Transforming Family Jocelyn Frelier, 2022-11 One of the lasting legacies of colonialism is the assumption that families should conform to a kinship arrangement built on normative nuclear individuality based models An alternate understanding of familial aspiration is one cultivated across national borders and cultures and beyond the constraints of diasporas This alternate understanding which imagines a category of trans families relies on decolonial and queer intellectual thought to mobilize or transform power across borders In *Transforming Family* Jocelyn Frelier examines a selection of novels penned by francophone authors in France Morocco and Algeria including Azouz Begag Nina Bouraoui Fouad Laroui Le la Sebbar Le la Slimani and Abdellah Ta a Each novel contributes a unique argument about this alternate understanding of family questioning how family relates to race gender class embodiment and intersectionality Arguing that trans families are always already queer Frelier opens up new spaces of agency for both family units and individuals who seek representation and fulfilling futures The novels analyzed in *Transforming Family* as well as the families they depict resist classification and delink the legacies of colonialism from contemporary modes of being As a result these novels create trans identities for their protagonists and contribute to a scholarly understanding of the becoming trans of cultural production As international political debates related to migration the family unit and the global migrant crisis surge Frelier destabilizes governmental criteria for the regrouping of families by turning to a set of definitions found in the cultural production of members of the francophone North African diaspora **Dissident Writings of Arab Women** Brinda J. Mehta, 2014-03-14 Dissident Writings of Arab Women Voices Against Violence analyzes the links between creative dissidence and inscriptions of violence in the writings of a selected group of postcolonial Arab women The female authors destabilize essentialist framings of Arab identity through a series of reflective interrogations and contesting literary genres that include novels short stories poetry docudramas interviews and testimonials Rejecting a purist literature for literature s sake ethic they embrace a dissident

poetics of feminist critique and creative resistance as they engage in multiple and intergenerational border crossings in terms of geography subject matter language and transnationality This book thus examines the ways in which the women s writings provide the blueprint for social justice by voicing protest and stimulating critical thought particularly in instances of social oppression structural violence and political transition Providing an interdisciplinary approach which goes beyond narrow definitions of literature as aesthetic praxis to include literature s added value as a social historical political and cultural palimpsest this book will be a useful resource for students and scholars of North African Studies Postcolonial Studies Francophone Studies and Feminist Studies

Bourdieu and Sayad Against Empire Amín Pérez, 2023-12-11 Pierre Bourdieu and Abdelmalek Sayad met in their twenties in the midst of the Algerian war of independence From their first meeting a strong intellectual friendship was born between the French philosopher and the activist from the colony nourished by the same desire to understand the world in order to change it The work of both men was driven by the necessity of putting knowledge to use whether by unveiling the relations of domination that structured life in Algeria or by opening emancipatory perspectives for the Algerian people Colonies were of course a customary site of ethnographic work but Bourdieu and Sayad refused to sacrifice scientific rigor to political expediency even as Algeria descended deeper into war Indeed the act of understanding as a political commitment to the transformation of society lay at the heart of their project Based on extensive interviews and deep archival work Amín Pérez rediscovers the anticolonial origins of the pathbreaking social thought of these brilliant thinkers Bourdieu and Sayad he argues forged another way of doing politics laying the foundations of a revolutionary pedagogy not just for anticolonial liberation but for true social emancipation

The Nuremberg Fallacy Eugene Davidson, 1998 Available for the first time in paperback The Nuremberg Fallacy examines the inherent shortcomings of the Nuremberg rules of war and the War Crimes Tribunal's impossible expectations In 1946 the Tribunal declared all aggressive war war crimes and crimes against humanity illegal Yet the period since World War II has witnessed an unprecedented number of armed conflicts In light of recent crises including those in Rwanda Bosnia and Serbia and the Middle East it is clear that the issues explored in The Nuremberg Fallacy are as relevant today as they were at the time of the book's first publication a quarter century ago In this volume Eugene Davidson continues his investigations begun in *The Trial of the Germans* University of Missouri Press which studied the Nuremberg trials themselves by focusing on five major conflicts since the end of World War II the Suez crisis of 1956 Algeria's war of independence Israel's recurring and ongoing battles with its Arab neighbors complicated and worsened by intervention of the superpowers the wars in Southeast Asia and the Soviet Union's suppression of Czechoslovakia and other border states of Eastern Europe By exploring the roots and ramifications of these five conflicts Davidson is able to chart the crosscurrents between large and small states between individual nations and the United Nations between the rules of Nuremberg and the significantly older rules of self interest The result is a thoughtful and thought provoking study of the dynamics of war and peace in the post Nuremberg world The rules of war proclaimed at Nuremberg observing the flag of truce prohibiting attacks on surrendered enemies treating prisoners of war and civilian populations humanely have become virtually irrelevant in modern guerrilla warfare If anything Davidson suggests conditions have actually become worse than they were before the Nuremberg War Crimes Tribunal The continuing importance and relevance of The Nuremberg Fallacy is best summarized in the final sentences of Davidson's text The survival of a nation cannot be successfully entrusted to simplistic formulae or to principles that reflect unworkable doctrines No computers have been programmed for the wisdom that remains essential for survival People still have to provide that from their own inner and outer resources no matter how far the weapons may seem to have outdistanced them
