

NATURE OF PHILOSOPHY

5. Philosophy is a group of perennial problems that interest people and for which philosophers always have sought answers.

Philosophy presses its inquiry into the deepest problems of human existence. Some of the philosophical questions raised in the past have been answered in a manner satisfactory to the majority of philosophers. Many questions, however, have been answered only tentatively, and many problems remain unsolved.

- “What is truth?”
- “What is the distinction between right and wrong?”
- What is life and why am I here?
- Why is there anything at all?
