Socialist Upheaval Its Meaning For The:

The Socialist Calculation Debate After the Upheavals in Eastern Europe Pascal Bridel,1993 **Translations on International Communist Developments** ,1964 **The Social Unrest** John Graham Brooks,1903 *The Oxford Handbook of Illiberalism* Marlène Laruelle,2024 From the rise of populist leaders and the threat of democratic backsliding to polarizing culture wars and the return of great power competition the backlash against the political economic and social liberalism is increasingly labeled illiberal Yet despite the increasing importance of these phenomena scholars still lack a firm grasp on illiberalism as a conceptual tool for understanding societal transformations The Oxford Handbook of Illiberalism addresses this gap by establishing a theoretical foundation for the study of illiberalism and showcasing state of the art research on this phenomenon in its varied scripts political economic cultural and geopolitical Bringing together the expertise of dozens of scholars the Oxford Handbook of Illiberalism offers a thorough overview that characterizes the current state of the field and charts a path forward for future scholarship on this critical and quickly developing concept **The Logic of Liberty** Michael Polanyi,2013-08-21 This is Volume XI of eighteen in the Political Sociology Series and looks at the rejections and rejoinders of the logic of liberty originally published in 1951 **The Industrialisation of Soviet Russia 3: The Soviet Economy in Turmoil 1929-1930** R. W. Davies,1989-05-05 In 1929 30 the spinal year of the first five year plan a vast investment programme began the transformation of the Soviet Union from a peasant country into a great industrial power This book the third part of The Industrialisation of Soviet Russia re examines the breakdown of the mixed economy In those days of heroism and enthusiasm hunger and repression crucial Soviet economic and political institutions were established and are only now being effectively challenged by Gorbachev s revolution While complementing the previous two volumes of this author s work the book is designed to be read independently It sheds new light on a dramatic moment in Soviet history and in the formation of the Soviet system *Norbert Elias and Social Theory* François Dépelteau,T. Landini,2013-11-18 This book will compare the approach and works of Norbert Elias well known for his analysis of the civilizing process his work on sport and violence and more largely his figurational approach with other important social theories both classical and contemporary **Revolutionary Movements in World History** James DeFronzo,2006-07-20 This groundbreaking three volume encyclopedia is the first to focus exclusively on the revolutionary movements that have changed the course of history from the American and French Revolutions to the present ABC CLIO is proud to present an encyclopedia that reaches around the globe to explore the most momentous and impactful political revolutions of the last two and a half centuries exploring their origins courses consequences and influences on subsequent individuals and groups seeking to change their own governments and societies In three volumes Revolutionary Movements in World History covers 79 revolutions from the American and French uprisings of the late 18th century to the rise of communism Nazism and fascism from Ho Chi Minh and Fidel Castro to the Ayatollah al Qaeda and the fall of the Berlin wall Written by leading experts from a number of nations this

insightful cutting edge work combines detailed portrayals of specific revolutions with essays on important overarching themes Full of revealing insights compelling personalities and some of the most remarkable moments in the world s human drama Revolutionary Movements in World History offers a new way of looking at how societies reinvent themselves

