Socialism And The Common Good:

Socialism and the Common Good Preston T. King, 1996 Socialism and the Common Good brings together a set of writings by some of the leading social and political thinkers at work in Britain today Its object is to place before the public some seminal discussions of a central theme which is both theoretical and practical namely the role of the state in achieving social justice in modern market systems from a socialist perspective These essays touch many subjects such as state ownership collectivism communitarianism individualism equality citizenship and national identity Is state ownership essential to the common good Is it only one among many possible means of securing social justice Is communitarianism a threat to civil liberty Is it by contrast a necessary condition for efficacy and fairness The authors of these essays all members of the Socialist Philosophy Group of the Fabian Society follow no single line and approach these problems in diverse ways The contributors however prove remarkably uniform in their rejection of the cult of choice and of rational egoism and in their promotion of a more robust and inclusive notion of community and of social responsibility *Responses to 101 Questions on Catholic Social Teaching* Kenneth R. Himes, 2001 An explanation of Catholic social teaching using the 101 Questions format

Raskin,2019-11-19 First published in 1986 In this thought provoking book the widely acclaimed thinker and activist Marcus Raskin moves beyond the limits and failures of socialism and capitalism to an original theory of social reconstruction for a humane society Presenting concrete alternatives for education health economics and national security he develops a new conception of democracy and the rule of law in relation to our common good A political and philosophic tool designed for those who search for alternatives in their lives and in the world The Common Good shows how to organize for social reconstruction the type of leadership now required and the importance of restoring progress as a political purpose Defining politics as broader than the mere manifestation of power Raskin s vision helps the left and liberals find their way towards a new public philosophy and program Theories of the Mixed Economy Vol 3 David Reisman,2024-11-01 A collection of ten classic texts of 20th century British political economy The texts deal with managed capitalism the welfare state and the middle ground and should promote

readers understanding of British politics and economic ideology in the years since the Great Depression **Virtue and Economy** Andrius Bielskis, Kelvin Knight, 2016-03-09 Interest in Aristotelianism and in virtue ethics has been growing for half a century but as yet the strengths of the study of Aristotelian ethics in politics have not been matched in economics This ground breaking text fills that gap Challenging the premises of neoclassical economic theory the contributors take issue with neoclassicism's foundational separation of values from facts with its treatment of preferences as given and with its consequent refusal to reason about final ends The contrary presupposition of this collection is that ethical reasoning about human ends is essential for any sustainable economy and that reasoning about economic goods should therefore be informed by reasoning about what is humanly and commonly good Contributions critically engage with aspects of corporate capitalism managerial power and neoliberal economic policy and reflect on the recent financial crisis from the point of view of Aristotelian virtue ethics Containing a new chapter by Alasdair MacIntyre and deploying his arguments and conceptual scheme throughout the book critically analyses the theoretical presuppositions and institutional reality of modern capitalism

Harvard Illustrated Magazine, 1910 **Higher Education in the melting pot** Felix Maringe, 2022-02-07 The idea of this book emerged from the Education Deans Forum EDF meeting held in Johannesburg in 2018 The forum discussed the twin issues of the 4IR and Decolonisation and how these were likely to impact the future development of Higher Education in South Africa Essentially this book provides scholarly analyses of a range of possible impacts of the two discourses On one hand the discourses are discussed as representing convergences and divergences in relation to their epistemological ontological axiological and methodological assumptions On the other they are portrayed as competing for dominance in the contemporary and future discourses in Higher Education As a scholarly compilation of high end research the book is a must read resource for academics generally and those in teacher education disciplines particularly Issues of the automation of academic workspaces impact of digital divides the opportunities and constraints of the technologisation of curricula pedagogies teaching and learning and the intractable challenges of remote modalities of university instruction are dealt with by some of the leading thinkers in the South African academics *Nostra Aetate* Pim Valkenberg, 2016-09-02 The contents of this book originated in a conference at the Catholic University of America in May 2015 The essays and lectures contained within focus on the relationships of the Catholic Church with the other Abrahamic faiths primarily Islam and Judaism There is some discussion of the Asian religions as well This volume in structure loosely follows the document *Nostra Aetate* itself The first part of the book gives a broad view of the document and its importance The following parts concentrates on the relationships between the Catholic Church and the Asian Muslim and Jewish religions The concluding section of the book surveys the reception *Nostra Aetate* received in various ecclesial and academic contexts *Socialists Don't Sleep* Cheryl K. Chumley, 2020-09-22 *Socialists Don't Sleep* is one of those timely books that just points out the roots of what's gone wrong in America how we can get our country back on track to what founders envisioned and the Judeo Christian community that

