Provided by publisher **Society and Medicine** Judith P. Swazey, 2017-12-02 The essays in this volume pay tribute to the achievements of Rene C Fox in the fields of medicine and sociology Many of the contributors are Fox's colleagues and former students from medicine sociology nursing and bioethics The title Society and Medicine reflects the leitmotif in Fox's work her studies of and teaching about the nature of medicine and medical research the training and work of their practitioners the interrelationships between medicine and the societies and cultures of which it is a part and above all the moral and spiritual dimensions of the healing arts Observing Bioethics Renee C. Fox, Judith P. Swazey, 2008-07-23
Observing Bioethics examines the history of bioethics as a discipline related not only to modern biology medicine and biotechnology but also to the core values and beliefs of American society and its courts legislatures and media The book is written from the perspective of two social scientists a sociologist of medicine Renee C Fox and a historian of medicine Judith P Swazey who have participated in bioethics since the emergence of this multidisciplinary field more than 30 years ago Fox and Swazey draw on first hand observations and experiences in a variety of American bioethical settings face to face interviews with first and second generation figures in the genesis and early unfolding of bioethics a detailed examination of the theatrical media coverage of what was considered to be a banner event in the annals of bioethics the creation and birth of the cloned sheep Dolly case studies of how bioethics has internationally developed and a large corpus of primary documents and secondary source materials While recognizing the intellectual moral and sociological importance of American bioethics Fox and Swazey are critical of its characteristics Foremost among these are what they identify as the problems of thinking socially culturally and internationally in American bioethics the tenuous interdisciplinarity of the field and the troubling extent to which the culture wars have penetrated bioethics This book will appeal to a wide range of doctors scientists and academics who are involved in the history and sociology of bioethics Explorations of a Mind-Traveling Sociologist Renée C. Fox, 2019-11-15 Explorations of a Mind Traveling Sociologist is a book of thematically interconnected ethnographic essays by the internationally esteemed sociologist Rene C Fox who employs a participant observer outlook to provide unique insight on such enduring and pressing issues as the lived experiences of physicians and patients including patients who are physically challenged elderly mortally ill or beyond the reach of medical care the origins and consequences of epidemic

outbreaks of old and new plague like infectious diseases that occur and recur despite the impressive advances of medicine the concomitants and challenges of aging the wellsprings dynamics and significance of medical humanitarian action engagement with a beyond borders world view the occurrence of national and international events of major moral as well as political and legal import and repercussions and the meaning and meaningfulness of teaching exploring questing and writing Latently associated with these themes are the author s social values and social conscience Composing these essays from a participant observer outlook heightens and enriches the author s observations over the course of her daily life enabling her to engage in mind travel to places and people she has intimately known in the past and to places she has yearningly hoped to visit but never has

Bioethics and Organ Transplantation in a Muslim Society Farhat Moazam,2006-08-31 Dr Farhat Moazam has written a wonderful book based on her extraordinary first hand study S he is an exceptionally gifted and evocative writer Her book not only has the attributes of a superb piece of intellectual work but it has literary artistic merit Renee C Fox Annenberg Professor Emerita of the Social Sciences at the University of Pennsylvania This is an ethnographic study of live related kidney donation in Pakistan based on Farhat Moazam s participant observer research conducted at a public hospital Her narrative is both a thick description of renal transplant cases and the cultural ethical and family conflicts that accompany them and an object lesson in comparative bioethics

In the Field Renee C. Fox,2017-07-05 In the Field by Renee C Fox is a narrative account of the author s life as a sociologist It is not a memoir in the conventional sense rather it is an ethnographic autobiography Drawing on a vast reservoir of notes and documents that chronicle the span of her career this work also focuses on the places Fox s field research has carried her Propelled by a conviction to move beyond the boundaries of herself and of her native land Fox has done first hand research in Europe Central Africa and China as well as in the United States The majority of her research has centered on health illness and medicine Other recurrent themes that pervade her work include training for uncertainty the allocation of scarce resources the relationship between self and others detachment and concern the particular and the universal the harm that can result from intended good and the questions posed by illness and accident pain and suffering and death It is Fox s commitment as a teacher and mentor of generations of students that lies at the heart of this book This volume will inspire new generations of social researchers

Social Issues in Diagnosis Annemarie Jutel, Kevin Dew,2014-03-15 Understanding the social process of diagnosis is critical to improving doctor patient relationships and health outcomes Diagnosis the classification tool of medicine serves an important social role It confers social status on those who diagnose and it impacts the social status of those diagnosed Studying diagnosis from a sociological perspective offers clinicians and students a rich and sometimes provocative view of medicine and the cultures in which it is practiced Social Issues in Diagnosis describes how diagnostic labels and the process of diagnosis are anchored in groups and structures as much as they are in the interactions between patient and doctor The sociological perspective is informative detailed and different from what medical nursing social work and psychology students and other professionals

who diagnose or work with diagnoses learn in a pathophysiology or clinical assessment course It is precisely this difference that should be integral to student and clinician education enriching the professional experience with improved doctor patient relationships and potentially better health outcomes Chapters are written by both researchers and educators and reviewed by medical advisors Just as medicine divides disease into diagnostic categories so have the editors classified the social aspects of diagnosis into discrete areas of reflection including Classification of illness Process of diagnosis Phenomenon of uncertainty Diagnostic labels Discrimination Challenges to medical authority Medicalization Technological influences Self diagnosis Additional chapters by clinicians including New York Times columnist Lisa Sanders M D provide a view from the front line of diagnosis to round out the discussion Sociology and pre med students especially those prepping for the new MCAT section on social and behavioral sciences will appreciate the discussion questions glossary of key terms and CLASSIFY mnemonic

The Future of Bioethics Akira Akabayashi, 2014 This is the first book to bring West and East together in a broad investigation of contemporary bioethics A distinguished international team of experts presents original research addressing issues that emerge from new medical technologies address global challenges arising from social change and set the agenda for the future

The Body Divided Sally Wilde, 2016-03-23 Bodies and body parts of the dead have long been considered valuable material for use in medical science Over time and in different places they have been dissected autopsied investigated harvested for research and therapeutic purposes collected to turn into museum and other specimens and then displayed disposed of and exchanged This book examines the history of such activities from the early nineteenth century through to the present as they took place in hospitals universities workhouses asylums and museums in England Australia and elsewhere Through a series of case studies the volume reveals the changing scientific economic and emotional value of corpses and their contested place in medical science
