Democracies in the Americas Alex Roberto Hybel, 2019-07-12 This book strives to answer two interrelated questions Why have certain states in the Americas been more successful than others at creating stable democratic regimes Why have certain states in the Americas failed to create stable democratic regimes To answer both questions the author focuses on four states the United States Argentina Chile and Peru Throughout the analysis he isolates and evaluates the conditions that helped or hindered the development of each state and of its political regime He presents his conclusions in the form of time related explanatory hypotheses By identifying and examining the conditions that brought about the transformation of each states and of its political regimes this study ultimately facilitates a discussion of the future of democracy in each of these countries as well as in the world

Public Health in Sub-Saharan Africa John Fulton, Philip Emeka Anyanwu, Catherine Hayes, Jonathan Ling, 2024-10-07 This fascinating collection shines a social epidemiological spotlight on the key public health issues affecting sub Saharan Africa today Beginning with the legacy of colonial rule this book outlines the complex interplay between population health and a range of social economic and cultural factors It shows how social epidemiological methods can offer a deeper understanding of population health and features chapters on a range of infectious diseases that continue to have a devastating impact on the region including Sickle Cell Disease HIV AIDS Leprosy and Ebola The final section of this book includes a series of case studies in which social epidemiological methods have been used to explore specific public health issues Providing a timely overview of the relationship between social systems and human biology in the region this important book will interest students and researchers across Public Health Medicine and African Studies

Experiencing Cities Mark Hutter, 2020-10-21 The fourth edition of Mark Hutter s Experiencing Cities examines cities and larger metropolitan areas within a truly global framework lending readers much to understand and appreciate about the variety of urban structures and processes and their effect on the everyday lives of people residing in cities Beginning with the emergence of the first urban centers and continuing to examine the present day and the future of smart cities this book explores the changing cultural and domestic character of the metropolis and offers readers a complete historical and theoretical overview of municipal life The new edition seamlessly integrates issues of gender race ethnicity sexuality and class in its examination of city and suburban life and further extends the Chicago School of Sociology perspective by combining its traditions with a distinct social psychological orientation derived from symbolic interaction and macro level examination of social organization social change and power in the urban context With this strong and sweeping interdisciplinary approach the new edition of Experiencing Cities will continue to enrich students understandings of urban life and offer new forward looking perspective to those working in the fields of urban sociology history politics geography and the arts

Civilizations and World Systems Stephen K. Sanderson, 1995 Leading figures in the fields of civilizational studies and sociology and political science join to compare and contrast their assumptions and conclusions about broad scale social and historical change

Globalization of an Educational Idea Ingrid Miethe, Tim Kaiser, Tobias Kriele, Alexandra

Piepiorka,2019-07-22 In this book authors showcase the worldwide spread of Workers Faculties as an example of both cooperation between socialist countries in education and globalization processes in the field of education Based on extensive research carried out in Cuban German Mozambican and Vietnamese archives as well as expert interviews it combines detailed case studies of educational transfers and policy implementation with a discussion of theoretical approaches to the study of globalization in and of education Research on Workers Faculties provides an especially interesting example for the study of educational transfer between socialist countries as well as for the interplay of such transfers with processes of globalisation for two reasons On one hand the first Workers Faculties were established already shortly after the October Revolution in Russia and Workers Faculties continue to exist in Cuba until today A study of these institutions therefore provides a dynamic perspective covering the whole period of the existence of the socialist camp On the other hand the spread of the Workers Faculty idea to four continents allows for an analysis that takes into account widely differing local contexts This book offers an analysis of general trends and particularities in the history of the global spread of the Workers Faculty idea and its implementation in local contexts Finally it discusses the results with a view towards theories of globalization in the field of education as well as of specificities of processes of socialist globalization **The Challenges of Creating Democracies in the Americas** Alex Roberto Hybel,2019-07-22 This book s leading goal is to explain why some states in the Americas have been markedly more effective than others at forming stable democratic regimes The six states analyzed are the United States Mexico Colombia Venezuela Costa Rica and Guatemala The study identifies the critical challenges each state encountered at different stages of its state creation and regime formation processes from the colonial period to the present In its concluding chapter the study presents a series of time related hypotheses designed to capture the different evolutionary processes and explain variances in success Routledge Encyclopedia of International Political Economy: Entries G-Q R. Semi-Peripheries O. Worth,P. Moore,2009-08-14 This collection re examines and re assesses the role of the semi periphery in world politics and argues that the processes of globalization have led us to widen our understanding of the semi periphery through a range of case studies as well as theoretical chapters **Social Media in Industrial China** Xinyuan

Wang,2016-09-13 Life outside the mobile phone is unbearable Lily 19 factory worker Described as the biggest migration in human history an estimated 250 million Chinese people have left their villages in recent decades to live and work in urban areas Xinyuan Wang spent 15 months living among a community of these migrants in a small factory town in southeast China to track their use of social media It was here she witnessed a second migration taking place a movement from offline to online As Wang argues this is not simply a convenient analogy but represents the convergence of two phenomena as profound and consequential as each other where the online world now provides a home for the migrant workers who feel otherwise homeless Wang s fascinating study explores the full range of preconceptions commonly held about Chinese people their relationship with education with family with politics with home and argues why for this vast population it is time to reassess what we think we know about contemporary China and the evolving role of social media **International**

Handbook of Comparative Education Robert Cowen,Andreas M. Kazamias,2009-08-22 A big project like this Handbook means that you incur debts and not only to your authors and your publisher As editors we along with our colleague Elaine Unterhalter who edited the section on postcolonialism would like to thank most warmly those authors who delivered on time and who did not fuss but just got on and did a r rate job We would also like to thank all authors who did deliver which was almost everyone we asked We know that some of our authors worked in very dif cult private circumstances as they were nishing their chapters and we hope the publication of the Volumes will later be for them a happy reminder of dif culties and disasters overcome The only sad theme is that some very close colleagues with whom we were wo ing and for whom we had the greatest respect and liking became very ill and died while the volumes were being prepared We decided to ask for copyright permissions to publish something of theirs These permissions were graciously given by two major journals and with the agreement also of our publishers Springer Rolland Paulston and Terry McLaughlin have examples of their writing in this Handbook **The Empire That Would Not Die** John Haldon,2016-04-29 Introduction Goldilocks in Byzantium 1 The
