

## CHAPTER 3

# Integrating Pronunciation Into Listening/Speaking Classes

*Greta Muller Levis and John Levis*

Years ago, when a friend came over to our house, we introduced him to our “daughter” at the time, who was sitting on the living room floor, with her back to the front door.

“Jim, this is our German exchange student, Monika. Monika, this is Jim.”

“Hello,” said Jim.

“Hello,” replied Monika.

“You don’t sound like you’re from Germany,” said Jim.

After Jim had left, Monika let us know how incredulous she was. “How did he know I didn’t sound German? All I said was ‘hello!’”

How indeed? The consonants /h/ and /l/ are not all that different in German than they are in English. The vowels /ɛ/ and /o/ are not necessarily very different either. What was it that made Jim think Monika sounded like she didn’t have a foreign accent?

Probably it was a combination of things, including slight differences in vowel production, but more importantly, it was her prosody, or suprasegmentals, including the relative length (marked phonetically with a colon) and melody of the two syllables.

/hɛ - l oʊ - /

Prosody gives a language the characteristic shape that carries a person’s meaning beyond the words being spoken. Jim heard in Monika’s “hello” a person who was fluent and confident speaking English. Beyond the simple greeting word was an expression of her ability to communicate in a familiar and comfortable way.

*The Integration of Phonetic Knowledge in Speech Technology* William J. Barry, William John Barry, Willem A. van Dommelen, 2006-03-31 Continued progress in Speech Technology in the face of ever increasing demands on the performance levels of applications is a challenge to the whole speech and language science community Robust recognition and understanding of spontaneous speech in varied environments good comprehensibility and naturalness of expressive speech synthesis are goals that cannot be achieved without a change of paradigm This book argues for interdisciplinary communication and cooperation in problem solving in general and discusses the interaction between speech and language engineering and phonetics in particular With a number of reports on innovative speech technology research as well as more theoretical discussions it addresses the practical scientific and sometimes the philosophical problems that stand in the way of cross disciplinary collaboration and illuminates some of the many possible ways forward Audience Researchers and professionals in speech technology and computational linguists Teaching English Pronunciation for a Global World Robin Walker, Gemma Archer, 2024-04-26 Into the Classroom is a series of short practical guides that help teachers who work in the primary and secondary school setting to make sense of new teaching tools techniques and educational policy with ideas for implementing them in the classroom Teaching English Pronunciation for a Global World provides teachers with strategies and practical pronunciation ideas to help students aiming for international intelligibility or a native speaker accent Explains the importance of focusing on consonants vowels and stress Encourages the use of the students first language as a starting point for teaching aspects of English pronunciation Explores how technology can be used to aid pronunciation and also provide exposure to different accents Provides practical classroom ideas focusing on specific pronunciation points using a step by step approach Stresses the vitally important role that pronunciation plays in communication and how this can be reflected in assessment *Integrating Engineering Education and Humanities for Global Intercultural Perspectives* Zhanna Anikina, 2020-05-06 This book presents papers from the International Conference on Integrating Engineering Education and Humanities for Global Intercultural Perspectives IEEHGIP 2020 held on 25 27 March 2020 The conference brought together researchers and practitioners from various disciplines within engineering and humanities to offer a range of perspectives Focusing on but not limited to Content and Language Integrated Learning CLIL in Russian education the book will appeal to a wide academic audience seeking ways to initiate positive changes in education **Clear Speech Teacher's Resource Book** Judy B. Gilbert, 2005-05-23 3 class audio CD s teacher s resource manual with accompanying audio CD student s book with accompanying audio CD The Role of Letter-Speech Sound Integration in Typical and Atypical Reading Development Jurgen Tijms, Silvia Brem, Gorka Fraga González, Iliana I. Karipidis, 2020-07-24 Fluency is the quintessence of effective reading To obtain socio economic success fluent reading is of primordial importance and reading is considered a crucial marker of an individual s life course Approximately 5% of children are affected by developmental dyslexia exhibiting inaccurate word

recognition spelling phonological decoding and most importantly severely dysfluent reading which remains as their most characterizing and persistent deficit Unable to attain society's literacy demands individuals with dyslexia are at severe risk for adverse academic economic and psychosocial consequences Recently it has been posed that the development of automatic letter speech sound LSS integration is critical in the acquisition of fluent reading skills and in particular that a failure to develop automatic LSS integration results in an impairment of reading fluency In support neurocognitive research has suggested that the development of automatized processing of LSS associations is an essential step in the formation of a functional neural network for reading Furthermore both neurocognitive and behavioural studies have suggested a less efficient LSS integration in children with dyslexia than in typical readers Finally results from intervention studies have suggested that training LSS might be a promising approach to ameliorate dysfluent reading in children with dyslexia Nonetheless there is still a considerable gap of knowledge in our understanding of the mechanisms by which learning LSS associations relate to dysfluent reading
