Social Security And Medicare For The New Millenium:

Social Security and Medicare for the New Millenium Maurice Youakim,2000-12 Social Security and Medicare have been a great concern for millions of Americans especially those who are approaching the retirement years They are concerned that the funds will not be there In response to the justified alarm the author of Social Security and Medicare for the New Millenium proposes a guaranteed plan to insure that the funds for Social Security and Medicare will be there for the American public Each working individual will have two accounts in a Social Security and Medicare Bank in his or her state All the money deducted from their salaries and their employer contribution will be deposited in their accounts That money will be placed in safe investments allowing individuals to live off their accounts during their retirement years Of course the monthly retirement income would depend on the total amount deposited and the accrued proceeds from investments Many examples are given to explain the plan as it applies to individuals with different income levels **Averting the Defense**

Train Wreck in the New Millennium Daniel Gouré,Jeffrey M. Ranney,1999 **ICU Resource Allocation in the New Millennium** David Crippen,2012-09-14 Intensive care medicine is one of the fastest growing services provided by hospitals and perhaps one of the most expensive Yet in response to the global financial crisis of the last few years healthcare funding is slowing or decreasing throughout the world How we manage health care resources in the intensive care unit ICU now and in a future that promises only greater cost constraints is the subject of this book the third in an informal series of volumes providing a global perspective on difficult issues arising in the ICU Taking 12 developed countries as their focus leading experts provide a country by country analysis of current ICU resource allocation A second group of experts use the chapters as a departure point to analyze current ICU resource allocation at the level of the global medical village The process is repeated but with an eye toward the future first country by country then at the global level that takes into account initiatives and reforms now underway A fictional healthcare plan the Fair Equitable Healthcare Plan is put forth to address weaknesses in existing approaches and healthcare experts and ethicists are invited to respond to its often provocative provisions Itself structured as a dialogue the book is an excellent way to start or to continue serious discussion about the allocation of ICU healthcare resources now and in the years ahead **New Media for the New Millennium** William C. Spragens,2003 This book discusses the careers of the six White House press secretaries serving between 1981 and 1998 and the press secretaries for six governors during the same period An introduction briefly outlines the history of public relations and the Press Secretary s changing role during the era of radio and television Two concluding chapters consider correspondents views of the Secretaries work and situate the study in the context of ambition theory Spragen is a political scientist formerly associated with American University Annotation c 2003 Book News Inc Portland OR booknews com **Managed Health Care in the New Millennium** David I. reinforcement of the European pillar of the Alliance adjustment of the balance of responsibilities between the two sides of the Atlantic and shoring up the transatlantic partnership and perhaps broadening it into that elusive concept a transatlantic community stretching into economic and other fields They address the perceived security vacuum in parts of Central and Eastern Europe and discuss measures to build up greater confidence between former Cold War antagonists and ways of developing in them the habits of co operation rather than counter operation They draw up architectural designs for the security of the twenty first century and grapple with the conflict of ideas circulating about the Alliance s future and particularly about its future relationship with Russia Isolationism nationalism multilateralism realism constructivism and other isms are helpfully put into context Renationalisation denationalisation and identities in formation or in decline are also investigated
