Medieval Europe John Ricker, John T. Saywell, 1973 **El-Hi textbooks in print** R. R. Bowker LLC, 1983 *Canadiana*, 1977 *The United States in Modern History: 1500-1870* John Bell Rae, 1947 **Europe's Welfare Traditions Since 1500, Volume 2** Thomas McStay Adams, 2023-01-26

Tracing the interwoven traditions of modern welfare states in Europe over five centuries Thomas McStay Adams explores social welfare from Portugal France and Italy to Britain Belgium and Germany He shows that the provision of assistance to those in need has faced recognizably similar challenges from the 16th century through to the present how to allocate aid equitably and with dignity how to give support without undermining autonomy and motivation and how to balance private and public spheres of action and responsibility Across two authoritative volumes Adams reveals how social welfare administrators critics and improvers have engaged in a constant exchange of models and experience locally and across Europe The narrative begins with the founding of the Casa da Misericordia of Lisbon in 1498 a model replicated throughout Portugal and its empire and ends with the relaunch of a social agenda for the European Union at the meeting of the Council of Europe in Lisbon in 2000 Volume 1 which focuses on the period from 1500 to 1700 discusses the concepts of welfare and tradition It looks at how 16th century humanists joined with merchants and lawyers to renew traditional charity in distinctly modern forms and how the discipline of religious reform affected the exercise of political authority and the promotion of economic productivity Volume 2 examines 18th century bienfaisance which secularized a Christian humanist notion of beneficence producing new and sharply contested assertions of social citizenship It goes on to consider how national struggles to establish comprehensive welfare states since the second half of the 19th century built on the power of the vote as politicians pushed by activists and advised by experts appealed to a growing class of industrial workers Lastly it looks at how 20th century welfare states addressed aspirations for social citizenship while the institutional framework for European economic cooperation came to fruition *Daily Life in the Industrial United States, 1870-1900* Julie Husband, Jim O'Loughlin, 2019-06-24

Not just about the rise of the factories or the emergence of the modern city this fascinating history conveys how it felt to work the assembly line and walk the bustling urban streets Daily Life in the Industrial United States 1870 1900 is a narrative based social history that is ideal for college and high school students researching this era Thematically organized chapters devoted to Economic Life Domestic Life Recreational Life and other themes are broad in scope but include primary documents and telling details that give readers a visceral sense of the lives of people who lived during the era of industrialization Primary documents range from first person diaries of individuals who lived during the era to letters from freed slaves looking to reunite with relatives sold away from them to speeches and essays by activists including Frederick Douglass and Jane Addams They reveal how people understood the goals of education the legal position of African Americans in the South and marriage among many other daily phenomena

Readers will become privy to a range of personal experiences while comprehending the importance of the economic and social developments of the period. A chronology, a glossary, a selection of illustrations and further reading sources complete the work.

Making of the West, Volume II: Since 1500 Lynn Hunt, Thomas R. Martin, Barbara H. Rosenwein, Bonnie G. Smith, 2012-01-04

Students of Western civilization need more than facts. They need to understand the cross-cultural global exchanges that shaped Western history to be able to draw connections between the social, cultural, political, economic and intellectual happenings in a given era and to see the West not as a fixed region but a living, evolving construct. These needs have long been central to *The Making of the West*. The book's chronological narrative emphasizes the wide variety of peoples and cultures that created Western civilization and places them together in a common context, enabling students to witness the unfolding of Western history, understand change over time, and recognize fundamental relationships.

The European Experience Jan Hansen, Jochen Hung, Jaroslav Ira, Judit Klement, Sylvain Lesage, Juan Luis Simal, Andrew Tompkins, 2023-02-21

The European Experience brings together the expertise of nearly a hundred historians from eight European universities to internationalise and diversify the study of modern European history, exploring a grand sweep of time from 1500 to 2000. Offering a valuable corrective to the Anglocentric narratives of previous English language textbooks, scholars from all over Europe have pooled their knowledge on comparative themes such as identities, cultural encounters, power and citizenship, and economic development to reflect the complexity and heterogeneous nature of the European experience. Rather than another grand narrative, the international author teams offer a multifaceted and rich perspective on the history of the continent of the past 500 years. Each major theme is dissected through three chronological sub-chapters, revealing how major social, political and historical trends manifested themselves in different European settings during the early modern (1500-1800), modern (1800-1900), and contemporary (1900-2000) periods. This resource is of utmost relevance to today's history students in the light of ongoing internationalisation strategies for higher education curricula, as it delivers one of the first multi-perspective and truly European analyses of the continent's past. Beyond the provision of historical content, this textbook equips students with the intellectual tools to interrogate prevailing accounts of European history and enables them to seek out additional perspectives in a bid to further enrich the discipline.
