**Hellions of the Deep** Robert Gannon, 1996-01-01 Ultimately World War II was the first war won by technology but within only a few weeks after the war began the U S Navy realized its torpedo program was a dismal failure Submarine skippers reported that most of their torpedoes were either missing the targets or failing to explode if they did hit The United States had to work fast if it expected to compete with the Japanese Long Lance the biggest and fastest torpedo in the world and Germany's electric and sonar models *Hellions of the Deep* tells the dramatic story of how Navy planners threw aside the careful procedures of peacetime science and initiated radical research gathering together the nation's best scientists and engineers in huge research centers and giving them freedom of experimentation to create sophisticated weaponry with a single goal winning the war The largest center for torpedo work was a requisitioned gymnasium at Harvard University where the most famous names in science worked with the best graduate students from all around the country at the business of war They had to produce tangible weapons to consider production and supply tactics to take orders from the military and in many cases also to teach the military how to use the weapons they developed World War II grew into a chess match played by scientists and physicists and it became the only war in history to be won by weapons invented during the conflict For this book Robert Gannon conducted numerous interviews over a twenty year period with scientists engineers physicists submarine skippers and Navy bureaucrats all involved in the development of the advanced weapons technology that won the war While the search for new weapons was deadly serious stretching imagination and resourcefulness to the limit each day

the need was obvious American ships were being blown up daily just outside the Boston harbor These oral histories reveal that in retrospect surprising even to those who went through it the search for the hellions of the deep was for many the most exciting period of their lives      Surface and Destroy Michael Sturma,2011-03-25 World War II submariners rarely experienced anything as exhilarating or horrifying as the surface gun attack Between the ocean floor and the rolling whitecaps above submarines patrolled a dark abyss in a fusion of silence shadows and steel firing around eleven thousand torpedoes sinking Japanese men of war and more than one thousand merchant ships But the anonymity and simplicity of the stealthy torpedo attack hid the savagery of warfare a stark difference from the brutality of the surface gun maneuver As the submarine shot through the surface of the water confined sailors scrambled through the hatches armed with large caliber guns and met the enemy face to face Surface and Destroy The Submarine Gun War in the Pacific reveals the nature of submarine warfare in the Pacific Ocean during World War II and investigates the challenges of facing the enemy on the surface The surface battle amplified the realities of war bringing submariners into close contact with survivors and potential prisoners of war As Japan's larger ships disappeared from the Pacific theater American submarines turned their attention to smaller craft such as patrol boats schooners sampans and junks Some officers refused to attack enemy vessels of questionable value while others attacked reluctantly and tried to minimize casualties Michael Sturma focuses on the submariners reactions and attitudes toward their victims exploring the sailors personal standards of morality and their ability to wage total war Surface and Destroy is a thorough analysis of the submariner experience and the effects of surface attacks on the war in the Pacific offering a compelling study of the battles that became intolerably personal      Sink 'Em All Vice-Adm. Charles A. Lockwood,2017-07-19 Originally published in 1951 in Sink Em All Submarine Warfare in the Pacific Vice Admiral Charles A Lockwood who commanded the U S submarines in the Pacific during the greater part of World War II provides an official account of wartime successes and tragedies Writing with writes complete authority and authenticity he describes his efforts to improve the provisions and after patrol accommodations of the submariners and of his on going struggle to improve the effectiveness of torpedoes and other tools vital to the war effort It is to be hoped that this interesting narrative will be widely read and that the exploits of our Silent Service will take their proper place in the minds of our citizens Certainly no one is better qualified to tell this story than the author Vice Admiral Charles A Lockwood Foreword by Fleet Admiral Chester W Nimitz U S Navy Another fascinating read from Vice Admiral Lockwood and a valuable addition to your collection      **The War Below** James Scott,2013-05-14 The riveting story of the submarine force that helped win World War II by ravaging Japan's merchant fleet and destroying its economy A dramatic account of extraordinary heroism ingenuity and perseverance and the vital role American submarines played in winning the Pacific war      **Dive! World War II Stories of Sailors & Submarines in the Pacific (Scholastic Focus)** Deborah Hopkinson,2016-09-27 Sibert Honor author Deborah Hopkinson paints a vivid portrait of the deadly battles that raged in the Pacific during WWII and the remarkable courage of

the US submarine sailors who fought them Dive World War II Stories of Sailors Submarines in the Pacific tells the incredible story of America's little known war within a war US submarine warfare during World War II Following the attack on Pearl Harbor the US entered World War II in December 1941 with only 44 Naval submarines many of them dating from the 1920s With the Pacific battleship fleet decimated after Pearl Harbor it was up to the feisty and heroic sailors aboard the US submarines to stop the Japanese invasion across the Pacific Including breakouts highlighting submarine life and unsung African American and female war heroes award winning author Deborah Hopkinson uses first person accounts archival materials official Naval documents and photographs to bring the voices and exploits of these brave service members to life

**Mars Adapting** Francis Hoffman, 2021-03-15 As Clausewitz observed In war more than anywhere else things do not turn out as we expect The essence of war is a competitive reciprocal relationship with an adversary Commanders and institutional leaders must recognize shortfalls and resolve gaps rapidly in the middle of the fog of war The side that reacts best and absorbs faster increases its chances of winning Mars Adapting examines what makes some military organizations better at this contest than others It explores the institutional characteristics or attributes at play in learning quickly Adaptation requires a dynamic process of acquiring knowledge the utilization of that knowledge to alter a unit's skills and the sharing of that learning to other units to integrate and institutionalize better operational practice Mars Adapting explores the internal institutional factors that promote and enable military adaptation It employs four cases drawing upon one from each of the US armed services Each case was an extensive campaign with several cycles of action counteraction In each case the military institution entered the war with an existing mental model of the war they expected to fight For example the US Navy prepared for decades to defeat the Japanese Imperial Navy and had developed carrier based aviation Other capabilities particularly the Fleet submarine were applied as a major adaptation The author establishes a theory called Organizational Learning Capacity that captures the transition of experience and knowledge from individuals into larger and higher levels of each military service through four major steps The learning change cycle is influenced he argues by four institutional attributes leadership organizational culture learning mechanisms and dissemination mechanisms The dynamic interplay of these institutional enablers shaped their ability to perceive and change appropriately

