Inventing the Silent Majority in Western Europe and the United States Anna von der Goltz,Britta Waldschmidt-Nelson,2019-03-28 For historians of social movements this text explores 1960s and 1970s conservative political activism in the US and Western Europe **American Missionaries in Iran during the 1960s and 1970s** Philip O. Hopkins,2020-09-22 This work explores the interaction of American Protestant missionaries with Iranians during the 1960s and 1970s It focuses on the missionary activities of four American Protestant groups Presbyterians Assemblies of God International Missions and Southern Baptists It argues that American missionaries predisposition toward their own culture confused their message of the gospel and added to the negative perception of Christianity among Iranians This bias was seen primarily in the American missionaries desire to modernize Iran through education and healthcare and between the missionaries relationship with Iranian Christians Iranian attitudes towards missionary involvement in these areas are investigated as is the changing American missionary strategy from a traditional method where missionaries had the final say on most matters related to American and Iranian Christian interaction to the beginnings of an indigenous system where a partnership developed between the missionary and the Iranian Christian *Managing the British Economy in the 1960s: A Treasury Perspective* Sir Alec Cairncross,2016-07-27 In *Managing the British Economy in the 1960s* Sir Alec Cairncross who was Economic Adviser to HMG in 1961 64 and Head of the newly created Government Economic Service in 1964 69 tells the inside story of the making of economic policy under four Chancellors of the Exchequer between 1960 and 1970 first under a Conservative government then under a Labour government He describes how the Treasury dealt with a whole succession of crises and experimented with many new departures of policy over the decade for example the efforts to engage in long term planning form a workable incomes policy make use of new taxes for new purposes and enter the European Community In parallel with the 1990s the story is dominated by the effort to avoid devaluation followed by the struggle to make it work and keep the pound from sliding further **Making Peace with the 60s** David Burner,2021-07-13 David Burner s panoramic history of the 1960s conveys the ferocity of debate and the testing of visionary hopes that still require us to make sense of the decade He begins with the civil rights and black power movements and then turns to nuanced descriptions of Kennedy and the Cold War the counterculture and its antecedents in the Beat Generation the student rebellion the poverty wars and the liberals war in Vietnam As he considers each topic Burner advances a provocative argument about how liberalism self

deconstructed in the 1960s In his view the civil rights movement took a wrong turn as it gradually came to emphasize the identity politics of race and ethnicity at the expense of the vastly more important politics of class and distribution of wealth The expansion of the Vietnam War did force radicals to confront the most terrible mistake of American liberalism but that they also turned against the social goals of the New Deal was destructive to all concerned Liberals seemed to rule in politics and in the media Burner points out yet they failed to make adequate use of their power to advance the purposes that both liberalism and the left endorsed And forces for social amelioration splintered into pairs of enemies such as integrationists and black separatists the social left and mainline liberalism and advocates of peace and supporters of a totalitarian Hanoi Making Peace with the 60s will fascinate baby boomers and their elders who either joined denounced or tried to ignore the counterculture It will also inform a broad audience of younger people about the famous political and literary figures of the time the salient moments and above all the powerful ideas that spawned events from the civil rights era to the Vietnam War Finally it will help to explain why Americans failed to make full use of the energies unleashed by one of the most remarkable decades of our history **Social Controversy and Public Address in the 1960s and Early 1970s** Richard J.

Jensen,2017-10-01 The period between the 1960s and 1970s is easily one of the most controversial in American history Examining the liberal movements of the era as well as those that opposed them this volume offers analyses of the rhetoric of leaders including those of the civil rights movement the Chicano movement the gay rights movement second wave feminism and conservative resistance groups It also features an introduction that summarizes much of the significant research done by communication scholars on dissent in the 1960s and 1970s This time period is still a fertile area of study and this book provides insights into the era that are both provocative and illuminating making it an essential read for anyone looking to learn more about this time in America **Self and Identity Through the Life Course in Cross-Cultural Perspective**

Timothy J Owens,2000 This volume represents a new name and a new focus for its predecessor Current Perspectives on Aging and the Life Cycle volumes 1 4 We begin our new series now titled Advances in Life Course Research with volume 5 Its statement of purpose is the publication of theoretical analyses reviews policy analyses and positions and theory based empirical papers on issues involving all aspects of the human life course It adopts a broad conception of the life course and invites and welcomes contributions from all disciplines and fields of study interested in understanding describing and predicting the antecedents of and consequences for the course that human lives take from birth to death within and across time and cultures construed in its broadest sense regardless of methodology theoretical orientation or disciplinary affiliation

**Literature and the Arts since the 1960s** Jorge Almeida e Pinho,Márcia Lemos,2020-08-13 This collection of essays focuses on addressing the imaginative wake of the rebellious late 1960s with a particular but not exclusive focus on word and image relations The volume showcases and discusses the impact of such processes on literature and the arts of that mythologized historical period It explores the impact of its defining causes hopes and regrets on the creative imagination The

awakening moment for that extraordinary momentous period in the global socio political memory was May 1968 which came to be seen as the culmination and epitome of a series of processes involving protest and the affirmation of previously silent or subaltern causes Such processes and causes were predicated on challenges to established powers and mindsets and hence on demands for change which have had rich consequences in literature and the arts

