

Socialism: An Economic and Sociological Analysis

This masterwork is much more than a refutation of the economics of socialism (although on that front, nothing else compares). It is also a critique of the implicit religious doctrines behind Western socialist thinking, a cultural critique of socialist teaching on sex and marriage, an examination of the implications of radical human inequality, an attack on war socialism, and refutation of collectivist methodology. In short, Mises set out to refute socialism, and instead yanked out the egalitarian mentality from its very roots. For that reason, *Socialism: An Economic and Sociological Analysis* led dozens of famous intellectuals, including a young F.A. Hayek, into a crisis of faith and a realist/libertarian political orientation. All the collectivist literature combined cannot equal the intellectual achievement of this one volume. To Search for Mises Institute titles, enter a keyword and LvMI (short for Ludwig von Mises Institute) e.g., Depression LvMI
