Steven H. Propp

The New Atheism And The Erosion Of Freedom:

The New Atheism and the Erosion of Freedom Robert Morey, 1994-12-15 This is the classic refutation of atheists agnostics free thinkers and know it alls It shows that the argument against the existence of God and Jesus and the reliability of the Bible miracles etc

The New Atheism Victor J. Stenger, 2009-12-04 In recent years a number of bestselling books have forcefully argued that belief in God can no longer be defended on rational or empirical grounds and that the scientific worldview has rendered obsolete the traditional beliefs held by Christianity Judaism and Islam The authors of these books Richard Dawkins Daniel Dennett Sam Harris Christopher Hitchens and Victor J Stenger have come to be known as the New Atheists Predictably their works have been controversial and attracted a good deal of critical reaction In this new book Victor J Stenger whose *God The Failed Hypothesis* was on the New York Times bestseller list in 2007 reviews and expands upon the principles of New Atheism and answers many of its critics He demonstrates in detail that naturalism the view that all of reality is reducible to matter and nothing else is sufficient to explain everything we observe in the universe from the most distant galaxies to the inner workings of the brain that result in the phenomenon of mind Stenger disputes the claim of many critics that the question of whether God exists is beyond the ken of science On the contrary he argues that absence of evidence for God is indeed evidence of absence when the evidence should be there and is not Turning from scientific to historical evidence Stenger then points out the many examples of evil perpetrated in the name of religion He also notes that the Bible which is still taken to be divine revelation by millions fails as a basis for morality and is unable to account for the problem of unnecessary suffering throughout the world Finally he discusses the teachings of ancient nontheist sages such as Buddha Lao Tzu and Confucius whose guidelines for coping with the problems of life and death did not depend upon a supernatural metaphysics Stenger argues that this way of nature is far superior to the traditional supernatural monotheisms which history shows can lead to a host of evils The New Atheism is a well argued defense of the atheist position and a strong rebuttal of its critics

Challenging the New Atheism Aaron Shepherd, 2020-08-31 This book presents a pragmatic response to arguments against religion made by the New Atheism movement The author argues that analytic and empirical philosophies of religion the mainstream approaches in contemporary philosophy of religion are methodologically unequipped to address the Threefold Challenge made by popular New Atheist thinkers such as Richard Dawkins Sam Harris Christopher Hitchens and Daniel Dennett The book has three primary motivations First it provides an interpretation of the New Atheist movement that treats their claims as philosophical arguments and not just rhetorical exercises or demagoguery Second it assesses and responds to these claims by elaborating four distinct contemporary philosophical perspectives analytic philosophy empirical philosophy continental philosophy and pragmatism as well as contextualizing these perspectives in the history of the philosophy of religion Finally the book offers a metaphilosophical critique returning again and again to the question of method In the end the author settles upon a modified version of pragmatism that he concludes is best suited for

articulating the terms and stakes of the God Debate Challenging the New Atheism will be of interest to scholars and students of American philosophy and philosophy of religion A Christian Student's Survival Guide Ph D Dr Robert a Morey,2010-07

Why Do Bad Things Happen If God Is Good? Rhodes, Ron,2004 When a cross section of Americans was asked If you could ask God one question and knew He would give you an answer what would you ask the top response was Why is there so much pain and suffering in the world Bible scholar speaker and author Ron Rhodes addresses this issue with the heart of a pastor and the mind of an apologist Debunking non Christian responses to the problem of pain Ron explores the unshakable biblical truths that provide a strong foundation in stormy times Believers who need a tonic for their faith caregivers who support people in pain and seekers who are wrestling with the philosophical problem of evil will find helpful answers in this encouraging and enlightening discussion **The Civilization of Illiteracy** Mihai Nadin,1997 Phenomena related to the

transition from a literacy dominated civilization to one of various means of expression and communication are at the center of his book The fall of totalitarian regimes the current structural difficulties of the European Community the burden of state bureaucracies the world wide effort of re engineering and the global economy are part of the bigger picture of a necessary development *Atheism?* Stephen E. Parrish,2019-05-06 Does atheism have a monopoly on reason and science Many think

