent The aim of this annotated bibliography is to create a critical and descriptive list of books published mainly in English for businessmen and analysts combining older publications with new The literature on the EC is vast and issues The Community itself nearly 3000 publications a year The range of material covered in this volume is distinguished by its great scope Historical sections provide listings on the postwar years of economic recovery the development of the EC and biographies of the leading personalities involved Policy oriented sections encompass such subjects as labor transportation environment energy and education The political ramifications of economic union financial and fiscal affairs relations between the EC and the Third World and foreign relations in general are dealt with in separate sections The volume concludes with a listing of major European Community publications The sheer bulk of published material on the EC much of it duplication has made keeping up with its developments difficult for small and medium in Europe and elsewhere This invaluable sourcebook will provide the business community and the political establishments with better access to EC information as they grapple with the implications of 1992 **Social Justice in a Global Age** Olaf

Cramme,Patrick Diamond,2018-03-08 What is the relationship between the principles of social justice and global justice How can we best reconcile the quest for greater social justice at home with greater social justice in the world Are the social justice pressures our societies currently face the result of globalisation or are they domestically generated How can we advance social justice in the light of the new social realities In this volume leading international experts offer compelling answers to these questions The aim of this volume is to articulate a modern conception of social justice that remains relevant

for an era of rapid globalisation The authors have developed a robust theoretical account of the relationship between globalisation and social justice complemented by an underpinning policy framework that aims to sustain new forms of equity and solidarity

The SAGE Handbook of Social Gerontology Dale Dannefer,Chris Phillipson,2010-08-13 This SAGE Handbook integrates basic research on social dimensions of aging It presents programmatic applications of research in areas not often seen in Handbooks including imprisonment technology and aging urban society aged and elderly migration The authors constitute a Who's Who of international gerontology and the focus on globalization and aging is unique among Handbooks today This Handbook should be in the library of every social gerontologist Vern L Bengtson Professor of Gerontology University of Southern California This volume reflects the emergence of ageing as a global concern including chapters by international scholars from Asia Australasia Europe and North America It provides a comprehensive overview of key trends and issues in the field drawing upon the full range of social science disciplines The Handbook is organized into five parts each exploring different aspects of research into social aspects of ageing Disciplinary overviews summaries of findings from key disciplinary areas within social gerontology Social relationships and social differences explores area like social inequality gender religion inter generational ties social networks and friendships Individual characteristics and change in later life examines different aspects of individual aging including self and identity cognitive processes and bio social interactions and their impact on physical and psychological aging Comparative perspectives and cultural innovations topics include ageing and development ageing in a global context migration and cross cultural perspectives on grandparenthood Policy issues covering policy concerns such as long term care technology and older people end of life issues work and retirement and the politics of old age This will be essential reading for all students researchers and policy makers concerned with the major issues influencing the lives of older people across the globe

Governance in the European Union Gary Marks,Fritz W Scharpf,Philippe C Schmitter,Wolfgang Streeck,1996-05-21 A fresh alternative to traditional state centred analyses of the process of European integration is presented in this book World renowned scholars analyze the state in terms of its component parts and clearly show the interaction of subnational national and supranational actors in the emerging European polity This multi level politics approach offers a powerful lens through which to view the future course of European integration The contributors empirical exploration of areas such as regional governance social policy and social movements underpins their broad conceptual and theoretical framework providing significant new insight into European politics

Unequal Europe Jason Beckfield,2019-02-18 The Euro crisis of 2009 2012 vividly demonstrated that European Union policies matter for the distribution of resources within and between European nation states Throughout the crisis distributive conflicts between the EU's winners and losers worsened and are still reverberating in European politics today In Unequal Europe Jason Beckfield demonstrates that there is a direct connection between European integration and the increase in European income inequality over the past four decades He places the recent crisis into a broader sociological political and

economic perspective by analyzing how European integration has reshaped the distribution of income across the households of Europe Using individual and household level income survey data combined with macro level data on social policies and case studies of welfare reforms in EU and non EU states Beckfield shows how European integration has re stratified Europe by simultaneously drawing national economies closer together and increasing inequality among households Explaining how where and why income inequality has changed in the EU Unequal Europe answers the question who wins and who loses from European integration

After Austerity Peter Taylor-Gooby, Benjamin Leruth, Heejung Chung, 2017-08-04 European welfare states are undergoing profound change driven by globalization technical changes and population ageing More immediately the aftermath of the Great Recession and unprecedented levels of immigration have imposed additional pressures This book examines welfare state transformations across a representative range of European countries and at the EU level and considers likely new directions in social policy It reviews the dominant neo liberal austerity response and discusses social investment fightback welfare chauvinism and protectionism It argues that the class solidarities and cleavages that shaped the development of welfare states are no longer powerful Tensions surrounding divisions between old and young women and men immigrants and denizens and between the winners in a new more competitive world and those who feel left behind are becoming steadily more important European countries have entered a period of political instability and this is reflected in policy directions Austerity predominates nearly everywhere but patterns of social investment protectionism neo Keynesian intervention and fightback vary between countries The volume identify areas of convergence and difference in European welfare state futures in this up to date study essential reading to grasp the pace and directions of change