**Fremantle's Submarines** Michael Sturma, 2015-09-15 From unpromising beginnings in March 1942 the Allied submarine base at Fremantle on the west coast of Australia became a vital part of the Allied offensive against Japan Pushed back from the Philippines and the Netherlands East Indies American submariners accompanied by a small group of Dutch forces retreated to Fremantle as a last resort The location was chosen for its good harbor and the fact that it was outside the range of land based Japanese aircraft Unfortunately the base was also far from their patrol areas and supply lines and it was difficult to reinforce should the enemy attack Thanks largely to a welcoming civilian population morale quickly improved The hospitality and sense of belonging fostered by Western Australians became legendary among Allied submariners and remains central to their wartime memories

Perhaps as a result of such a positive experience the Allied forces became much more successful in combat Intertwining social and military history Fremantle's Submarines relates how courage cooperation and community made Fremantle arguably the most successful military outpost of World War II from the standpoint of troop morale **Of Men And War** John Hersey, 2015-11-06 Find out how war smells looks and feels to fighting men and how courage grows from their desperate will to live In five true stories of World War II Survival The Battle of the River Nine Men on a Four Man Raft Borie's Last Battle Front Seats at Sea War a famous war correspondent takes you aboard John F Kennedy's doomed PT 109 into the horror of Guadalcanal onto a death raft in the Southwest Pacific **A Spectacular Failure** Virginia La Grand, 2012-01-01 This study examines Defoe's three volume Robinson Crusoe series in the light of the banter style he developed as a pamphleteer That heavily ironic style had brought him renown but also put him in the pillory The present study explores for the first time Defoe's complaint that readers and pirate abridgers misread his tale of the would be trader Robinson Crusoe Using Discourse Analysis and Relevance Theory to examine the early abridgements of Volume I and Defoe's subsequent two volumes this study argues that Defoe's greatest success is also a peculiar failure **Nimitz at War** Craig L. Symonds, 2022 From one of our most distinguished naval historians the first wartime biography in a half century of the man who guided America to victory in the Pacific in World War Two The most cataclysmic and consequential war in history produced more than its share of fascinating characters and great leaders Some have hardened into legend others fallen below the radar Somewhere in between sits Chester W Nimitz Commander in Chief of both the Pacific Fleet and the Pacific Ocean Area from 1941 to 1945 Nimitz demanded and received less attention than his Army counterpart Douglas MacArthur whose self promotion was prodigious He seemed less colorful than some of his subordinates such as Admiral Bill Bull Halsey and General Holland Howlin Mad Smith Yet Nimitz's was the guiding hand of Allied forces in the Pacific War and the central figure in the victory against Japan Craig L Symonds's full length portrait of Nimitz from the precarious early months following Pearl Harbor when Nimitz assumed command of the Pacific Fleet to the surrender ceremony in Tokyo Bay is the first in more than fifty years Using Nimitz's headquarters the eye of the hurricane as the vantage point Symonds covers the major campaigns from Guadalcanal to Okinawa He captures Nimitz's calm discipline homespun wisdom and uncanny sense of when to project authority and when to pull back illuminating how this helped him direct one of the largest and most complex campaigns in military history fought against an implacable foe The pressures Nimitz faced were crushing involving tactical and strategic decision making visualizing success while mindful of the welfare of those who served under him soldiers sailors and Marines He had to corral assertive subordinates and keep them focused on the larger objectives and maintain a strong working relationship with his own superiors including the equally formidable Admiral Ernest J King and President Franklin D Roosevelt In addition Nimitz had to deal with the public spectacle of war managing the expectations of a nation both expecting victory and longing for the carnage to end In retrospect it seems impossible to imagine anyone else could have

accomplished all this As Symonds absorbing dynamic and authoritative portrait reveals it took leadership asked of and exhibited by few others Behind Nimitz s unflappable professionalism and reservoirs of charm were a resolve and audacity that became evident when most needed *Back from the Deep* Carl LaVO,2012-10-11 This epic World War II saga follows the USS Squalus and Sculpin as they play out their dramatic destinies in the Pacific The author a seasoned journalist re creates their entire perilous journey The Squalus sank during a test dive in 1939 but thirty three trapped crewmen were saved thanks to the revolutionary use of the McCann diving bell The Sculpin s role in that historic rescue is just the first of many incongruous twists of fate that brought the two subs together after the Squalus was salvaged and rechristened the Sailfish Carl LaVO skillfully weaves together the tragic loss of the Sculpin to a Japanese destroyer with the frenetic wrath of its sister sub Their intertwined fates come to an eerie climax as the Sailfish unleashes a ten hour attack on the Japanese aircraft carrier Chuyo amid a raging typhoon unwittingly killing twenty two of the forty three Americans captured from the sunken Sculpin The saga comes to a close with a moving description of the surviving Sculpin crewmen as they face incredible hardship torture and disease as POWs in Japan This book is certain to instill a renewed appreciation for the intrepid men and stealthy boats that were the soul of the Pacific campaign s silent service **Atkinson's Evening Post, and Philadelphia Saturday News** ,1920 SCC Library has 1974 89 plus scattered issues [The Collected Works of R.
