for writing a life of Sir Christopher Wren are so difficult of access as possibly to explain the unsatisfactory character of such biographies as do exist Mr James Elmes who venerated Wren's genius published in 1823 a Life which contained a careful if a dry account of Wren's architectural works and of some of his scientific discoveries He also published a smaller work Sir C Wren and his Times intended perhaps to give a flavour of personal interest to the other volume Neither book succeeds in doing this and both have suffered from the circumstance that Mr Elmes failing eyesight did not permit him to correct the proofs of either work and accordingly many serious errors as to names and dates stand unaltered in them There is a sketch of Wren in the British Family Library one published by the Society for the Diffusion of Useful Knowledge and one in the Biographica Britannica but in them all it is with some of the works of the great architect that we become acquainted not with himself About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
