The Boomerang Age Barbara Mitchell, 2017-07-05 The Boomerang Age was named an Outstanding Academic Title of 2007 by Choice Magazine Domestic changes are taking place in the lives of young adults in Western industrialized societies Today s young people often experience less permanency and more movement in a variety of family related roles statuses and living arrangements Among the most prominent changes is the phenomenon of boomerang kids young adults returning to the parental home after their initial entrance into the adult world The Boomerang Age explores the implications of this development in a changing sociocultural economic and demographic landscape Mitchell begins by addressing definitional conceptual and measurement issues relevant to the boomerang age She then places the issues in historical perspective by considering trends in family organization the nuclear family marriage and divorce rates and fertility over the past hundred years with emphasis on the 1950s family as a cultural benchmark The book then turns to the contemporary trajectory of home leaving and returning analyzing the launch and return phases with regard to economic factors regional differences and racial and ethnic backgrounds Mitchell then explores the more personal dimensions of how a return to the family is complicated by partnership marriage divorce cohabitation homosexuality and parenthood among young couples Moving outside the home she looks at how public issues such as globalization the decline of the welfare state and various forms of social inequality affect the circumstances of young adulthood Here Mitchell offers specific social policy recommendations pertaining to education housing and dependency issues childcare and gender and racial equality The book concludes by critically evaluating the advantages and drawbacks of two possible future scenarios increased individualization in the pursuit

Running Alone James MacGregor Burns, 2009-06-16 A disastrous war in Iraq prisoner abuse secret wiretaps the presidency of George W Bush represents a crisis in American democracy How did this happen In *Running Alone* the revered political scientist and commentator James MacGregor Burns sets the imperial presidency of George W Bush in the context of half a century of presidential politics In his 1960 campaign John F Kennedy turned his back on the Democratic Party He relied instead on his personal charisma and his family's vast wealth to win office Once elected he governed much as he had run alone He ignored the Democratic platform and instead sought counsel from a small group of hand picked advisors including his own brother Kennedy fundamentally reshaped the role of President and each of his successors has built on this model American presidents have become increasingly isolated from the parties that brought them to power Democratic presidents Johnson Carter and Clinton did tremendous damage to the Democratic Party by abandoning its core principles Republican presidents have managed to lead more effectively in isolation but have imperiled the nation in the process Drawing on his own personal letters interviews and recollections of America's presidents Burns charts the decline of genuine leadership in the Oval Office and offers a stirring vision of what the presidency can and should be America deserves better leaders and with unsurpassed knowledge of American history and politics Burns shows us the way forward **Civic**

Nagel, Rogers M. Smith, 2013-07-03 In any democracy the central problem of governance is how to inform organize and

represent the opinions of the public in order to advance three goals popular control over leaders equality among citizens and competent governance In most political analyses voting is emphasized as the central and essential process in achieving these goals Yet democratic representation encompasses a great deal more than voter beliefs and behavior and indeed involves much more than the machinery of elections Democracy requires government agencies that respond to voter decisions a civil society in which powerful organized interests do not dominate all others and communication systems that permit divergent voices to be heard Representation Elections and Beyond brings together leading international scholars from a wide range of disciplines to explore the twenty first century innovations in voting laws and practices in electoral systems in administrative political and civil organizations and in communication processes and new technologies that are altering how we understand democratic representation Featuring twelve essays that engage with national provincial and municipal governments across three continents this volume tackles traditional core elements of democratic representation such as voting electoral systems and political parties while also underscoring the ways in which beliefs and preferences of citizens are influenced expressed and aggregated and the effects of those methods and practices on political agendas and policy outcomes In pinpointing deficiencies in contemporary democratic practices and possibilities for reform Representation provides an invaluable roadmap to improve democratic representation in the twenty first century Contributors Andr Blais Pradeep Chhibber Archon Fung Jacob Hacker Zoltan Hajnal Matthew Hindman David Karpf Georgia Kernell Alexander Keyssar Anthony McGann Susan Ostermann Paul Pierson Dennis Thompson Jessica Trounstein Mark E Warren *Clinton and Blair* Flavio Romano, 2007-05-07 The former President of the United States Bill Clinton and at the time of publication still current Prime Minister of the United Kingdom Tony Blair have described their style of government as a Third Way In this important and timely book Flavio Romano identifies and clarifies the economic implications of this particular approach to public governance Testing the validity of President Clinton s and Prime Minister Blair s claims of practising a Third Way Romano submits their economic policies to extensive theoretical and historical analysis Through careful and detailed examination of their fiscal monetary education employment and public and private investment policies overwhelming evidence is presented to challenge these leaders claim of practising what they preach This engaging book will be of great interest to students and practitioners of economics and politics and to those interested in world politics in general **Urban Environmental Stewardship and Civic Engagement** Dana R.
