Social Thought Of Thomas Merton:

The Social Thought of Thomas Merton David W. Givney, 2009 This new edition traces the evolution of Thomas Merton's social thought particularly as it evolved toward a way of nonviolence and peacemaking grounded in contemplation and Christian love. It identifies the social context that shaped Merton including civil rights and racism, the Vietnam War, and a growing nuclear threat. And it explores the religious influences and experiences that shaped Merton including Catholic social teaching, particularly Pope John XXIII's encyclical letter *Pacem in Terris* (Peace on Earth), the words and actions of Mahatma Gandhi and Martin Luther King Jr., the practice of contemplation and Zen, and Merton's own life as a Trappist monk.

Thomas Merton James Thomas Baker, 2021-12-14 Thomas Merton Social Critic organizes and critically analyzes the social thought of the Cistercian monk who has become an internationally known symbol of the spiritual element in man. The author evaluated all of Merton's writings published and unpublished, then discussed his interpretations with Merton personally. The result is a perceptive relation of Merton's social thought to its genesis in his own life experiences and contemplation, a faithful rendering of Merton's thought on the problems of our time. Merton, the author makes clear, called for a spiritual, social, and religious union. It was a poetic and sometimes unimplemented solution to alienation and division, a valid and authentic if at times limited response to the contemporary chaos. This study will be greeted by a strong reaction from Mertonians everywhere.

Thinking through Thomas Merton Robert Inchausti, 2014-02-01 Considers the legacy of Thomas Merton and his relevance for contemporary times. With the publication of *The Seven Storey Mountain* in 1948, Thomas Merton became a bestselling author writing about spiritual contemplation in a modern context. Although Merton (1915-1968) lived as a Trappist monk, he advocated a spiritual life that was not a retreat from the world but an alternative to it, particularly to the deadening materialism and spiritual vacuity of the postwar West. Over the next twenty years, Merton wrote for a wide audience, bringing the wisdom of Christianity, Buddhism, and Sufism into dialogue with the period's contemporary thought. In *Thinking through Thomas Merton*, Robert Inchausti introduces readers to Merton and evaluates his continuing relevance for our time. Inchausti shows how Merton broke the high modernist trance so that we might become the change we wish to see in the world by refiguring the lost virtues of silence, contemplation, and community in a world enamored by the will to power, virtuoso performance, radical skepticism, and materialist metaphysics. Merton's defense of contemplative culture is considered in light of the postmodern thought of recent years and emerges as a compelling alternative. Inchausti explores Merton's understanding of Western Christian monasticism and provides new insights into his critique of modernity.

A Question of Being Karin Holsinger Sherman, 2007-07-20 James Douglass's writings have been recognized as among the most challenging and inspiring

explorations of nonviolence and Christian discipleship in the last century Throughout his career Douglass has argued forcefully for the integration of contemplation and resistance theology and cultural critique spirituality and prophetic involvement His work has inspired many of the key figures in recent debates regarding just war Christian nonviolence and radical discipleship and continues to be highly relevant in our contemporary situation In *A Question of Being* the first book length treatment published on Douglass s writings Karin Holsinger Sherman provides an introduction to and engagement with this important body of work through an exploration into its contextual history influences and main themes Moreover the author argues that these themes work together to create an ontology of nonviolence an ontology that integrates the forces of resistance and contemplation so important to Douglass The book begins by examining Douglass s biography and three broad historical trajectories that give context to his thought the fusion of Christianity and American nationalism in the early Cold War period the emergence of cultural critique in the late fifties and early sixties and the Catholic pacifist tradition and the post 1972 period of disillusionment Holsinger Sherman then considers the lives and thought of Dorothy Day Mahatma Gandhi and Thomas Merton as well as their unique intellectual and exemplary influence on Douglass s ideas After explicating the themes of the cross and the kingdom as they developed chronologically in Douglass s writing career this book draws together Douglass s thought to reveal an ontology of nonviolence In her conclusion Holsinger Sherman argues that this ontology of nonviolence is the key to understanding Douglass s integral theology of contemplation and resistance

Rhetoric, Religion and the Civil Rights Movement, 1954-1965 Davis W. Houck, David E. Dixon, 2006 V 2 Building upon their critically acclaimed first volume Davis W Houck and David E Dixon s new *Rhetoric Religion and the Civil Rights Movement 1954 1965* is a recovery project of enormous proportions Houck and Dixon have again combed church archives government documents university libraries and private collections in pursuit of the civil rights movement s long buried eloquence Their new work presents fifty new speeches and sermons delivered by both famed leaders and little known civil rights activists on national stages and in quiet shacks The speeches carry novel insights into the ways in which individuals and communities utilized religious rhetoric to upset the racial status quo in divided America during the civil rights era Houck and Dixon s work illustrates again how a movement so prominent in historical scholarship still has much to teach us Publisher