**Africa in Contemporary Perspective** Takyiwaa Manuh, Esi Sutherland-Addy, 2013-12-29 An important feature of Ghanaian tertiary education is the foundational African Studies Programme which was initiated in the early 1960s Unfortunately hardly any readers exist which bring together a body of knowledge on the themes issues and debates which inform and animate research and teaching in African Studies particularly on the African continent This becomes even more important when we consider the need for knowledge on Africa that is not Eurocentric or sensationalised but driven from internal understandings of life and prospects in Africa Dominant representations and perceptions of Africa usually depict a continent in crisis Rather than buying into external representations of Africa with its lacks and aspirations for Western modernities we insist that African scholars in particular should be in the forefront of promoting understanding of the pluri lingual overlapping and dense reality of life and developments on the continent to produce relevant and usable knowledge Continuing and renewed interest in Africa's resources including the land mass economy minerals visual arts and performance cultures as well as bio medical knowledge and products by old and new geopolitical players obliges African scholars to transcend disciplinary boundaries and to work with each other to advance knowledge and uses of those resources in the interests of Africa's people

**The Cultural Histories of Radio Luxembourg and Europe n°1** Richard Legay, 2023-12-30 This book focuses on two commercial radio stations Radio Luxembourg and Europe n 1 which were popular institutions in Western Europe throughout the Long Sixties working across media and broadcasting transnationally It argues that the existence of an overarching dispositif of commercial radio stations enabled them to operate on various dimensions and differentiated them from other broadcasters The book therefore answers current calls in media history to look beyond national and single medium borders and contributes to the cultural and media history of Western Europe

**The 1960s in Australia** Shirleene Robinson, Julie Ustinoff, 2012-01-17 The 1960s is one of the most heavily mythologised decades of the twentieth century More than 50 years on the era continues to capture the public's imagination The 1960s in Australia People Power and Politics recognises the complexity of social and cultural change by presenting a broad range of contributions that acknowledge an often overlooked fact that not everyone experienced the 1960s in the same way The diversity of the time is confirmed by contributions from a number of expert Australian historians who each provide an insight into Australia in the 1960s offering

an understanding of the social realities of this period as well as the ebbs and flows of transnational influence This collection includes a featured contribution by prominent Australian historian Raymond Evans who provides a personal insight into the 1960s Other contributors also place the lived experience at the centre of their analysis by considering the growth of modern flats the impact of cosmopolitanism and sex and sexuality in the Sixties The book also highlights the way power was deployed and deconstructed during this era by considering the psychiatric profession the agenda of the counter culture and the role that women s magazines played in reinforcing dominant gender paradigms The complex politics of the era are also explored through the transnational impact of figures such as Anthony Crosland the impact of the Vietnam War and the multiplicity of motivations behind the anti war protest and the Aboriginal rights movement of the era The 1960s in Australia Power People and Politics is a fresh focus on a significant time in Australia s history It brings together a collection of innovative and engaging explorations into the Australian Sixties which underline the complexity of the time **British Concepts of**

**Heroic "Gallantry" and the Sixties Transition** Matthew J. Lord,2021-05-03 This book examines the relationship between concepts of heroic gallantry as projected by the British honours system and the sociocultural political military and international transitions of the supposed Sixties cultural revolution In so doing it considers how a conservative hierarchical and state orientated concept both evolved and endured during a period of immense change in which traditional assumptions of deference to elites were increasingly challenged Covering the period often defined as The Long Sixties from 1955 79 this study concentrates on four distinct transitions undergone by both state and non state gallantry awards including developments within the welfare state class and gender discrimination counterinsurgency and decolonisation It ultimately sheds fresh light upon the importance of postwar decades to the continued evolution of concepts of gallantry and heroism in British culture using a range of underexplored government and media archives It will be of interest to scholars students and general researchers of heroism in modern Britain the Sixties revolution postwar military history and both the social and political evolution of British honours decorations and medals *A History of the US Army Corps of Engineers Hydroelectric*

**Poetry from a Black Man's Perspective** Dermoth Alexander Henry, 2022-11-14 Poetry from a Blackman's perspective is not seen as emotional for emotions is feelings where as it is the heart that controls the mind for instance you could be sad and write about something that makes you feel glad or visa versa When I write I try to balance stable with stability nothing is seen as controversial Although surprising the reader will certainly agree with the concept From the days of the Hieroglyphics in Egypt Black people have got their point across with pronounce accuracy so following in the footsteps of my Ancestors the path is made easier

*What Really Happened to the 1960s* Edward P. Morgan, 2010-11-18 Wherever we turn these days we encounter reminders of the sixties They re invoked in presidential campaigns American military actions and outbursts of mass protest We re bombarded with media saturated anniversaries of iconic events from JFK's inauguration and assassination to urban riots and Woodstock But as Edward Morgan suggests these references offer little more than an endless stream of distracting imagery that has more to do with today's politics and economics than with the reality of yesterday's social movements In his provocative look at mass media's connection with those turbulent years Morgan simultaneously seeks to explain what happened in the 1960s and what happened to how we remember it His comprehensive overview and critical analysis reveal how the mass media have shaped the popular image of a raucous decade in ways that have curtailed its promise of democracy Morgan's in depth study of sixties social movements and their depictions in corporate America's print media film and television helps to explain why the past still provokes deep emotions even antagonism half a century later He blends history sociology political science media and cultural studies and critical theory to explain why the 1960s have been so virulently targeted particularly by critics on the right who blame today's self indulgent culture on baby boomers and sixties permissiveness instead of the real culprits consumer driven capitalism and neoliberal politics Emphasizing the tensions between capitalism and democracy Morgan investigates the fate of democracy in our media driven culture first by examining the ways that the 1960s were represented in the media at the time then by exploring how popular versions of the sixties have glossed over their more radically democratic qualities in favor of sensationalism and ideological constructions He reminds us of what really happened then shows us how the media trivialized and satirized those events co-opting and commercializing the decade's legacy and in doing so robbing it of its more radical democratic potential By revisiting this chapter of the past Morgan shows that it has much to tell us about where we are today and how we got here Whether you lived through the sixties or only read about them or only saw Hollywood's version of them in *Forrest Gump* this book will put their lessons in clearer perspective
