Marx Hegel Spencer and others Authors who have helped us attain this more rounded conception of the Durkheimian project include such well known figures as Robert N Bellah Robert Alun Jones Anthony Giddens W S F Pickering and Edward Tiryakian More than matching these contributions are the surprising writings by authors from across the disciplines including such contemporaries of Durkheim as historian Henri Berr and theologian Alfred Loisy as well as modern day writers who deserve to be much better known such as philosopher John Brooks III or historian John Bossy Although this collection is overwhelmingly drawn from sources in English two classic critical pieces by French contemporaries of Durkheim enhance the value of this anthology *Actes du XVe Congrès international de sociologie, organisé à Istanbul (11-17*

Modéer, The specially commissioned papers in this book lay a solid theoretical foundation for comparative legal history as a distinct academic discipline While facilitating a much needed dialogue between comparatists and legal historians this research handbook examines methodologies in this emerging field and reconsiders legal concepts and institutions like custom civil procedure and codification from a comparative legal history perspective
