rooted in the premise that these communications satellites will ultimately become the cultural and material ruins of the late 20th and early 21st centuries far outlasting anything else humans have created Inspired in part by ancient cave paintings nuclear waste warning signs and Carl Sagan's Golden Records of the 1970s artist geographer and MacArthur Genius Fellow Trevor Paglen has developed a collection of one hundred images that will be etched onto an ultra archival golden silicon disc The disc commissioned by Creative Time will then be sent into orbit onboard the Echostar XVI satellite in September 2012 as both a time capsule and a message to the future The selection of 100 images which are the centerpiece of the book was influenced by four years of interviews with leading scientists philosophers anthropologists and artists about the contradictions that characterize contemporary civilizations Consequently The Last Pictures engages some of the most profound questions of the human experience provoking discourse about communication deep time and the economic environmental and social uncertainties that define our historical moment Copub Creative Time Books
