idea for this book began with David Lavery's 2007 column for flowtv.org 'The Crying Game: Why Television Brings Us to Tears' asked us to consider that age-old mystery: tears. The respondents to David's initial survey, Michele Byers among them, didn't agree on anything. Some cried more over film, some television, some books; some felt their tears to be a release, others to be a manipulation. They did agree, however, as did the readers who responded to the column, that crying over stories and even things is something that is a shared and familiar cultural practice. This book was born from that moment of recognition. On the Verge of Tears is not the first book to think about crying. Tom Lutz's *Crying: The Natural* nor is its approach psychological, sociological, as is Nelson's. It does not limit itself to very contemporary popular culture as does Jenkins' book or material culture as does Schwenger's study. What *On the Verge of Tears* offers are personal, cultural, and political ruminations on the tears we shed in our daily engagements with the world and its artifacts. The essays found within are often deeply personal but also have broad implications for everyday life. The authors included here contemplate how and why art, music, film, literature, theatre, theory, and material artifacts make us weep. They consider the risks of tears in public and private spaces, the way tears implicate us in tragedy, comedy, and horror. *On the Verge of Tears* does not offer a unified theory of crying but instead invites us to imagine tears as a multi-vocal language we can all, in some manner, understand. — *The Art Lover's Pocket Guide*, Henry P. Traverso, PhD, 2013-07
