Withers,2019-03-14 A Violent History of Benevolence traces how normative histories of liberalism progress and social work enact and obscure systemic violences Chris Chapman and A J Withers explore how normative social work history is structured in such a way that contemporary social workers can know many details about social work s violences without ever imagining that they may also be complicit in these violences Framings of social work history actively create present day political and ethical irresponsibility even among those who imagine themselves to be anti oppressive liberal or radical The authors document many histories usually left out of social work discourse including communities of Black social workers who among other things never removed children from their homes involuntarily the role of early social workers in advancing eugenics and mass confinement and the resonant emergence of colonial education psychiatry and the penitentiary in the

same decade Ultimately A Violent History of Benevolence aims to invite contemporary social workers and others to reflect on the complex nature of contemporary social work and specifically on the present day structural violences that social work enacts in the name of benevolence Social Work Prentice Hall PTR,1991-12-01 Social Work Armando T. Morales,Bradford W. Sheafor,1997-09 *Social Work and the Environment* Michael Kim Zapf,2009 This ground breaking new work provides a detailed and extensive comparison of how the physical environment has been conceptualized in social work and other professions and offers a new and attractive foundational metaphor for social work The author acknowledges the need for greater awareness and action regarding environmental impacts and the book promotes more comprehensive notions of responsibility identity and stewardship that lead to a dynamic metaphor of people as place as the foundation for relevant social work practice in the early 21st century Why is that a profession with a declared focus on person in environment has been so silent on the environmental crisis Mainstream social work theory has narrowed the understanding of environment to include merely the social environment but this approach is no longer sufficient for participation in multi disciplinary efforts to tackle urgent environmental issues Transformative notions of responsibility identity and stewardship have been developed on the fringes of our professional community rural remote social workers Aboriginal social workers and international and spiritual social workers They must now move to the core of the profession The Road to Social Work and Human Service Practice with Online Study Too Ls 12 Months Lesley Chenoweth,Donna McAuliffe,2017-09-11 This is a value pack comprising Chenoweth s The Road to Social Work and Human Service Practice 5e print book Search Me Social Work 2 term Instant Access The Road to Social Work and Human Service Practice provides a comprehensive introduction to all aspects of practice in the professions of social work and the human services It lays out the journey and expertly signposts the key areas of knowledge skills values ethics practice contexts and contemporary debates Client and practitioner perspectives offer reflections on real life social work and human services interventions while new case studies show how theory can be applied to practice Fully updated and revised this text is an invaluable tool for students as they start their careers in the social work and human services sector Search Me is an online research library customised to your subject that puts the information you need right at your fingertips Content is updated daily from hundreds of scholarly and popular journals eBooks and newspapers Plus 24 hour access means you won t be limited by library opening times *Social Work Values and Ethics* Frederic G.
