Socialism and the Individual William Angus Sinclair, 1978-06 The Politics of the Labour Party Dennis Kavanagh, 2013-04-15 It would be difficult to think of any political party whose internal problems have been so publicly scrutinised as have those of the Labour Party in recent years The authors of The Politics of the Labour Party were not specifically asked to consider the question why Labour There has been no shortage of published views on that subject Instead they were invited to look at certain themes and topics of longer term significance With a focus on contemporary problems whose consequences are still unfolding The Politics of the Labour Party promotes an understanding of the context in which those problems occurred and will develop with its main theme being change Chapters included focus on power in party the developing incompatibility of intra party democracy and parliamentary democracy and the changing styles of political leadership Noted contributors such as the late Robert Mackenzie Colin Crouch and Dennis Kavanagh raise important questions about the changes in the relationship between the party and the trade unions remind us about the scale of Labour's recent decline in electoral support and investigate the party's ideas of representation and asks if Labour is still the workers' party The Politics of the Labour Party provides simply the most authoritative analysis of the longer term tensions which lie behind the immediacy of day to day events **The Library Catalogs of the Hoover Institution on War, Revolution, and Peace, Stanford University** Hoover Institution on War, Revolution, and Peace, 1969

 published in 1983 This study draws upon empirical findings on party activists members and voters It examines the origins
 and nature of Labour s crisis in the 1980s showing how the split leading to the formation of the SDP was merely a
 manifestation of deeply rooted problems which went back many years It argues that this crisis had three distinct but
 interrelated aspects first the ideological schism within the party which had grown in intensity over time second the electoral
 crisis which produced the worst electoral performance at the 1983 general election since 1918 and third the membership
 crisis arising from the fact that the party had been losing more than 11 000 individual members per year on average since
 1945 Using elite and mass surveys the book demonstrates the link between these crises and Labour s policy performance in