A Progressive Voice in the Catholic Church in the United States Arthur J. McDonald, 2019-10-29 In the summer of 1966 one year after the conclusion of the Second Vatican Council a group of nineteen Roman Catholic priests met clandestinely in a church hall in a suburb of Pittsburgh to discuss forming an independent group of ordained clergy Fearful that meeting publicly might be viewed as a threat to the authority of the local bishop thus potentially risking sanctioning from him they used numbers not names when circulating the minutes of the first two meetings Once the word spread among the local clergy that such a group was meeting and they realized there was widespread interest they went public and invited all of Pittsburgh s Catholic clergy including the bishop to their third meeting They chose a name the Association of Pittsburgh Priests APP and the group was launched Shortly after forming and with interest from among over two hundred clergy APP began advocating for major church renewal and involvement in any number of social justice issues Regarding church renewal they grounded themselves in the documents of Vatican II most especially *Gaudium et Spes* Church in the Modern World and soon lobbied for optional celibacy and married priesthood women s ordination lay empowerment including the promotion of the early church notion of the priesthood and prophethood of all believers To this day APP remains a force for change in the church and in society ever true to its initial intuition to fully implement the renewal of church and society called for by the bishops at Vatican II

Thomas Merton's Art of Denial David D. Cooper, 2008-12-01 Trappist monk and best selling author Thomas Merton battled constantly within himself as he attempted to reconcile two seemingly incompatible roles in life As a devout Catholic he took vows of silence and stability longing for the security and closure of the monastic life But as a writer he felt compelled to seek friendships in literary circles and success in the secular world In *Thomas Merton's Art of Denial* David D. Cooper traces Merton's attempts to reach an accommodation with himself to find a way in which the silence of the monk could live compatibly with the racket of the writer From the roots of this painful division in the unsettled early years of Merton's life to the turmoil of his directionless early adult years in which he first attempted to write he was besieged with self doubts Turning to life in a monastery in Kentucky in 1941 Merton believed he would find the solitude and peace lacking in the quotidian world But as Merton once wrote An author in a Trappist monastery is like a duck in a chicken coop And he would give anything in the world to be a chicken instead of a duck Merton felt compelled to choose between life as either a less than perfect priest or a less prolific writer Discovering in his middle years that the ideal monastic life he had envisioned was an impossibility Merton turned his energies to abolishing war It was in this pursuit that he finally succeeded in fusing the two sides of his life converting his frustrated idealism into a radical humanism placed in the service of world peace Here is a portrait of a man torn between the influence of the twentieth century and the serenity of the religious ideal a man who used his own personal crises to guide his youthful ideals to a higher purpose

Comparative Approaches to Compassion Ramin Jahanbegloo,2022-06-30 Ramin Jahanbegloo develops the concept of compassion as a practical and ethical response to the problems of today s world Examining the power of compassion through the lens of multiple world religions he explores ahimsa in Buddhism Jainism and Hinduism and neighbourly love in Christianity before synthesizing the two concepts in the Gandhian theory of non violence and its impact on Muslim and Christian thinkers such as Abdul Ghaffar Khan and Martin Luther King Jr Jahanbegloo considers the idea of a compassionate civilization based on the nonviolent democratic theory put forward by Gandhi with Swaraj and completed by Martin Luther King Jr with the Beloved Community By scrutinizing compassion in various religious and ethical traditions and exploring the relevance of homo fragilis Jahanbegloo s comparative approach enriches our understanding of nonviolence as a universal philosophy and practice for the 21st century He shows that nonviolence is not only a mode of thinking and a way of life but also a powerful strategy of social and political transformation Illusions of Freedom Jeffrey M. Shaw,2014-06-02 Illusions of Freedom examines the opinions and ideas of two twentieth century writers Thomas Merton a Catholic monk living in the United States and Jacques Ellul a French Protestant Contemporaries they never met or corresponded with each other but their critique of the influence that technology was beginning to have on the human condition is strikingly similar Both Merton and Ellul drew upon the ideas of others in formulating their worldview to include Karl Barth Soren Kierkegaard Aldous Huxley and Karl Marx Jeffrey Shaw examines the influence that these other philosophers had on Merton and Ellul as they formulated their own ideas on technology s impact on freedom Tracing the similarities and in some cases the differences between their critiques of technology and the idea that progress is always to be seen as something inherently good one finds that they bring a unique perspective to the debate and offer readers an alternative avenue for reflecting on the meaning of technology and its impact on our lives in the twenty first century
