The Mystery Plays:

The York Mystery Plays Margaret Rogerson, 2011 Essays on the York Mystery Plays uniting voices from the scholarly world with the York community that has assumed responsibility for their production today The York Play of Corpus Christi also known as the York Cycle has been central to the study of early English theatre for over a century and a touchstone for the revival of medieval dramatic practice for over fifty years But these two endeavours have often found little common ground This volume therefore accomplishes something very important It brings together scholars of medieval English drama and places them in dialogue with experienced practitioners from the community Together they share a common commitment to understanding how performances matter to the communities that produce them and how plays intersect with other public activities CAROL SYMES Professor of History University of Illinois at Urbana This volume provides a wealth of new insights into the performance of mystery plays in medieval York and their modern revival It utilises both academic study and the practical experience of those who now produce the cycle within York itself on wagons in the street in an approximation of their original performance A number of topics are covered The manuscript is linked to Richard III the Masons are introduced as non guildsmen in an enterprise assumed to be guild specific families not just male heads of households are shown to be important to the dramatic narrative and cognitive theory elucidates performance past and present Recent productions are discussed in lively detail by those directly responsible for them leading to analyses of performances in Israel Spain and Australia not all of them of a predictable kind which offer further angles on the medieval dramatic tradition Professor Margaret Rogerson teaches in the Department of English at the University of Sydney Contributors Margaret Rogerson Keith Jones Richard Beadle Sheila K Christie Mike Tyler Jill Stevenson Elenid Davies Ben Pugh Peter Brown Tony Wright Steve Bielby Emma Cunningham Alan Heaven Linda Ali Paul Toy Gweno Williams John Merrylees David Richmond Alexandra F Johnston Sharon Aronson Lehavi Pamela M King **The Middle English Mystery Play** Hans-Jurgen Diller, 1992-07-30 A major study of the mystery plays of medieval England focusing on the function of their speech and dramatic form The Towneley Cycle Of The Mystery Plays (Or The Wakefield Cycle): Thirty-Two Pageants Anonymous, 2008-08-16 The Wakefield or Towneley Mystery Plays are a series of thirty two mystery plays based on the Bible most likely performed around Corpus Christi day in again most likely the town of Wakefield England during the late Middle Ages until 1576 It is one of only four surviving English mystery play cycles The unique manuscript now housed at the Huntington Library San Marino California originated in the mid fifteenth century The manuscript came into the possession of the Towneley family in 1814 who lent their name it Although almost the entire manuscript is in a fifteenth century hand the cycle was performed as early as the fourteenth century in an earlier form The Wakefield Cycle is most renowned for the inclusion of The Second Shepherds Play one of the jewels of medieval theatre The English Mystery Plays Rosemary Woolf, 1972 This important new study of the English mystery plays has a twofold purpose It is concerned to investigate the antecedents of the four extant cycles and to

demonstrate the dramatic value of the plays themselves The opening and concluding chapters place the plays in their historical context by discussing on the one hand the emergence and achievements of genuine religious drama as opposed to liturgical drama in the twelfth century and on the other the changes in taste that threw the plays into disrepute in the sixteenth century The main part of the book analyzes the plays in detail considering the iconographic and theological traditions that guided the dramatists in their treatment of biblical subject matter and also looking at the Continental drama of the time to find out what other dramatic possibilities were open to writers in the Middle Ages From publisher's description
