Evers, Annette Zimmer, 2016-04-05 This book addresses the practice of social innovation which is currently very much in the public eye New ideas and approaches are needed to tackle the severe and wicked problems with which contemporary societies are struggling Especially in times of economic crisis social innovation is regarded as one of the crucial elements needed to move forward Our knowledge of its dynamics has significantly progressed thanks to an abundance of studies on social innovation both general and sector specific However despite the valuable research conducted over the past years the

systematic analysis of social innovation is still contested and incomplete The questions asked in the book will be the following

- 1 What is the nature of social innovations
- 2 What patterns can be identified in social innovations emerging at the local level
- 3 How is the emergence and spread of social innovations related to urban governance

More precisely which conditions and arrangements facilitate and hinders social innovation We explore these questions using different types of data and methods and studying different contexts In particular we focus on innovations that aim at solving problems of the young unemployed single parents and migrants This analysis is based on original research carried out in the period 2010-2013 in the framework of a European project with a specific empirical research strategy Research was carried out in 20 cities in 10 different European countries

Information Systems -- Creativity and Innovation in Small and Medium-Sized Enterprises Gurpreet Dhillon, Bernd Carsten Stahl, Richard Baskerville, 2009-07-10 This book contains the collection of papers presented at the conference of the International Federation for Information Processing Working Group 8.2 Information and Organizations The conference took place during June 21-24 2009 at the Universidade do Minho in Guimaraes Portugal The conference entitled CreativeSME The Role of IS in Leveraging the Intelligence and Creativity of SMEs attracted high quality submissions from across the world Each paper was reviewed by at least two reviewers in a double blind review process In addition to the 19 papers presented at the conference there were five panels and four workshops which covered a range of issues relevant to SMEs creativity and information systems We would like to show our appreciation of the efforts of our two invited keynote speakers Michael Dowling of the University of Regensburg Germany and Carlos Zorrinho Portuguese coordinator of the Lisbon Strategy and the Technological Plan The following organizations supported the conference through financial or other contributions and we would like to thank them for their engagement

Capabilities, Innovation and Economic Growth Michele Capriati, 2017-07-28 The question of whether we can foster growth and innovation while promoting individual freedoms poses a challenge for everyone studying and working on innovation and development policies Whilst innovation literature is largely dominated by a focus on efficiency development literature tends to focus on equality and pays less attention to mechanisms fostering economic and social change This book aims to move beyond these barriers and to identify development policies that foster both efficiency and equality exploring the connection between innovation policies and the improvement of individual freedoms Capabilities Innovation and Economic Growth argues that we can answer these questions by focusing on the relation between Amartya Sen's human development approach and the Neo-Schumpeterian analysis of innovation systems After considering the connections between the two schools of thought and the way they enrich each other's perspectives chapters go on to show how policy can support virtuous circles in which innovation human

development and economic growth interact and mutually reinforce each other This is undertaken through the descriptive analysis and the empirical testing of a sample of nations and European regions The volume concludes with an exploration of the contribution that the capabilities approach can give to the design of innovation policy and with the analysis of macroeconomic policies favorable to innovation and human development This will be essential reading for students and academic economists interested in development growth and innovation policy makers and officers in charge of defining development and innovation plans at national and regional level and consultants and managers in development agencies implementing innovation and development projects