Parliament. Senate, 1928 **New Social Teachings** Politicus (pseud.), 1886 **Freedom in Resistance and Creative Transformation** Michael St. A. Miller, 2013-04-11 In Freedom in Resistance and Creative Transformation Michael Miller

addresses the concept of freedom that is central to the grammar of Christian faith and important in a wide range of religious and nonreligious settings across the globe. He confronts the fact that despite the claimed importance of freedom there continues to be interpersonal socio political and religious power hierarchies that keep some people dominant and others subjugated. The book suggests that often these hierarchies are informed by Christian teachings that deny freedom to human beings on the basis of their humanity per se. Having classified humanity as fallen we are instructed that freedom is experienced by disparaging our humanity as we actually experience it, seeing ourselves as our own worst enemies and accepting bondage to God, the bondage reflected in the character of relations with those seen as God's special representatives in the world. Miller presents a case against this understanding of the human situation and in the process he critically engages the Old and New Testaments along with ideas of significant representatives of Christian orthodoxy. As an alternative he promotes freedom that is finite, realistically libertarian and relational as most compatible with the character of human beings that are partially self creating and self determining. Contributing to this position is the view that an infinitely temporal God by character and desire participates in human life in a way that ensures the requisite space for authentic decision making from which emerges genuinely novel possibilities for human life. This dynamic has implications for the continued development of the human species and the quality of life in the cosmos as a whole.

Communion of Radicals

Jonathan McGregor, 2021-11-03. Popular perceptions of American writers as either godless radicals or God fearing reactionaries overlook a vital tradition of Christian leftist thought and creative work. In *Communion of Radicals* Jonathan McGregor offers the first literary history of theologically conservative writers who embraced political radicalism as their reverence for tradition impelled them to work for social justice. Challenging recent accounts that examine twentieth century American literature against the backdrop of the rising Religious Right, *Communion of Radicals* uncovers a different literary lineage in which allegiance to religious tradition fostered dedication to a more just future. From the Gilded Age to the Great Depression to the civil rights movement, traditional faith empowered the rebellious writing of socialists, anarchists and Catholic personalists such as Vida Scudder, Dorothy Day, Claude McKay, F. O. Matthiessen and W. H. Auden. By recovering their strain of traditioned radicalism, McGregor shows how strong faith in the past can fuel the struggle for an equitable future. As Christian socialists, Scudder and Ralph Adams Cram envisioned their movement for beloved community as a modern version of medieval monasticism. Day and the Catholic Workers followed the fourteenth century example of St. Francis when they lived and wrote among the disaffected souls on the Bowery during the Great Depression. Tennessee's Fellowship of Southern Churchmen argued for a socialist and antiracist understanding of the notion of the South and the Agrarian tradition popularized by James McBride Dabbs. Walker Percy and Wendell Berry's Agrarian roots flowered into creative expressions encompassing the queer and Black medievalist poetry of Auden and McKay respectively. Matthiessen's Catholic socialist interpretation of the American Renaissance and the genteel anarchism of Percy's southern comic novels. Imaginative writing

enabled these Christian leftists to commune with the past and with each other driving their radical efforts in the present
Communion of Radicals chronicles a literary Christian left that unites deeply traditional faith with radicalism and offers a usable past that disrupts perceived alignments of religion and politics **The Big Picture** Peter W. Hauer, 2011-10-13 What causes poverty Can poverty be eliminated Why do we keep moving towards global government Are world events controlled by a secret group of powerful insiders What will our society be like two or three generations from now The answers to all these questions are in this book Take a lightning fast trip through 2400 years of history Along the way you'll discover why we live the way we do and what your children's future will be It's an exciting ride and this book takes you all the way from the beginning of civilization to its end which is just around the corner
