Playing to Win Hilary Levey Friedman, 2013-08-03 Many parents work more hours outside of the home and their lives are crowded with more obligations than ever before many children spend their evenings and weekends trying out for all star teams traveling to regional and national tournaments and eating dinner in the car while being shuttled between activities In this vivid

ethnography based on almost 200 interviews with parents children coaches and teachers Hilary Levey Friedman probes the increase in children s participation in activities outside of the home structured and monitored by their parents when family time is so scarce As the parental second shift continues to grow alongside it a second shift for children has emerged especially among the middle and upper middle classes which is suffused with competition rather than mere participation What motivates these particular parents to get their children involved in competitive activities Parents primary concern is their children s access to high quality educational credentials the biggest bottleneck standing in the way of or facilitating entry into membership in the upper middle class Competitive activities like sports and the arts are seen as the essential proving ground that will clear their children s paths to the Ivy League or other similar institutions by helping them to develop a competitive habitus This belief motivated both by reality and by perception and shaped by gender and class affects how parents envision their children s futures it also shapes the structure of children s daily lives what the children themselves think about their lives and the competitive landscapes of the activities themselves

Revolution in the Bleachers Regan McMahon, 2007-04-19 A journalist and mother of two athletic kids exposes the physical and emotional dangers of our over the top youth sports culture and offers practical solutions for positive change A decade ago Joan Ryan s expos Little Girls in Pretty Boxes changed the way we look at elite sports namely figure skating and gymnastics Today there is another crisis in youth sports It may affect any child from the kindergartner on the soccer field to the high school athlete competing for scarce scholarship money Regan McMahon s Revolution in the Bleachers is a wake up call for parents who spend their lives shuttling their kids from one field and practice to the next and wonder what happened to family life Have late weeknight practices made family meals a thing of the past Do you spend hours in the car each week driving to games across town or across the state Do you worry that your kids will miss out on competitive experiences college scholarships and other advantages if they do not specialize in one sport early on Do you feel pressured to have your kids join elite club teams with steep fees and demanding travel schedules Do your kids get repetitive stress injuries that necessitate trips to orthopedic surgeons or physical therapists Do you miss your non sports related vacations as a family If so the good news is you are not alone Other parents and kids and even some coaches are on your side And you have a choice Regan McMahon s book began as a cover story for the San Francisco Chronicle Magazine Titled How Much is Too Much it got a tremendous response Finally someone had dared to say what many parents were thinking Parents kids and coaches responded prompting McMahon to criss cross the country doing interviews and research to find out how deep the problem goes and how to fix it In Revolution in the Bleachers McMahon traces the evolution of the over the top youth culture and gives you a practical plan of action to bring balance back to kids lives and our families McMahon s rallying cry for a revolution in the bleachers could not be more timely or useful for parents trying to do the best for their kids