Turmoil and Triumph George P. Shultz,2010-08-31 George Schultz recounts his years working for the Reagan administration including foreign policy and the power struggle between the State Department and the National Security Council in this candid reflection on his years as Secretary of State *Turmoil and Triumph* isn t just a memoir though it is that too it s a thrilling retrospective on the eight tumultuous years that Schultz worked as secretary of state under President Ronald Reagan Under Schultz s strong leadership America braved a nuclear arms race with the Soviet Union increasingly damaging waves of terrorism abroad scandals such as the Iran Contra crisis and eventually the end of the decades long Cold War With the strong convictions and startling candor for which Schultz is known this personal account takes readers into the heart of the Reagan administration revealing the behind the scenes talks and churning tensions that informed a transitional decade that many Americans now look back on as one of the country s most exalted Theodore Roosevelt and the American Political Tradition Jean M. Yarbrough,2014-01-31 Rough Rider hunter trust buster president and Bull Moose candidate Biographers have long fastened on TR as man of action while largely ignoring his political thought Now in time for the centennial of his Progressive run for the presidency Jean Yarbrough provides a searching examination of TR s political thought especially in relation to the ideas of Washington Hamilton and Lincoln the statesmen TR claimed most to admire Yarbrough sets out not only to explore Roosevelt s vision for America but also to consider what his political ideas have meant for republican self government She praises TR for his fighting spirit his love of country and efforts to promote republican greatness but faults him for departing from the political principles of the more nationalistic Founders he esteemed With the benefit of hindsight she argues that the progressive policies he came to embrace have over time undermined the very qualities Roosevelt regarded as essential to civic life In particular the social welfare policies he championed have eroded industry and self reliance the expansion of the regulatory state has multiplied the special interests seeking access to political power and the bureaucratic experts in whom he reposed such confidence have all too often turned out to be neither disinterested nor effective Yarbrough argues that TR s early historical studies inspired by Darwinian biology and Hegelian political thought treated westward expansion from an evolutionary and developmental perspective that placed race and conquest at the center of the narrative while relegating individual rights and consent of the governed to the sidelines Although his early career showed him to be a moderate Republican reformer Yarbrough argues that even then he did not share Hamilton s enthusiasm for the commercial republic and substituted an appeal to abstract duty for The Federalist s reliance on self interest As New York governor and first term president TR attempted to strike a just balance between democratic and oligarchic interests but by the end of his presidency he had tipped the balance in favor of progressive policies

From the New Nationalism until his death in 1919 Roosevelt continued to claim the mantle of Washington and Lincoln even as he moved further from their political principles Through careful examination of TR s political thought Yarbrough s book sheds new light on his place in the American political tradition while enhancing our understanding of the roots of progressivism and its transformation of the founders Constitution **The New Republic** Herbert David Croly,1917 The Cause of World Unrest Nesta Helen Webster,1920 The main outline of the contents of this book is in brief that there has been for centuries a hidden conspiracy chiefly Jewish whose objects have been and are to produce revolution communism and anarchy Intro **The Human Prosperity Project** Hoover Institution,2022-09-01 In a collection of essays renowned historians economists political scientists and other leading scholars examine free market capitalism socialism and hybrid systems to assess how well each contributes to social and economic prosperity Free market capitalism characterized by private ownership and market determined allocation of goods and services is often credited with generating economic growth and high average income But in an era of widening economic disparity many people are challenging capitalism s precepts and looking favorably upon socialism which in its traditional form couples government ownership of much of the means of production with substantial centrally determined allocation Many of socialism s current adherents support a European style social democracy that does not seek to abolish private property or redistribute wealth but calls for expanded government regulation and progressive taxation for improvements in public safety health and welfare Meanwhile other critics of capitalism call for a universal basic income The contributors to this volume bring a multifaceted approach to their inquiry examining the competing systems through many perspectives their history and philosophies their impact on important social goals such as labor policy the environment and health care and their political consequences for individual liberty and freedom strategic relations with other countries and long term peace Turkey in Turmoil Berna Pekesen,2020-06-22 The essays in this book are the first scholarly attempt to examine the complex interrelation of social change and political radicalization during the 1960s In analyzing topics ranging from the 1968 student uprising working class politics and trade unionism Anti Americanism right wing and left wing militant action communitarian violence state coercion and the artistic representation of these phenomena the contributors offer insights to help to answer why the experiences of this decade turned so radical with lasting polarizing effects on contemporary Turkish society today Even though issues surrounding the topic are at the very center of intellectual and political debates in today s Turkey such as the collective remembrance of the Turkish 68ers and of the anti communist state persecution and prosecution after the military intervention in 1980 a cohesive analysis of this era is still strikingly absent in scholarly works Thus Turkey in Turmoil is unique in many regards As important as the presented diversity in research perspectives the volume will also showcase multiple and at some point contesting and even provocative perspectives on the subject at hand *Disruption of Consolidation, digital original edition* Thomas J. Anastasio,Kristen Ann Ehrenberger,Patrick Watson,Wenyi Zhang,2014-01-10 The authors of Individual and Collective

