American Naval History in 50 Ships James M. Caiella, 2025-08-01 The course of American naval history has not been set only by the relatively few famous ships whose stories have been told and retold This volume spotlights 50 less recognized vessels each significant in its own way from the Continental Navy to the first supercarriers while touching on many others with which their stories are interwoven Attention is given not only to the design and conceptual changes the vessels embodied but also the crews whose toil and heroism gave them life and sometimes notoriety One captain tried to sell his warship in the midst of the Civil War Each ship is detailed chronologically in chapters that often dispel timeworn misconceptions Some were trailblazers others were misdirected in their inspiration design or execution indeed two could not float and one was dampened only by rain Yet each helped shape America's seafaring history

Americans at War in the Ottoman Empire Eric Covey, 2018-12-13

Americans at War in the Ottoman Empire examines the role of mercenary figures in negotiating relations between the United States and the Ottoman Empire in the nineteenth century. Mercenaries are often treated as historical footnotes yet their encounters with the Ottoman world contributed to US culture and the impressions they left behind continue to influence US approaches to Africa and the Middle East. The book's analysis of these mercenary encounters and their legacies begins with the Battle of Derna in 1805 in which the US flag was raised above a battlefield for the first time outside of North America with the help of a mercenary army and concludes with the British occupation of Egypt in 1882 which was witnessed and criticized by many of the US Civil War veterans who worked for the Egyptian government in the 1870s and 1880s. By focusing these mercenary encounters through the lenses of memory, sovereignty, literature, geography, and diplomacy, *Americans at War in the Ottoman Empire* reveals the ways in which mercenary force, while marginal in terms of its frequency and scope, produced important knowledge about the Ottoman world and helped to establish the complicated relationship of intimacy and mastery that exists between Americans in the United States and people in Libya, Egypt, Sudan, Uganda, South Sudan, and Turkey.
