Robinson,2007-04-30 For more than half of the twentieth century the Korean peninsula has been divided between two hostile and competitive nation states each claiming to be the sole legitimate expression of the Korean nation The division remains an unsolved problem dating to the beginnings of the Cold War and now projects the politics of that period into the twenty first century Korea s Twentieth Century Odyssey is

designed to provide readers with the historical essentials upon which to unravel the complex politics and contemporary crises that currently exist in the East Asian region Beginning with a description of late nineteenth century imperialism Michael Robinson shows how traditional Korean political culture shaped the response of Koreans to multiple threats to their sovereignty after being opened to the world economy by Japan in the 1870s He locates the origins of both modern nationalism and the economic and cultural modernization of Korea in the twenty years preceding the fall of the traditional state to Japanese colonialism in 1910 Robinson breaks new ground with his analysis of the colonial period tracing the ideological division of contemporary Korea to the struggle of different actors to mobilize a national independence movement at the time More importantly he locates the reason for successful Japanese hegemony in policies that included and thus implicated Koreans within the colonial system He concludes with a discussion of the political and economic evolution of South and North Korea after 1948 that accounts for the valid legitimacy claims of both nation states on the peninsula

Several key themes are considered including the role of bureaucratic established religions in integrating challenging and fighting shamanic practices, the position of women within shamanic complexes and perceptions of the body. Beginning with a chapter that places the shamaness at the centre of the discussion, chapters then approach these issues in a variety of ways from historically informed accounts to presenting the findings of extensive ethnographic research by the authors themselves.
