Black Power Jeffrey O. G. Ogbar, 2019-03-19 Exploring the profound impact of the Black Power movement on African Americans Outstanding Academic Title Choice In the 1960s and 70s the two most important black nationalist organizations the Nation of Islam and the Black Panther Party gave voice and agency to the most economically and politically isolated members of black communities outside the South Though vilified as fringe and extremist these movements proved to be formidable agents of influence during the civil rights era ultimately giving birth to the Black Power movement Drawing on deep archival research and interviews with key participants Jeffrey O G Ogbar reconsiders the commingled stories of and popular reactions to the Nation of Islam Black Panthers and mainstream civil rights leaders Ogbar finds that many African Americans embraced the seemingly contradictory political agenda of desegregation and nationalism Indeed black nationalism he demonstrates was far more favorably received among African Americans than historians have previously acknowledged It engendered minority pride and influenced the political cultural and religious spheres of mainstream African American life for the decades to come This updated edition of Ogbar s classic work contains a new preface that describes the book s genesis and links the Black Power movement to the Black Lives Matter movement A thoroughly updated essay on sources contains a comprehensive review of Black Power related scholarship Ultimately Black Power reveals a black freedom movement in which the ideals of desegregation through nonviolence and black nationalism marched side by side

Revolutionaries to Race Leaders Cedric Johnson, The Black Power movement represented a key turning point in American politics Disenchanted by the hollow progress of federal desegregation during the 1960s many black citizens and leaders across the United States demanded meaningful self determination The popular movement they created was marked by a vigorous artistic renaissance militant political action and fierce ideological debate Exploring the major political and intellectual currents from the Black Power era to the present Cedric Johnson reveals how black political life gradually conformed to liberal democratic capitalism and how the movement's most radical aims the rejection of white aesthetic standards redefinition of black identity solidarity with the Third World and anticapitalist revolution were gradually eclipsed by more moderate aspirations Although Black Power activists transformed the face of American government Johnson contends that the evolution of the movement as a form of ethnic politics restricted the struggle for social justice to the world of formal politics Johnson offers a compelling and theoretically sophisticated critique of the rhetoric and strategies that emerged in this period Drawing on extensive archival research he reinterprets the place of key intellectual figures such as Harold Cruse and Amiri Baraka and influential organizations including the African Liberation Support Committee the National Black Political Assembly and the National Black Independent Political Party in postsegregation black politics while at the same time identifying the contradictions of Black Power radicalism itself Documenting the historical retreat from radical democratic struggle Revolutionaries to Race Leaders ultimately calls for the renewal of popular struggle and class conscious politics Cedric Johnson is assistant professor of political science at Hobart and William Smith Colleges

The Dream Is Lost Julian Maxwell Hayter, 2017-06-02 Once the capital of the Confederacy and the industrial hub of slave based tobacco production Richmond Virginia has been largely overlooked in the context of twentieth century urban and political history By the early 1960s the city served as an important center for integrated politics as African Americans fought for fair representation and mobilized voters in order to overcome discriminatory policies Richmond's African Americans struggled to serve their growing communities in the face of unyielding discrimination Yet due to their dedication to strengthening the Voting Rights Act of 1965 African American politicians held a city council majority by the late 1970s In The Dream Is Lost Julian Maxwell Hayter describes more than three decades of national and local racial politics in Richmond and illuminates the unintended consequences of civil rights legislation He uses the city's experience to explain the political abuses that often accompany American electoral reforms and explores the arc of mid twentieth century urban history In so doing Hayter not only reexamines the civil rights movement's origins but also seeks to explain the political economic and social implications of the freedom struggle following the major legislation of the 1960s Hayter concludes his study in the

Olson,Mariah Gumpert,2018-04-19 This volume serves as an invaluable study guide covering all of the key political social and cultural concepts of the turbulent 1960s The 1960s were a polarizing decade beginning brightly and with hope but ending in disappointment and disarray By the end traditional values had been subverted political institutions had been overturned and marginalized groups had battled their own government to win equal rights and freedoms The clear cut foreign policies of the postwar era brought mixed results and the world s mightiest nation became mired in a war it could not win This overview of the 1960s covers all of the key political social and cultural concepts of the decade through topical and biographical entries

Civil Rights History from the Ground Up Emilye Crosby, 2011 After decades of scholarship on the civil rights movement at the local level the insights of bottom up movement history remain essentially invisible in the accepted narrative of the movement and peripheral to debates on how to research document and teach about the movement This collection of original works refocuses attention on this bottom up history and compels a rethinking of what and who we think is central to the movement The essays examine such locales as Sunflower County Mississippi Memphis Tennessee and Wilson North Carolina and engage such issues as nonviolence and self defense the implications of focusing on women in the movement and struggles for freedom beyond voting rights and school desegregation Events and incidents discussed range from the movement's heyday to the present and include the Poor People's Campaign mule train to Washington D C the popular response to the deaths of Rosa Parks and Coretta Scott King and political cartoons addressing Barack Obama's presidential campaign The kinds of scholarship represented here which draw on oral history and activist insights along with traditional sources and which bring the specificity of time and place into dialogue with broad themes and a national context are crucial as we continue to foster scholarly debates evaluate newer conceptual frameworks and replace the superficial narrative that persists in the popular imagination
