Re-examining the Cold War: U.S.-China Diplomacy, 1954-1973 Robert S. Ross, Changbin Jiang, 2020-03-23 The twelve essays in this volume underscore the similarities between Chinese and American approaches to bilateral diplomacy and between their perceptions of each other's policy making motivations Much of the literature on U S China relations posits that each side was motivated either by ideologically informed interests or by ideological assumptions about its counterpart But as these contributors emphasize newly accessible archives suggest rather that both Beijing and Washington developed a responsive and tactically adaptable foreign policy Each then adjusted this policy in response to changing international circumstances and changing assessments of its counterpart's policies Motivated less by ideology than by pragmatic national security concerns each assumed that the other faced similar considerations

The Wars for Asia, 1911-1949 S. C. M. Paine, 2014-10-09 The Wars for Asia 1911 1949 shows that the Western treatment of World War II the Second Sino Japanese War and the Chinese Civil War as separate events misrepresents their overlapping connections and causes The Chinese Civil War precipitated a long regional war between China and Japan that went global in 1941 when the Chinese found themselves fighting a civil war within a regional war within an overarching global war The global war that consumed Western attentions resulted from Japan's peripheral strategy to cut foreign aid to China by attacking Pearl Harbour and Western interests throughout the Pacific in 1941 S C M Paine emphasizes the fears and ambitions of Japan China and Russia and the pivotal decisions that set them on a collision course in the 1920s and 1930s The resulting wars together yielded a viscerally anti Japanese and unified Communist China the still angry rising power of the early twenty first century

Congress and China Policy Robert G. Sutter,2023-11-20 Congress and China Policy Past Episodic Recent Enduring Influence supports findings that bipartisan majorities in Congress have been instrumental in driving the fundamental shift in American policy toward China carried out during the past six years Filling major gaps in the inadequate treatment of Congress in assessments of US policy toward China this book compares recent Congressional influence with the episodes of Congressional activism in China policy over the past 200 years showing Congress recently has been more important than ever The findings also show that partisan politics Congressional executive competition for policy control swings in public and media opinion and influences by special interests longstanding drivers of past Congressional involvement in China policy have been of secondary or lesser importance as the Congressional members have grappled with the acute dangers posed by Chinese economic security and governance challenges Steady and determined efforts by this cohort of bipartisan Congressional majorities to defend America from Chinese challenges have proven more resolute than the erratic practices of President Trump and previously dismissive Joseph Biden who came late to a tougher policy This volume forecasts that US policy will remain heavily influenced by these members as they serve out their terms in the years ahead

Strait Rituals Pang Yang Huei, 2019-03-01 The two Taiwan Strait crises took place during a particularly tense period of the Cold War. Although each incident was relatively brief, their consequences loom large. Based on analyses of newly available documents from Beijing, Taipei, and Washington, Pang Yang Huei challenges conventional wisdom that claims Sino-US misperceptions of each other's strategic concerns were critical in the 1950s. He underscores the fact that Washington, Taipei, and Beijing were actually aware of one another's strategic intentions during the crises. He also demonstrates conclusively that both crises can be understood as a transformation from tacit communication to tacit accommodation. An important contribution of this study is a better understanding of the role of ritual symbols and gestures in international relations. While it is true that these two crises resulted in a stalemate, the fact that all parties were able to cultivate talks and negotiations brought relations, especially between the US and China, to a new and more stable level. Simply averting the threat of war was a major achievement. *Strait Rituals* is an important micro-history of a significant moment during the Cold War and a rich interpretation of the theoretical use of multiple points of view in writing history. It sets a new standard for understanding China's place in the world. *Strait Rituals* is a solidly detailed and thoroughly footnoted excursion into a critical stage of Cold War history. Dr. Pang's exhaustive archival work sets a real standard in the amalgamation of different sources to reevaluate the Taiwan Strait crises in the 1950s, the repercussions of which can still be felt today. Hsiao-ting Lin, Hoover Institution, Stanford University. An excellent book for those interested in the Taiwan Strait crises in the context of the overall history of international affairs in the Asia-Pacific region. The book will prove to be of great value to those interested in the history of the region that is bound to increase in importance in the years to come. Akira Iriye, Harvard University. Dispassionate, balanced, rigorous in the presentation of facts, much drawn from Chinese archival sources, Pang Yang Huei's work will be indispensable for anyone seeking to understand the issues surrounding this Cold War hangover that continues to trouble contemporary politics across the Taiwan Strait. Geoffrey C. Gunn, *Journal of Contemporary Asia*. [Critical Issues in Contemporary China](#) Czesław Tubilewicz, 2006-09-27 This informative and up-to-date text takes a multidisciplinary approach in examining contemporary China. It provides students with a comprehensive analysis of a number of the social, political, and economic problems that China faces as it enters the twenty-first century. The chapters cover key issues including critical developments in Chinese politics, uneven economic development, privatization in China, environmental problems, demography, and food production, ethnic minorities, cross-strait relations, socio-cultural issues. *Critical Issues in Contemporary China* reflects the many recent reforms in China and will equip the undergraduate with the analytical skills they need to study the critical issues surrounding China from contending perspectives. *American Images of China* Oliver Turner, 2014-04-16 The United States and China are arguably the most globally consequential actors of the early twenty-first century and look set to remain so into the foreseeable future. This volume seeks to highlight that American images of China are responsible for constructing certain truths and realities about that country and its people. It also introduces the understanding that these images have always

been inextricable from the enactment and justification of US China policies in Washington and that those policies themselves are active in the production and reproduction of imagery and in the protection of American identity when seemingly threatened by that of China Demonstrating how past American images of China are vital to understanding the nature and significance of those which circulate today Turner addresses three key questions What have been the dominant American images of China and the Chinese across the full lifespan of Sino US relations How have historical and contemporary American images of China and the Chinese enabled and justified US China policy What role does US China policy play in the production and reproduction of American images of China Exploring and evaluating a wide ranging variety of sources including films and television programmes newspaper and magazine articles the records and journals of politicians and diplomats and governmental documents including speeches and legal declarations this work will be of great interest to students and scholars of US foreign policy American politics China studies and international relations

A War Like No Other Richard C. Bush, Michael E. O'Hanlon, 2007-04-01 Nobody approaches the objectivity and precision of Bush and O Hanlon when it comes to analysis of the military and political dimensions of the Taiwan issue This is one challenge that U S policymakers and military strategists cannot afford to get wrong and scholars cannot afford to ignore Michael Green former Senior Director for Asian Affairs National Security Council The Showdown to Come In 1995 during a heated discussion about that year's Taiwan crisis a Chinese general remarked to a U S diplomat In the end you care more about Los Angeles than you do about Taipei In a single sentence he both questioned the level of America's commitment to a longtime ally and threatened massive perhaps nuclear retaliation should the United States intervene militarily on Taiwan's behalf In the end President Clinton sent two aircraft carriers to the region and China ceased its military exercises in the Taiwan Strait A decade later however China is much stronger both economically and militarily and it holds a significant amount of America's national debt If another Taiwan