The Modernization of Labour Law and Industrial Relations in a Comparative Perspective Silvia Spattini, 2009-01-01 Not all labour law and industrial relations scholars agree on the efficacy of the comparative approach that the analysis of measures adopted in other countries can play a constructive role in national and local policy making However the case deserves to be heard and no better such presentation has appeared than this remarkable book the carefully considered work of over 40 well known authorities in the field from a wide variety of countries including Australia France India Israel Peru Poland and South Africa The volume contains papers delivered at a conference sponsored by the Marco Biagi Foundation at the University of Modena and Reggio Emilia in March 2008

International Encyclopedia of Social Policy Tony Fitzpatrick, Huck-ju Kwon, Nick Manning, James Midgley, Gillian Pascall, 2013-07-04 Available in paperback for the first time this milestone work offers an in depth treatment of all aspects of the discipline and practice of social policy globally Supported by a distinguished international advisory board the editors have compiled almost 900 000 words across 734 entries written by 284 leading specialists to provide authoritative coverage of concepts policy actors welfare institutions and services along a series of national regional and transnational dimensions Also included are biographical entries on major

policy makers and shapers The editors have particularly striven to provide strong coverage of differing geographical and cultural traditions so that the variety of social policy as both an academic discipline and a domain of governance is reflected Contributors draw in and make the necessary connections with social policy s associated disciplines to provide a rich picture of this vast and highly diverse field Comprehensive and authoritative the Encyclopedia has sought to open up rather than to foreclose the numerous areas in which there is on going research debate and sometimes serious disagreement and divergence in theory and practice To this end entries attempt to introduce a core or common ground of understanding before moving on to a wider discussion of debates regarding different conceptual and geographical approaches The whole is integrated by cross referencing and each entry includes a bibliography for further reading There is a full index The International Encyclopedia of Social Policy provides the most substantial mapping of the international study and practice of social policy to date and will stand as a vital storehouse of knowledge for many years to come **European**

Documentation, 1990 **Public Services and the European Union** Laura Nistor, 2011-09-15 Politically sensitive and economically important welfare services such as health care health insurance and education have opened up a heated debate in the EU The application of EU law to welfare services raises discontent from the part of the Member States who perceive their systems to be under threat Resisting to the application of the EU law is sometimes seen as part of protecting those values This book suggests that this resistance is largely unjustified EU law is not damaging to welfare systems but it provides adequate balancing mechanisms to ensure that all interests are protected The approach taken in analysing the impact of EU law on welfare services is to look at the negative integration process and answer the questions related to the extent to which EU law applies to welfare services and the kinds of safeguards the Court offers for these services The proportionality principle distinguishes itself as the central element in balancing national and Community interests Being part of the broader integration process negative harmonization creates legislative lacunae and therefore this book also looks at alternative solutions to the negative harmonization process namely positive and soft law *Austria in the European Union* Anton Pelinka, 2017-09-08 Austria joined the European Union in 1995 with the overwhelming support of its citizenry In June 1994 a record 66 6 percent of the Austrian population voted in favor of joining the Union and Austria acceded on January 1 1995 Only three years later in the second half of 1998 Austria assumed its first presidency of the European Union Its competent conduct of the Union s business enhanced its reputation The sense that Austria was a role model collapsed overnight after a new conservative People s Party iVP FPi coalition government was formed in Austria in early February 2000 Austria became Europe s nightmare This volume has two purposes The first is to assess Austria s first five years in the European Union The second is Austria s ongoing struggle with its past Heinrich Neisser evaluates and assesses Austria s commitment to the European Union Thomas Angerer offers a long term perspective of regionalization and globalization trends in Austrian foreign affairs Waldemar Hummer analyzes contradictions between Austrian neutrality and Europe s emerging common

security policy Johannes Pollak and Sonja Puntischer Rieckmann look at current debates over weighing future voting rights in the European Commission Michael Huelshoff evaluates Austria's EU presidency in 1998 and compares it to the subsequent 1999 German presidency Gerda Falkner examines the withering away of the previously much admired Austrian welfare state Walter Manoschek scrutinizes the Nazi roots of Jörg Haider's Freedom Party Michael Gehler critiques the EU sanctions and bemoans the absence of mediation through transnational Christian conservative parties In reviewing how Austria deals with World War II Richard Mitten investigates discourses on victimhood in postwar Austria and the place of Jews in this process A Roundtable presents overwhelming evidence of Austrians' deep involvement in Nazi war crimes and includes articles by Sabine Loitfellner and Winfried Garscha This addition to the Contemporary Austrian Studies series will be welcomed by political scientists historians and legal scholars particularly those with a strong interest in European affairs
