The New Education, 1870-1914 Richard Joseph Wheeler Selleck, 1968 **The New Education** Richard J. Selleck, 1968 **The New Education** Richard J. W. Selleck, 1968 The New Education; the English Background 1870-1914 Richard Joseph Wheeler Selleck, 1968 *Power to Teach* Wendy Robinson, 2004-06 Chapter 1 INTRODUCTION chapter 2 TEACHING ART CRAFT OR SCIENCE chapter 3 THE TEACHER AS TRAINER chapter 4 LEARNING THROUGH PRACTICE I chapter 5 LEARNING THROUGH PRACTICE II chapter 6 LEARNING THROUGH PRACTICE III chapter 7 TOWARDS A THEORY OF TEACHING *The Pedagogy of Protest* Brendan Walsh, 2007 This book provides the first complete account of Patrick Pearse's educational work at St Enda's and St Ita's schools Dublin Extensive use of first hand accounts reveals Pearse as a humane energetic teacher and a forward looking and innovative educational thinker Between 1903 and 1916 Pearse developed a new concept of schooling as an agency of radical pedagogical and social reform later echoed by school founders such as Bertrand Russell This placed him firmly within the tradition of radical educational thought as articulated by Paulo Freire and Henry Giroux The book examines the tension between Pearse's work and his increasingly public profile as an advocate of physical force separatism and by employing previously unknown accounts questions the perception that he influenced his students to become active supporters of militant separatism The book describes the later history of St Enda's revealing the ambivalence of post independence administrations and shows how Pearse's work which has long been neglected by historians has had a direct influence on a later generation of school founders up to the present

Boy Republic Brendan Walsh, 2013-06-19 Patrick Pearse teacher poet and one of the executed leaders of the 1916 Rising has long been a central figure in Irish history The book provides a radically new interpretation of Patrick Pearse's work in education and examines how his work as a teacher became a potent political device in pre independent Ireland The book provides a complete account of Pearse's educational work at St Enda's school Dublin where a number of insurgents such as William Pearse Thomas McDonagh and Con Colbert taught The author draws upon the recollections of past pupils employees descendants of those who worked with Pearse founders of schools inspired by his work including the descendants of Thomas McSweeney and Louis Gavan Duffy and a vast array of primary source material to provide a comprehensive account of life at St Enda's and the place of education within the Irish Ireland movement and the struggle for independence **International Library of the Philosophy of Education** Charles Bailey, 2021-07-09 International Library of the Philosophy of Education reprints twenty four distinguished texts published in this field over the last half century and includes works by authors such as Reginald D Archambault Charles Bailey Robin Barrow Norman J Bull D E Cooper R F Dearden Kieran Egan D W Hamlyn Paul H Hirst Glenn Langford D J O Connor T W Moore D A Nyberg R W K Paterson R S Peters Kenneth A Strike I A Snook John and Patricia White and John Wilson Themes discussed include Liberal education moral education the aims of education the education of teachers adult continuing education and the philosophical analysis of education The Literature of

Education W. Kenneth Richmond, 2019-01-15 Original blurb The volume of writing on educational topics has increased so prodigiously in recent years that the student is likely to lose himself in a sea of print This may lead him to opt for the first book that comes to hand or waste time rifling through half a dozen when a thorough grasp of one key text is all that is needed Reading lists commonly look impressive not to say daunting In fact the multifarious titles conceal an enormous amount of duplication an endless raking over of other people's research findings It is a safe bet writes W Kenneth Richmond that less than 5 percent of the contents of any new book on education will be in any way original This critical bibliography originally published in 1972 is concerned with the noteworthy books and major official reports that had appeared in the English language during the twenty five years prior to publication In his introduction and in the commentaries prefacing each section the author explains the background to the genuinely new departures of the period and describes successive changes in the climate of educational opinion