so or simply assume so Atheism challenges the many hidden assumptions that have led to the popular belief that atheism is the default position for explaining reality Delving into the most basic and fundamental questions of existence this thought provoking book explains that atheism does not and cannot provide a secure foundation for thought and life Specifically it demonstrates that atheistic theories cannot explain the existence of an ordered universe the conundrums of consciousness and knowledge or why there is morality or beauty Rather than being the result of reason atheism is shown to be in effect a revolt against reason If you enjoy pondering the most basic issues that confront us in our world today then Atheism is the book for you *And with All Your Mind* Steven H. Propp,2010-12-21 Its 1971 and Silas Baker is a high school senior in

California whose main interests are basketball and weekend parties But his life takes a dramatic turn when he encounters a group of committed Christians who soberly inform him that Jesus is coming soon They enroll at Riverstent Bible College Its an exciting time as leading Bible teachers have predicted that Jesus will return to Rapture his Church within one generation of the 1948 formation of the State of Israel Popular movies further inflame this passion as the eager students study Apologetics and Biblical Archaeology aberrant theologies such as the Death of God movement and even conflicting interpretations of the End Times An activist spirit develops within evangelicalism culminating in the so called Christian Right as the evangelical world is rocked in the aftermath of the televangelist scandals Confronted by world views such as Calvinism and Christian Reconstruction the characters passionately debate controversies such as Biblical Inerrancy and the age of the cosmos in addition to challenging evangelicals who deny traditional doctrines such as that of endless punishment in Hell or who promote an Open yet limited concept of God himself As society evolves so does evangelicalism seeker sensitive

megachurches appear while Postmodernism and the Emergent Church become realities Theologians wrestle with the question of divorce and remarriage and the role of women in the church as well as the divisive issue of homosexuality As they struggle with life's realities they ultimately must also respond to nonchristians who are alienated indifferent or engaged in active opposition to Christianity while searching for the meaning of Christian faith in the modern world **Biblical Counsel**, 1993

A letter to Mrs. Johnson Paul Ross, 2020-04-10 Mrs Johnson doesn't believe in God She is way too educated and enlightened to believe in such things plus she is progressively liberal in her morals and stubbornly independent Upon further questioning I discovered that Mrs Johnson had no good alternative explanations for the existence of what we experience as reality Moreover it appeared that she did not care and was content to never concern herself with such matters She was of the general opinion that science had explained everything and therefore God was totally unnecessary To which I responded that scientists have done no such thing and are no closer to answering any of the questions that really matter I informed her that science has no explanation for the origin of the universe No explanation for the origin of the laws of physics No explanation for the origin of life and no explanation for the origin of information Nor were they any closer to solving the hard problem of consciousness Upon hearing this Mrs Johnson appeared visibly distressed and abruptly went on a rant about all the injustices and evils in the world and how such injustices and evils made God a criminal and unworthy of her time and consideration To which I reminded her that it is we that are breaking the commandments and not actually God and that she had in her own way contributed to the breaking of these divine moral principles of right behavior probably every day of her life At this point Mrs Johnson said that she did not have the time for such nonsense and was too busy to indulge in pointless superstitions After this she briskly walked away These days I encounter Mrs Johnson everywhere Her views and prejudices are universal This letter to Mrs Johnson was primarily written to address the materialism of our times What I mean by that is the emotional psychological and intellectual rejection of God in favor of rampant self determination This rejection may manifest in the form of indifference or it may surface in the form of open and defiant hostility as in the case of contempt for all things divine but at the end of the day both expressions are just two sides of the same coin I also wrote this letter to Mrs Johnson to reveal the fundamental weaknesses of the materialistic position and to expose its unrelenting failure to answer any of the questions that ultimately matter When I speak of materialism in this book I am not referring to the acquisition of wealth and material possessions but rather materialism in the strict philosophical sense By that I mean the idea that nothing exists apart from matter laws and impersonal forces that the whole of reality is derived from and reducible to mindless matter and impersonal processes As you shall discover in this book I am of the opinion that purely naturalistic explanations for the existence of the universe and life are the worst possible explanations that can ever be given
