Fierce Climate, Sacred Ground Elizabeth Marino, 2015-09-15 With three roads and a population of just over 500 people Shishmaref Alaska seems like an unlikely center of the climate change debate But the island home to Iupiaq Eskimos who still live off subsistence harvesting is falling into the sea and climate change is at least in part to blame While countries sputter and stall over taking environmental action Shishmaref is out of time Publications from the New York Times to Esquire have covered this disappearing village yet few have taken the time to truly show the community and the two millennia of traditions at risk In *Fierce Climate Sacred Ground* Elizabeth Marino brings Shishmaref into sharp focus as a place where people in a close knit determined community are confronting the realities of our changing planet every day She shows how physical dangers challenge lives while the stress and uncertainty challenge culture and identity Marino also draws on Shishmaref's experiences to show how disasters and the outcomes of climate change often fall heaviest on those already burdened with other social risks and often to communities who have contributed least to the problem Stirring and sobering *Fierce Climate Sacred Ground* proves that the consequences of unchecked climate change are anything but theoretical

history of US foreign policy **The Ancient Mediterranean Sea in Modern Visual and Performing Arts** Rosario Rovira Guardiola, 2017-12-14 When thinking about the Mediterranean Fernand Braudel's haunting words resound like an echo of the sea and its millenary history From Prehistory until today the Mediterranean has been setting witness and protagonist of mythical adventures of encounters with the Other of battles and the rise and fall of cultures and empires of the destinies of humans Braudel's appeal for a long duration history of the Mediterranean challenged traditional views that often present it as a sea fragmented and divided through periods This volume proposes a journey into the bright and dark sides of the ancient Mediterranean through the kaleidoscopic gaze of artists who from the Renaissance to the 21st century have been inspired by its myths and history The view of those who imagined and recreated the past of the sea has largely contributed to the shaping of modern cultures which are inexorably rooted and embedded in Mediterranean traditions The contributions look at modern visual reinterpretations of ancient myths fiction and history and pay particular attention to the theme of sea travel and travellers which since Homer's Odyssey has become the epitome of the discovery of new worlds of cultural exchanges and a metaphor of personal developments and metamorphoses **Geographies of Myth and Places of Identity** Marco Benoît Carbone, 2022-01-13 Turning to a region of South Italy associated with Greater Greece and the geographies of Homer's Odyssey Marco Benoit Carbone delivers a historical and ethnographic treatment of how places defined in public imagination and media by their associated histories become sites of memory and identity as their landscape and mythologies turn into insignia of a romanticised antiquity For the ancient Greeks Homer had set the marine monsters of the Odyssey in the Strait between Calabria and Sicily Since then this passage has been glowing with the aura of its mythological landmarks Travellers and tourists have played Odysseus by re-enacting his journey Scholars and explorers have explained the myths as metaphors of whirlpools and marine fauna The iconic Strait and village of Scilla have turned into place myths and playgrounds defined by the region's heritage Carbone observes the enduring impact of Hellas on the real Strait today The continuous rekindling of cultural and visual traditions of place in the arts media travel and tourism have intersected with philhellenic historiographies shaping local policies public histories views of development and forms of Hellenicist identitarianism Elements of society have celebrated the landscape of the Odyssey appropriated Homer as their imagined heirs and purported themselves as the original Europeans pandering to outdated ideological appropriations of classical antiquity and exclusionary West-centric views of the Mediterranean