Memory Consolidation propose that that individuals and collectives form memories by analogous processes This BIT examines the collective retrograde amnesia in mainland Chinese populations that experienced the Cultural Revolution and discusses the persistence of consolidated collective memory despite traumatic disruption **The Development Dictionary** Wolfgang Sachs,1992 In this pioneering collection some of the world s most eminent critics of development review the key concepts of the development discourse in the post war era Each essay examines one concept from a historical and anthropological point of view and highlights its particular bias Exposing their historical obsolescence and intellectual sterility the authors call for a bidding farewell to the whole Eurocentric development idea This is urgently needed they argue in order to liberate people s minds in both North and South for bold responses to the environmental and ethical challenges now confronting humanity These essays are an invitation to experts grassroots movements and students of development to recognize the tainted glasses they put on whenever they participate in the development discourse **Political Ideas of the Utopian Socialists** Keith Taylor,2013-11-26 First Published in 1982 In this book Taylor has selected for special attention the work of Saint Simon and his disciples the SaintSimonians Owen Fourier Cabet and Weitling those thinkers who made the most important contributions to the development of early socialist theory The author discusses the designation of utopian which entered into the conventional vocabulary of the history of ideas and is now used almost without question This title argues that these thinkers were certainly utopian in the sense that they sought to describe the structure of an ideal future society **The Russian Turmoil Memoirs: Military, Social, and Political** Anton Ivanovich Denikin,2020-09-28

World Beyond Reason: The Orwellian Factor James C. Lewis,2020-08-10 World Beyond Reason The Orwellian Factor By James C Lewis World Beyond Reason The Orwellian Factor is the product of several years of focused research and investigation prompted by national and world occurrences There is a movement in this country to change the United States from a merit based market economy typically referred to as capitalism to a Marxist nation by a group called Progressives These Progressives claim they believe collectivist thought under a Democratic Socialism ideology would best serve the nation and world James C Lewis s research has revealed that these Marxists fail to grasp they are being manipulated by a force whose ultimate goal is not socialism at all but a totalitarian ideology under the misleading title of New World Order But this goal is not merely for the United States but will cover the entire world Lewis s research reveals that many events that are occurring today such as the COVID 19 virus the coming activation of the 5G network Islamic terrorism the Deep State or shadow government failing countries millions of displaced refugees even the Progressive movement are all calculated to destabilize the Western world enough that the remedial outcome will allow those NWO forces to take over and usher in a one government world My goal is to expose all of this so the American people get a full understanding that this is all very serious and dangerous to our very existence as a country and as a free people Lewis as a retired paralegal spent his career in a field requiring careful legal and factual research an understanding about human nature criminal and constitutional law He brings

those skills to the research of this book *Disruption* Michael De Groot, 2024-03-15 In *Disruption* Michael De Groot argues that the global economic upheaval of the 1970s was decisive in ending the Cold War Both the West and the Soviet bloc struggled with the slowdown of economic growth chaos in the international monetary system inflation shocks in the commodities markets and the emergence of offshore financial markets The superpowers had previously disseminated resources to their allies to enhance their own national security but the disappearance of postwar conditions during the 1970s forced Washington and Moscow to choose between promoting their own economic interests and supporting their partners in Europe and Asia De Groot shows that new unexpected macroeconomic imbalances in global capitalism sustained the West during the following decade Rather than a creditor nation and net exporter as it had been during the postwar period the United States became a net importer of capital and goods during the 1980s that helped fund public spending stimulated economic activity and lubricated the private sector The United States could now live beyond its means and continue waging the Cold War and its allies benefited from access to the booming US market and the strengthened US military umbrella As *Disruption* demonstrates a new symbiotic economic architecture powered the West but the Eastern European regimes increasingly became a burden to the Soviet Union They were drowning in debt and the Kremlin no longer had the resources to rescue them

Unveiling the Magic of Words: A Report on "**Socialist Upheaval Its Meaning For The**"

In some sort of defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their power to kindle emotions, provoke contemplation, and ignite transformative change is truly awe-inspiring. Enter the realm of "**Socialist Upheaval Its Meaning For The**," a mesmerizing literary masterpiece penned by way of a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve in to the book is central themes, examine its distinctive writing style, and assess its profound affect the souls of its readers.
